4. Assembly Instructions

Assembly typically requires two adults. Ensure you have adequate space and the necessary tools (usually an Allen wrench, often included). Follow the step-by-step diagrams in the separate instruction leaflet for precise guidance.

4.1 Pre-Assembly Checklist

- Clear a spacious area for assembly.
- Lay out all components on a soft, clean surface to prevent scratches.
- Identify all parts and hardware using the provided parts list.

4.2 General Assembly Steps (Refer to included leaflet for detailed diagrams)

1. **Assemble the Headboard:** Attach the upholstered section to the storage unit. Ensure the hydraulic lifting system and magnetic catch are correctly installed. Secure the anti-toppling device.
2. **Attach Side Rails:** Connect the side rails to the headboard and footboard using the provided hardware. Do not fully tighten bolts until the frame is aligned.
3. **Install Support Legs:** Attach the central support bar and the various support legs to the frame. Ensure adjustable foot pads are in place.
4. **Place Slats:** Unroll or place the wooden slats across the bed frame. The slats are often pre-connected with hook & loop fasteners for easy and secure placement.
5. **Final Tightening:** Once all components are in place and aligned, securely tighten all bolts and screws.

5. Operating Instructions

5.1 Using the Storage Headboard

The headboard features a hidden storage compartment and open shelves. To access the hidden compartment, gently lift the upholstered section of the headboard. It is equipped with a premium hydraulic lifting system for smooth and quiet operation. A magnetic catch helps secure the lid when closed.

- **Opening:** Gently pull the upholstered section upwards. The hydraulic lift will assist in holding it open.
- **Closing:** Gently push the upholstered section downwards until the magnetic catch engages, securing it in the closed position.

5.2 Mattress Placement

This platform bed frame does not require a box spring. Place your mattress directly onto the wooden slats. The recommended mattress thickness is 25-30 cm (approximately 9.8-11.8 inches).

6. Maintenance

6.1 Cleaning

- **Upholstered Parts (Velvet Fabric):** Gently vacuum with an upholstery attachment to remove dust. For spills, blot immediately with a clean, dry cloth. For stubborn stains, consult a professional upholstery cleaner or use a mild fabric cleaner according to its instructions. Test any cleaning solution on an inconspicuous area first.
- **Wooden Parts:** Wipe with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **Under-bed Space:** The bed frame provides 16 cm (approximately 6.3 inches) of under-bed clearance, facilitating easy cleaning with a vacuum or robot cleaner.
