Jocisland BUB007

Jocisland Full Bed Frame Instruction Manual

Model: BUB007 | Brand: Jocisland

1. INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your Jocisland Full Bed Frame. This bed frame features a velvet upholstered cloud-shaped headboard with integrated RGB lighting, an adjustable headboard height, and 7.1 inches of underbed storage. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

2. SETUP AND ASSEMBLY

The Jocisland Full Bed Frame is designed for easy assembly. It is recommended that two people assemble the bed. All necessary tools are included, but a cordless drill with Phillips and Allen wrench bits can expedite the process.

2.1 Unpacking and Preparation

- Ensure all components are present by checking against the parts list (not provided in this document, refer to your packaging).
- Clear a spacious area for assembly to prevent damage to components or flooring.

2.2 Assembly Steps

1. Begin by attaching all bolts loosely. This allows for easier alignment of parts.
2. Once all components are in place and aligned, fully tighten all bolts to secure the frame.

3. Install the wooden slats onto the frame. The slats feature Velcro for secure attachment and to prevent movement.
4. Ensure the center support leg is properly installed and adjusted for optimal stability.
5. Apply EVA tape (if included) to contact points to further reduce noise and enhance stability.

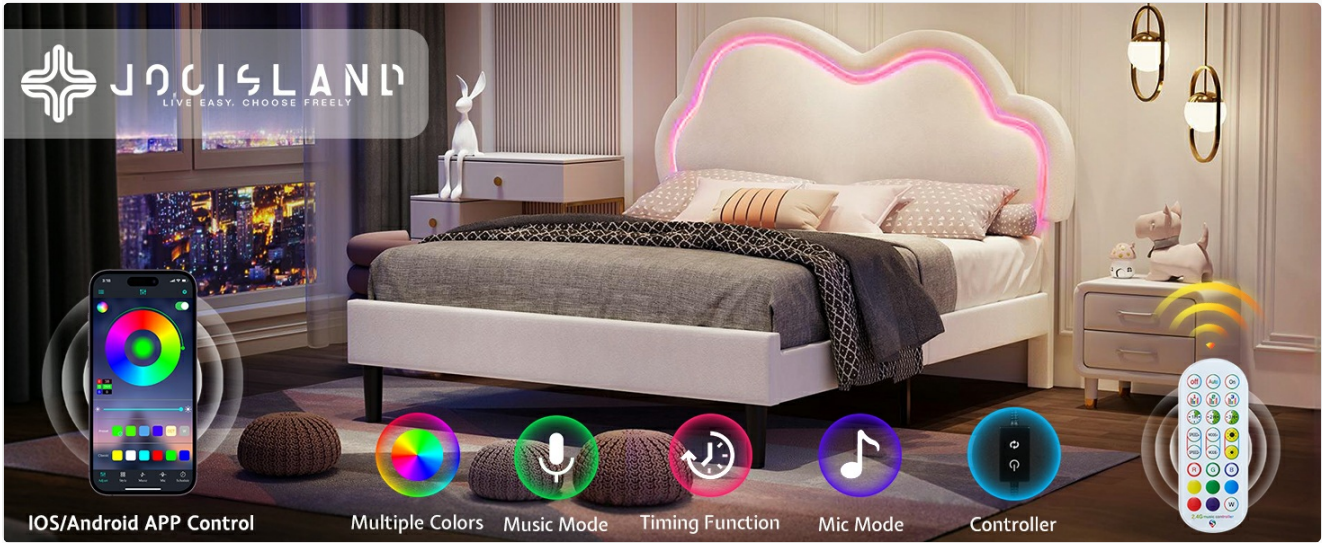

Image 2.1: Detailed view of assembly features including Velcro for slats, center support leg, and EVA tape for noise reduction.

