Operating Instructions

Using the Daybed:

- The daybed is designed for sleeping, lounging, and sitting.
- Ensure the mattress is properly seated on the slats before use.
- Avoid jumping on the daybed to prevent damage to the frame and slats.

Using the Storage Drawers:

- The two drawers are located beneath the daybed frame.
- To open, gently pull the drawer handle outwards.
- To close, push the drawer back into the frame until it is fully recessed.
- Do not overload the drawers. Each drawer has a weight capacity of 40 lbs (18.1 kg).
- Store items evenly within the drawers to prevent tipping or damage.

Maintenance

- **Cleaning:** Wipe the upholstered surfaces with a dry cloth. For spills, blot immediately with a clean, dry cloth. Do not use harsh chemicals or abrasive cleaners.
- **Frame Care:** Periodically check all bolts and screws to ensure they remain tight. Re-tighten as necessary to maintain stability and prevent squeaking.
- **Drawer Care:** Keep the drawer wheels free of dust and debris to ensure smooth operation.
- **Ventilation:** The slat design promotes air circulation around your mattress. Ensure the area under the bed is not completely blocked to maintain this benefit.
