Hoover HMC5 (Model 39300771)

Hoover HMC5 Mattress Cleaner User Manual

Model: HMC5 (39300771) | Brand: Hoover

1. INTRODUCTION

The Hoover HMC5 is a powerful mattress cleaner designed for deep cleaning of mattresses, sofas, and various fabric furnishings. It integrates four automatic functions: Beating, Suction, UV Lamp, and Drying, to effectively remove dust mites, allergens, and bacteria, ensuring a cleaner and healthier environment.

2. PRODUCT FEATURES

The HMC5 is equipped with advanced features to provide an optimized cleaning experience:

- **4-in-1 Automatic Functions:** The device automatically activates Beating, Suction, UV Lamp, and Drying upon startup, penetrating deep into fabrics.
- **Integrated Dust Sensor:** A smart LED sensor indicates dust levels. It glows red for dirty surfaces and turns green when the area is clean, ensuring thorough cleaning.
- **Motorized Agitator:** Rotates at 4,200 revolutions per minute to beat the mattress, dislodging dust mites and allergens from deep within the fibers.
- **UV-C Lamp:** Helps reduce bacteria and maintain hygiene. For safety, the UV light activates only when in direct contact with a surface and deactivates when lifted.
- **Drying Function:** Utilizes warm air to prevent moisture buildup and inhibit mold growth.
- **Dual Container Design:** Ensures powerful and sustained suction with a 0.6 L capacity, allowing for complete cleaning without frequent emptying.

3. SETUP

1. **Unpacking:** Carefully remove the HMC5 from its packaging. Retain all packaging materials for future storage or transport.
2. **Component Check:** Verify that all components listed in the product manual (e.g., main unit, dust container, filter) are present and undamaged.
3. **Power Connection:** Plug the power cord into a suitable electrical outlet. Ensure the voltage matches the product's requirements.
4. **Initial Inspection:** Before first use, ensure the dust container and filter are correctly installed.

4. OPERATING INSTRUCTIONS

4.1 Powering On and Automatic Functions

To begin cleaning, simply press the power button. The HMC5 will automatically activate all four functions: Beating, Suction, UV Lamp, and Drying. There is no need to select individual modes.

4.2 Using the Dust Sensor

The integrated dust sensor provides real-time feedback on surface cleanliness:

- **Red Light:** Indicates that the surface is dirty and requires further cleaning.
- **Green Light:** Indicates that the surface is clean.

Move the cleaner slowly over the surface, observing the sensor light to ensure thorough cleaning.

4.3 UV Lamp Operation and Safety

The UV lamp is designed to activate only when the device is in direct contact with a surface. This safety mechanism prevents accidental exposure to UV-C rays. Ensure firm contact with the mattress or fabric for the UV lamp to function. UV-C rays are not visible to the human eye.

4.4 Versatile Application

The HMC5 is suitable for various fabric surfaces, including mattresses, sofas, cushions, and children's mattresses. Its lightweight design makes it easy to maneuver and store.

Image 4.2: A close-up of the HMC5's intuitive control panel, showing indicators for humidity level, UV light status, dust detection (mite), and drying function.

5. MAINTENANCE

5.1 Emptying the Dust Container

The HMC5 features a dual container design for easy maintenance. To empty, locate the release button on the dust container and press it to detach. Dispose of the collected dust and debris. The 0.6 L capacity minimizes the frequency of emptying.

5.2 Cleaning the Filter

Regularly clean the micro-filters to maintain optimal suction performance. Refer to the detailed instructions in the included manual for filter removal and cleaning procedures. Ensure the filter is completely dry before reinserting.

MANUTENZIONE SENZA PROBLEMI

Facile svuotamento del contenitore

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
UV light not activating	Not in direct contact with surface; safety rollers not fully depressed.	Ensure the cleaner is pressed firmly against the surface so both safety rollers are engaged.
Reduced suction power	Dust container full; filter clogged.	Empty the dust container. Clean or replace the filter as per maintenance instructions.
Dust sensor always red/inaccurate	Sensor window is dirty; persistent dust.	Clean the sensor window with a soft, dry cloth. Continue cleaning the area until the light turns green.
Device not turning on	Power cord not properly connected; no power from outlet.	Check power cord connection. Test the outlet with another device.

Problem	Possible Cause	Solution

7. SPECIFICATIONS

Feature	Specification
Brand	Hoover
Model	39300771 (HMC5)
Color	White
Dimensions	40.9 x 32.9 x 24.2 cm
Weight	2.22 Kilograms
Wattage	400 watts
Number of Speeds	1
Special Features	UV Light
Filter Type	Micro filters
Cordless	No
Dust Container Capacity	0.6 L

8. SAFETY INFORMATION

- Always unplug the device before cleaning or performing maintenance.
- Do not use the appliance on wet surfaces or to pick up liquids.
- Keep hands, hair, and loose clothing away from moving parts.
- Do not look directly at the UV light when it is active. The safety mechanism is designed to prevent direct exposure during normal use.
- Store the appliance in a dry place, out of reach of children.
- Do not operate the appliance if the power cord or plug is damaged.

9. WARRANTY AND SUPPORT

The Hoover HMC5 mattress cleaner comes with a manufacturer's warranty. Please refer to the warranty card included in your product packaging for specific terms and conditions.

For technical support, spare parts, or service inquiries, please contact Hoover customer service through their official website or the contact information provided in your product documentation.
