Proper maintenance ensures the longevity and optimal performance of your TAGRY X08 earbuds.

- **Water Resistance:** The earbuds are rated IPX5 waterproof, meaning they are resistant to splashes and sweat. They are suitable for sports but should not be submerged in water. The nano-coating on the earbud surface helps prevent water penetration.
- **Storage:** When not in use, store the earbuds in their charging case to protect them from dust and damage. Store in a cool, dry place.
