- **Cushions appear flat:** Upon unpacking, cushions may appear compressed. Allow 24-48 hours for the high-resilient foam and polyester fill to fully expand and regain their shape. Fluffing them manually can assist this process.
- **Storage compartment difficult to open/close:** Ensure no objects are obstructing the mechanism. Lift or lower the lid gently and evenly. Avoid forcing it, as this can damage the spring arm lift.
- **Sofa feels unstable:** Verify that all legs are securely attached and tightened. Ensure all sofa sections are properly connected via their brackets. If the backrest feels less sturdy, consider placing the sofa against a wall for added support.

- **Missing parts or damaged components:** If you encounter any missing parts or damaged components during assembly, please contact Soscana customer support immediately for assistance.
