BWE 8023-S-N

BWE Shower Faucet Set Instruction Manual

Model: 8023-S-N | Brand: BWE

Product Overview | Packing List | Dimensions | Safety Information | Setup & Installation
Operating Instructions | Maintenance | Troubleshooting | Specifications | Warranty & Support

1. Product Overview

The BWE Shower Faucet Set (Model 8023-S-N) is a wall-mounted fixture designed for a comprehensive showering experience. It features an 8-inch rain shower head, a handheld sprayer, and a rotatable tub spout, offering triple functionality. The brushed nickel finish provides durability and a modern aesthetic.

Image: Complete BWE Shower Faucet Set installed in a bathroom.

Key Features:

- **High-Pressure Rain Shower Head:** Provides a wide, natural rain-like water flow.
- **Sturdy Construction:** Made with durable materials and a brushed nickel finish for longevity and corrosion resistance.
- **Adjustable Height Shower Head:** The shower bracket slides along a stainless steel rail, allowing for easy height customization.
- **Triple Function Design:** Seamlessly switch between the overhead rain shower, handheld sprayer, and tub spout.
- **Easy Installation:** Designed for straightforward installation, suitable for DIY projects.

2. Packing List

Please verify that all components listed below are included in your package before beginning installation. If any parts are missing or damaged, contact customer support.

Image: All components included in the BWE Shower Faucet Set package.

- 8-inch Rainfall Shower Head
- Handheld Shower
- Installation Hardware
- Shower Hose
- Hand Sprayer Holder
- Main Faucet Body with Tub Spout
- Shower Bar/Riser Pipe

4. Safety Information

- Always turn off the main water supply before attempting any installation or maintenance.
- Wear appropriate personal protective equipment (PPE) such as safety glasses and gloves during installation.
- Ensure all connections are secure and watertight to prevent leaks.
- If you are unsure about any part of the installation process, consult a qualified plumber.
- Do not use harsh chemicals or abrasive cleaners on the fixture, as this may damage the finish.

5. Setup & Installation

This shower faucet set is designed for wall-mount installation. While suitable for DIY, professional installation is recommended for optimal performance and to prevent potential issues.

General Installation Steps:

1. **Prepare the Wall:** Ensure the wall surface is clean, dry, and structurally sound. Mark the desired installation points for the main faucet body and the shower bar.
2. **Install the Faucet Body:** Connect the hot and cold water lines to the main faucet body. Secure the faucet body to the wall using the provided mounting hardware. Ensure the connections are sealed properly to prevent leaks.
3. **Assemble the Shower Bar:** Attach the vertical shower bar to the main faucet body. Secure the upper support bracket of the shower bar to the wall.
4. **Attach Shower Head and Handheld:** Connect the 8-inch rain shower head to the top of the shower bar. Attach the shower hose to the handheld sprayer and then to the designated outlet on the main faucet body or shower bar. Place the handheld sprayer in its holder.
5. **Test for Leaks:** Slowly turn on the main water supply and check all connections for leaks. Address any leaks immediately by tightening connections or applying plumber's tape as needed.

6. Operating Instructions

The BWE Shower Faucet Set offers three distinct water outlets controlled by a diverter knob and separate hot/cold handles.

