

PETLIBRO PLAF203

PETLIBRO Automatic Pet Feeder with 1080P Camera (Model PLAF203) User Manual

Model: PLAF203

1. IMPORTANT SAFETY INFORMATION

- This product is designed for indoor use only.
- Keep the device out of reach of children and pets to prevent accidents.
- Use only the provided power adapter. Ensure the power cord is not damaged or pinched.
- Do not immerse any part of the feeder in water, except for the removable food bowls and tank as specified in cleaning instructions.
- If the device malfunctions, unplug it immediately and contact customer support. Do not attempt to repair it yourself.

2. PRODUCT OVERVIEW

The PETLIBRO Automatic Pet Feeder with 1080P Camera (Model PLAF203) offers a smart solution for pet feeding, allowing you to manage your pet's meals remotely and monitor their activity. It features a high-definition camera, two-way audio, and customizable feeding schedules.

Key Features:

- **1080P High-Quality Camera with Night Vision:** Monitor your pet with clear video, even in low light conditions.
- **App Remote Operation:** Control feeding schedules and dispense food from anywhere via the dedicated PETLIBRO app (iOS/Android). Supports 2.4GHz and 5GHz WiFi.

- **AI Detection:** Motion and sound detection features automatically record and save events, sending notifications to your smartphone.
- **Two-Way Audio:** Speak to your pet and hear their responses through the built-in microphone and speaker. Record custom voice messages to play during meal times.
- **Dual Bowl Design:** Features a movable splitter to divide food into two bowls, suitable for feeding two pets simultaneously.
- **Freshness Preservation:** Equipped with a desiccant bag and silicone seal ring to keep food fresh and crunchy.
- **Emergency Power Supply:** Operates on both AC adapter and backup batteries (not included) to ensure continuous feeding during power outages.
- **Anti-Jamming Sensor:** Infrared sensor detects food blockages and stops dispensing to prevent overflow.

3. SETUP GUIDE

3.1. Assembly

Assemble the feeder components according to the diagram. Ensure all parts are securely connected.

Image: Exploded view of the feeder components for assembly.

3.2. Power Connection

Connect the AC adapter to the feeder and a power outlet. For backup power, install 3 D-cell batteries (not included) in the battery compartment at the bottom of the unit. The feeder will automatically switch to battery power during an outage.

5GHz&2.4GHzの WiFiに対応

PETLIBRO Granary 自動給餌器はより広い接続範囲、より安定した接続、より優れたパフォーマンス、より柔軟な使用体験を提供できます。

4. OPERATING INSTRUCTIONS

4.1. Setting Feeding Schedule (App)

Use the PETLIBRO app to set up to 10 meals per day. You can customize the time and portion size (1-50 portions, 1 portion = 10g) for each meal.

緊密な関係を築く

給餌器にマイク・スピーカー機能を搭載し、ペットとリアルに近いコミュニケーションを実現!10秒の録音機能付きで、不在時に大好きなあなたの声で給食を呼びかけて嬉しい～

4.2. Manual Feeding

You can manually dispense food at any time through the app or by pressing the manual feed button on the device.

Your browser does not support the video tag.

