INFANS B0CPLG8HQ2

INFANS Lightweight Baby Stroller Instruction Manual

Model: B0CPLG8HQ2

INTRODUCTION

This manual provides essential information for the safe and proper use, assembly, and maintenance of your INFANS Lightweight Baby Stroller. Please read all instructions carefully before use and retain this manual for future reference.

SAFETY INFORMATION

- Always secure your child with the 5-point harness.
- Never leave your child unattended in the stroller.
- Ensure the stroller is fully open and locked before placing a child in it.
- Engage the brakes when parking the stroller.
- Do not overload the storage basket; maximum capacity is 6.5 pounds.
- This stroller is suitable for infants between 6 and 36 months of age, up to a maximum weight of 33 pounds.
- Avoid placing hot liquids or heavy items on the handle.
- Keep fingers clear of moving parts when folding or unfolding the stroller.
- This product is not suitable for running or skating.
- US. CPSIA & ASTM APPROVED: Made of non-toxic materials without any odor, FREE from BPA, PVC, Phthalates, Lead, Latex, and Formaldehyde. No sharp points or edges. Passed the tests of stability, asphyxiation, load, and shear.

PACKAGE CONTENTS

Verify that all components are present before assembly:

- INFANS Lightweight Baby Stroller Frame with Seat
- Canopy
- Detachable Handrail
- Wheels (pre-attached or requiring minor assembly)

SETUP AND ASSEMBLY

1. Unfolding the Stroller

To unfold the stroller, release any locking mechanisms and lift the handle until the frame clicks into place. Ensure all parts are securely locked before use.

Image: The INFANS Lightweight Baby Stroller shown in both its unfolded and compact folded states.

2. Attaching the Detachable Handrail

Align the handrail with the designated slots on the stroller frame and push until it clicks securely into place. To remove, press the release buttons on either side and pull the handrail away.

OPERATING INSTRUCTIONS

1. One-Hand Gravity Folding

To fold the stroller, locate the folding button on the handle. Press the button and allow the stroller to fold automatically into a compact, self-standing position. This design protects the parent's waist from excessive bending.

Gravity Automatic One-Hand Fold

Effortlessly folds in seconds into a self-standing position, no need to bend down

Stand on its own when folded

2. Adjusting the Backrest and Footrest

The backrest can be adjusted from 100 to 145 degrees using the strap mechanism at the rear of the seat, allowing for various positions from upright to near-flat for sleeping. The footrest also features multiple adjustable positions for your child's comfort.

Adjustable Backrest & Footrest

Customizable tilt from **100** degrees to **145** degrees and adjustable footseat

5. Engaging the One-Step Brake

To engage the brake, press down on the brake pedal located near the rear wheels. To release, lift the pedal. Always ensure the brake is fully engaged when the stroller is stationary.

One-step Brake

Easily stop and start motion in an instant

360° Rotating Wheels

The smoothest bump free ride for exceptional comfort and cushioning

Image: Detail of the one-step brake system.

6. Maneuvering with 360° Rotating Wheels

The front wheels are designed to rotate 360 degrees for easy maneuverability. The built-in cushioning springs in both front and rear wheels provide shock absorption for a smooth ride on various surfaces.

Product Dimension

Recommended Age: **0-36 Months**

Weight Capacity **33 Lbs**

MAINTENANCE

- **Cleaning Aluminum Components:** Use a soft cloth and mild detergent. Avoid abrasive materials and harsh chemicals.
- **Cleaning Polyester Components:** Machine wash in cold water. Tumble dry on a low heat setting. Do not use bleach or fabric softeners.
- **Cleaning EVA Components:** Wipe with a damp cloth and mild detergent. Avoid prolonged exposure to direct sunlight and do not use harsh chemicals or abrasive materials.
- Regularly check all fasteners, rivets, and moving parts to ensure they are secure and functioning correctly.
- Lubricate moving parts periodically if necessary.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Stroller does not fold or unfold smoothly.	Locking mechanisms engaged; debris in joints.	Ensure all locks are disengaged. Clear any obstructions from folding joints. Apply a silicone-based lubricant if needed.
Wheels are stiff or squeaky.	Dirt or debris in wheel bearings; lack of lubrication.	Clean wheels and axles. Apply a small amount of silicone lubricant to the wheel axles.
Harness is difficult to buckle/unbuckle.	Debris in buckle; misaligned straps.	Clean the buckle mechanism. Ensure straps are not twisted or caught.