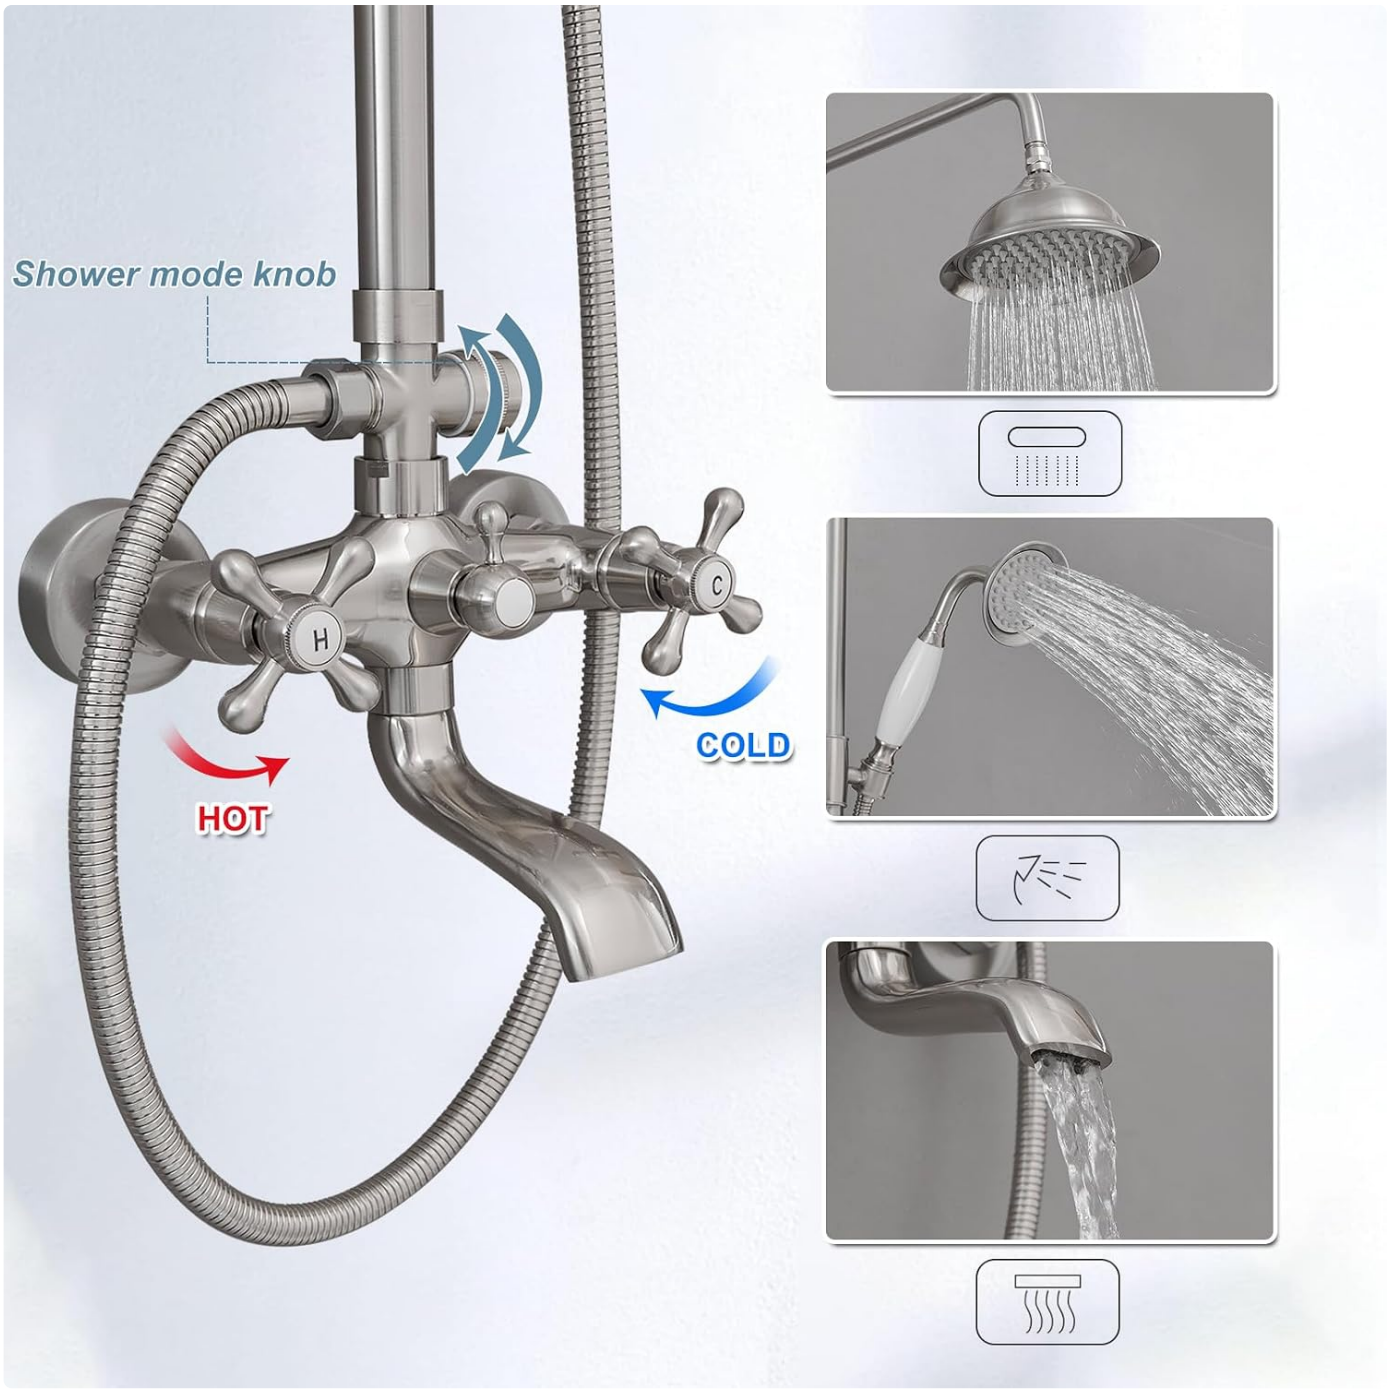

Image: Close-up of the main faucet body showing the shower mode knob and hot/cold handles.

- **Temperature Control:** Use the 'H' (Hot) and 'C' (Cold) handles to adjust the water temperature to your preference.
- **Selecting Water Outlet:** Rotate the central diverter knob to switch between the three functions:
  - **Rain Shower Head:** Turn the knob to activate the overhead rain shower.
  - **Handheld Sprayer:** Turn the knob to direct water flow to the handheld sprayer.
  - **Tub Spout:** Turn the knob to activate the rotatable tub spout for filling a bathtub.
- **Adjusting Shower Head Height:** Loosen the height adjustment knob on the shower bar, slide the shower head assembly to the desired height, and then tighten the knob to secure it.
- **Handheld Sprayer Pause Function:** Some handheld models may include a button or lever to temporarily pause water flow, conserving water during use.

7. Maintenance

Regular cleaning and maintenance will help preserve the appearance and functionality of your BWE Shower Faucet Set.

- **Cleaning the Finish:** Clean the brushed nickel finish with a soft, damp cloth. For stubborn spots, use a mild soap solution and rinse thoroughly. Dry with a soft towel to prevent water spots. Avoid abrasive cleaners, harsh chemicals, or scouring pads, as these can damage the finish.
- **Cleaning Shower Head Nozzles:** The rain shower head features self-cleaning silicone nozzles. Periodically rub the nozzles with your fingers to dislodge any mineral buildup or debris. This helps maintain consistent water flow.

8. Troubleshooting

If you encounter issues with your shower faucet set, refer to the common problems and solutions below. For persistent problems, contact customer support or a qualified plumber.

Problem	Possible Cause	Solution
Low Water Pressure	Clogged shower head nozzles or filter; partially closed shut-off valve.	Clean shower head nozzles (rub silicone nozzles). Check and clean the filter. Ensure shut-off valves are fully open.
Leaks from Connections	Loose connections; worn out O-rings or washers.	Tighten connections. Replace O-rings or washers if damaged. Ensure plumber's tape was used during installation.

Problem	Possible Cause	Solution
Water Temperature Issues	Incorrect hot/cold water supply connections; issue with water heater.	Verify hot and cold lines are connected correctly. Check water heater settings.
Diverter Not Switching Properly	Internal debris or wear in the diverter mechanism.	Flush the system. If problem persists, contact customer support for replacement parts or professional assistance.

9. Specifications

Feature	Detail
Brand	BWE
Model Number	8023-S-N
