## Linique B0CPJT7KLT

# Linique 30" Bathroom Vanity with Sink Combo Set Instruction Manual

Model: B0CPJT7KLT

## INTRODUCTION

This manual provides detailed instructions for the assembly, installation, operation, and maintenance of your Linique 30" Bathroom Vanity with Sink Combo Set. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

## IMPORTANT SAFETY INFORMATION

Please observe the following safety precautions during assembly and use:

- General safety precautions apply.
- Ensure proper installation to prevent tipping or instability.
- Keep fingers clear of closing drawers and cabinet doors to avoid pinching.
- Do not overload drawers or shelves.
- Always use appropriate tools and follow all steps in the correct order.

## PACKAGE CONTENTS

Verify that all components are present before beginning assembly. If any parts are missing or damaged, contact customer support.

- Vanity Cabinet (Solid Wood Frame)
- Ceramic Sink Top
- Drawers (2 standard, 1 tip-out)
- Cabinet Door with Organizer
- Adjustable Shelf
- Hardware Pack (screws, connectors, handles, drawer slides, hinges)

- Instruction Manual

## SETUP AND INSTALLATION

---

Assembly is required for this vanity set. It is recommended to have two people for assembly and installation.

### Tools Required:

- Phillips Head Screwdriver
- Adjustable Wrench (for plumbing connections)
- Level
- Drill (optional, for pilot holes)

### Assembly Steps:

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface to prevent scratches.
2. **Assemble Cabinet Frame:** Follow the included diagrams to connect the side panels, back panel, and base using the provided hardware. Ensure all connections are secure.
3. **Install Drawer Slides:** Attach the drawer slides to the cabinet interior according to the instructions. Ensure they are level and aligned.
4. **Assemble Drawers:** Construct the two standard drawers and the tip-out drawer. Attach the drawer fronts and handles. Insert the assembled drawers into the slides.
5. **Attach Cabinet Door:** Install the hinges onto the cabinet door and then attach the door to the cabinet frame. Adjust hinges for proper alignment and soft-closing function.
6. **Install Cabinet Door Organizer:** Secure the organizer to the inside of the cabinet door.
7. **Place Adjustable Shelf:** Insert the adjustable shelf into the desired position within the cabinet.
8. **Position Sink Top:** Carefully place the ceramic sink top onto the assembled vanity cabinet. Ensure it is centered and level. Apply a bead of silicone sealant (not included) around the edges for a watertight seal, if desired.
9. **Plumbing Connections:** Connect the faucet (not included) and drain assembly (not included) to the sink. Connect the water supply lines and drain pipe to your home's plumbing system. Ensure all connections are tight and leak-free.

## OPERATING INSTRUCTIONS

---

### **Drawers:**

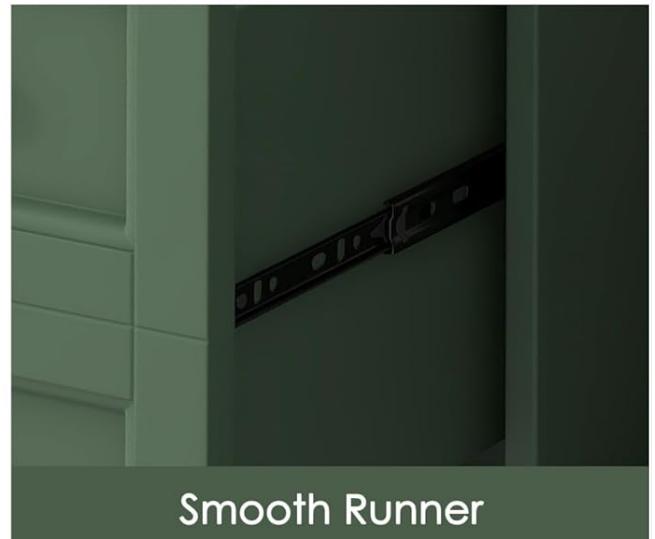

The vanity features two standard drawers and one tip-out drawer. These are equipped with smooth runners for easy opening and soft-closing mechanisms to prevent slamming. To open, gently pull the handle. To close, push the drawer until the soft-close mechanism engages.

### **Cabinet Door:**

The cabinet door also features a soft-closing mechanism. Open by pulling the handle. The interior includes an organizer for smaller items and an adjustable shelf for flexible storage.

**Textured metal handle**

**Smooth Runner**

## MAINTENANCE

### Cleaning the Vanity:

- Wipe the vanity surfaces with a soft, damp cloth.
- Avoid abrasive cleaners, harsh chemicals, or ammonia-based products, as these can damage the finish.
- Promptly wipe up any spills to prevent water damage to the wood frame.

### Cleaning the Ceramic Sink:

- Clean the ceramic sink with mild soap and water.
- For stubborn stains, use a non-abrasive bathroom cleaner.
- Rinse thoroughly after cleaning to remove all cleaner residue.

## General Care:

- Periodically check all hardware connections (screws, hinges, drawer slides) and tighten if necessary.
- Ensure the area around the vanity is well-ventilated to prevent moisture buildup.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Vanity wobbles or is not level.	Uneven floor; loose assembly hardware.	Adjust the leveling feet (if present) or place shims under the legs. Re-tighten all assembly screws.

Problem	Possible Cause	Solution
Drawers do not close smoothly or are misaligned.	Improperly installed drawer slides; obstruction; loose hardware.	Check that drawer slides are correctly installed and aligned. Ensure no objects are obstructing the slides. Tighten all drawer hardware.
Cabinet door does not close properly or is misaligned.	Hinges are loose or improperly adjusted.	Adjust the screws on the hinges to align the door. Tighten all hinge hardware.
Plumbing pipes do not fit within the cabinet.	Existing plumbing configuration is larger than standard cutouts.	Consult a professional plumber. Minor modifications to the back panel or shelf may be possible, but proceed with caution to avoid damaging the unit.
