2. IMPORTANT SAFETY INFORMATION

WARNING: Keep out of reach of children and pets.

- Ensure all components are present and undamaged before assembly. Do not proceed with assembly if any parts are missing or damaged.
- Assemble the cabinet on a soft, clean surface to prevent scratches.
- Use protective gloves during assembly to avoid injury from sharp edges.
- For stability, it is recommended to anchor the cabinet to a wall, especially in households with children or pets. Wall anchoring hardware is included.
- Do not overload shelves. Each shelf has a maximum load capacity of 180 pounds.
- Always close and lock the cabinet doors and drawer when storing hazardous or valuable items.

3. PACKAGE CONTENTS

Verify that all parts listed in the assembly instructions are present before beginning assembly. The package typically includes:

- Metal panels (top, bottom, sides, back, doors, drawer components)
- Adjustable shelf(es)

- Locking mechanisms with keys (separate keys for drawer and cabinet doors)
- Drawer slides
- Handles
- Assembly hardware (screws, anchors, etc.)
- Instruction manual

6. OPERATING INSTRUCTIONS

6.1 Locking Mechanism

The cabinet features a three-point locking system for the double doors and a separate lock for the top drawer. Each lock is supplied with two unique keys. Ensure you keep track of which key operates which lock.

6.2 Adjustable Shelf

The internal shelf can be adjusted to various heights to accommodate items of different sizes. To adjust, carefully lift the shelf, reposition the support clips to the desired slots on the side panels, and then place the shelf back onto the clips. Ensure the shelf is level and securely seated before placing items on it.

6.3 Magnetic Door Closure

The cabinet doors are equipped with magnetic closures and mute pads to ensure they remain securely shut and operate quietly, even when not locked.

6.4 Multipurpose Use

This cabinet is suitable for various environments including offices, garages, homes, kitchens, utility rooms, and workshops. Its durable construction and locking features make it ideal for storing tools, files, cleaning supplies, and other items securely.

7. MAINTENANCE

7.1 Cleaning

The powder-coated steel surface is easy to clean. Use a soft, damp cloth with mild soap and water. Avoid abrasive cleaners or harsh chemicals that could damage the finish.

7.2 Lock Care

Periodically check the locks for smooth operation. If a lock becomes stiff, apply a small amount of graphite lubricant to the key and insert it into the lock several times.

8. TROUBLESHOOTING

8.1 Doors or Drawer Not Closing Properly

- Check for any obstructions preventing full closure.
- Ensure the cabinet is on a level surface. Uneven surfaces can cause misalignment.
- Verify that the magnetic closures are aligned and free of debris.

8.2 Key Not Working

- Ensure you are using the correct key for the specific lock (drawer key for drawer, cabinet door key for cabinet doors).
- Check for any foreign objects in the keyhole.
- Apply graphite lubricant as described in the Maintenance section.