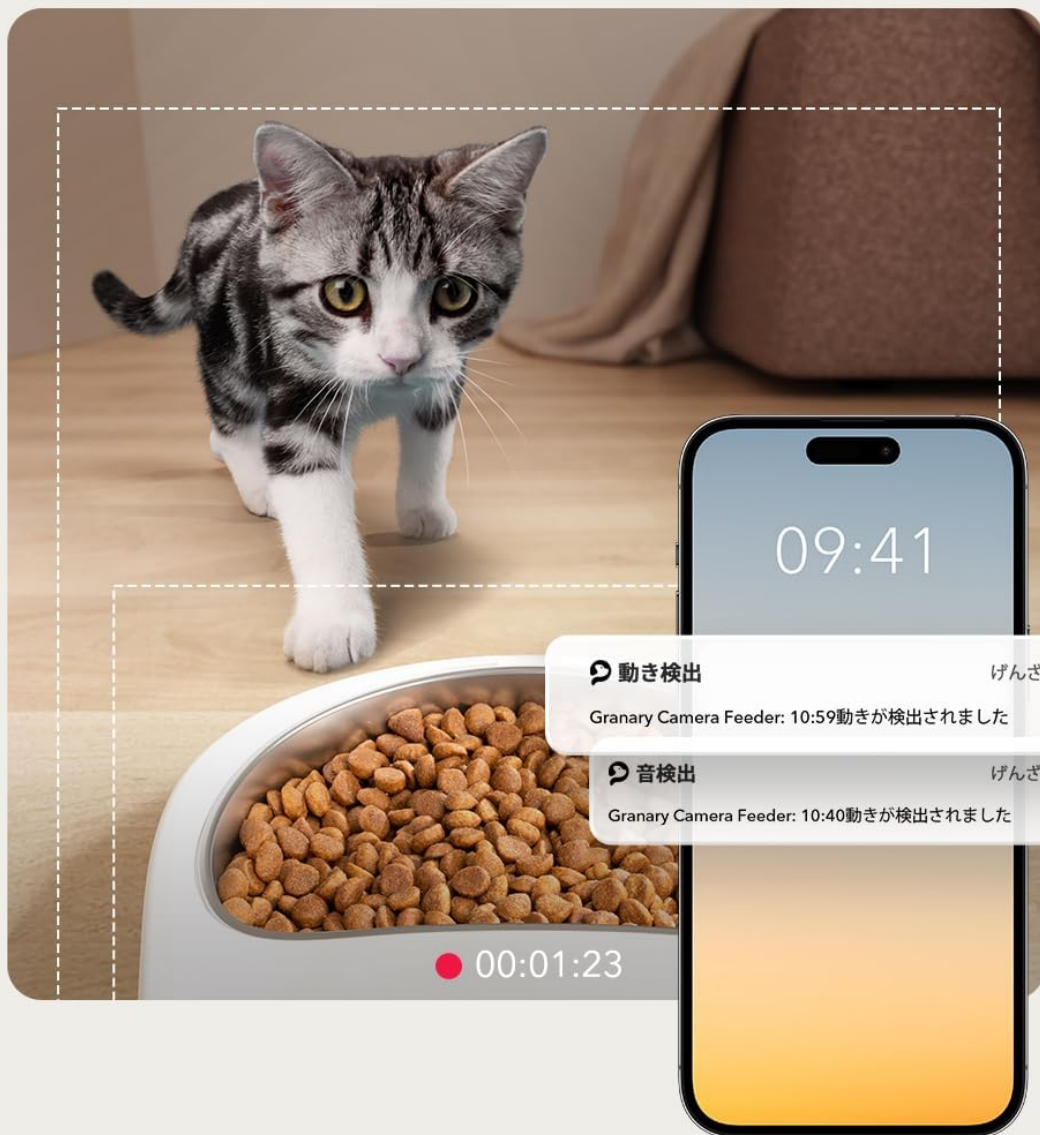

Video: Automatic Feeder Usage. This video demonstrates setting feeding times and quantities, as well as manual feeding.

4.3. Camera Features

The integrated 1080P camera provides a 145° wide-angle view of your pet's feeding area. It includes infrared night vision for clear monitoring in the dark. Motion and sound detection features automatically record and save video clips when activity is detected, sending alerts to your phone.

動体検知 & 音検知

4.5. Dual Bowl Feeding

The feeder includes a movable splitter to distribute food into two stainless steel bowls, allowing two pets to eat simultaneously. The distribution ratio can be manually adjusted in 7 stages by sliding the splitter.

Your browser does not support the video tag.

Video: Automatic Feeder Usage. This video demonstrates the dual bowl feeding with adjustable splitter.

5. MAINTENANCE AND CLEANING

5.1. Disassembly and Cleaning

The food tank, lid, and stainless steel bowls are removable for easy cleaning. Wash them with water and mild detergent, then dry thoroughly before reassembly.

Your browser does not support the video tag.

Video: Automatic Feeder Usage. This video demonstrates the cleaning process for the food tank and bowls.

5.2. Food Freshness

To maintain food freshness, ensure the desiccant bag is placed in its designated compartment in the lid and the silicone seal ring is properly fitted. Replace the desiccant bag regularly (e.g., every 15 days) for optimal performance.

6. TROUBLESHOOTING

6.1. Food Jamming

The feeder is equipped with an infrared sensor to detect food blockages at the dispenser outlet. If a blockage occurs, the feeder will automatically stop dispensing to prevent food from piling up. Clear any obstructions and ensure the food kibble size is between 2-15mm (0.08-0.6 inches).

Image: Food jamming prevention mechanism.

6.2. Connectivity Issues

If the device is not pairing or loses connection, ensure it is in pairing mode (white light above the microphone icon flashes). If not, press and hold the central button for approximately 7 seconds until the white light begins to flash, indicating pairing mode is re-enabled.

Your browser does not support the video tag.

Video: Assembly and App Connection Guide. This video demonstrates how to reset the device for pairing.

6.3. Inconsistent Food Dispensing

The actual amount of food dispensed can vary based on kibble shape and size. It is recommended to test the dispensing with your specific pet food and adjust the portion settings in the app accordingly to achieve the desired amount.

7. SPECIFICATIONS

Feature	Specification
Brand	PETLIBRO
Model Number	PLAF203
Capacity	5 Liters
Color	Camera-equipped White