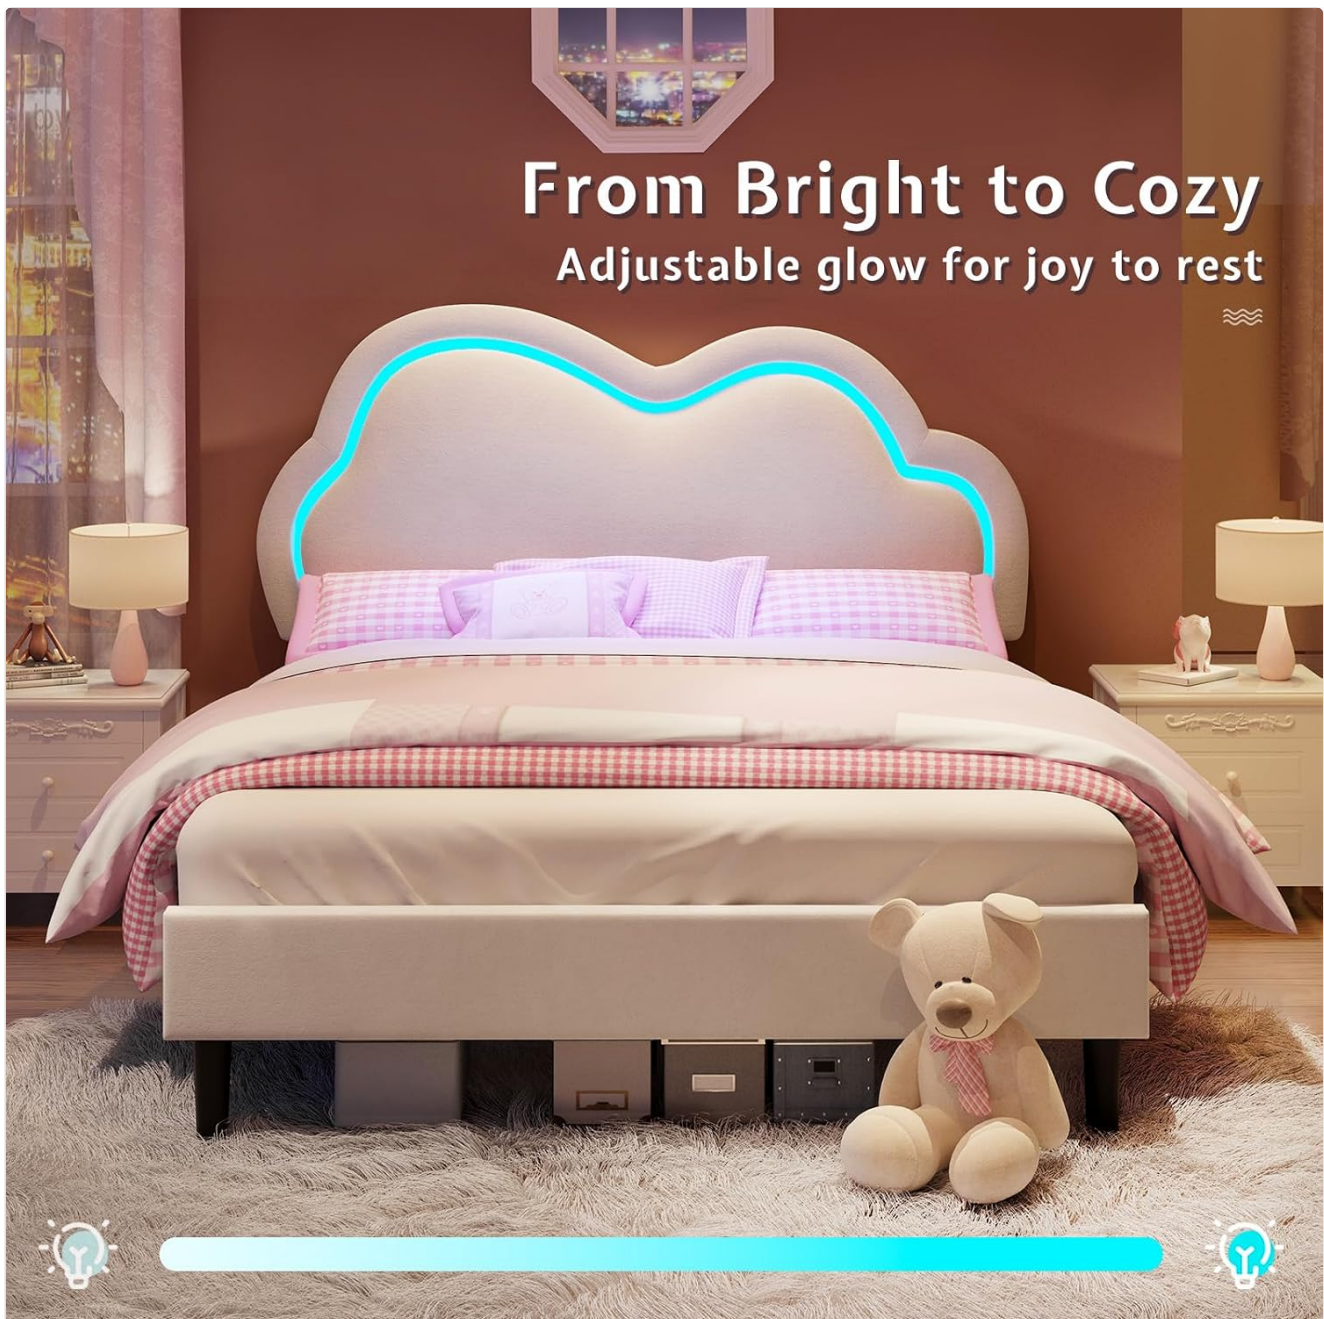

Image 2.2: The bed frame's box spring-free design, accommodating mattress thicknesses from 8 to 14 inches.

Video 2.3: A short video demonstrating the adjustable headboard and underbed storage features of the LED bed frame.

3. OPERATING INSTRUCTIONS

3.1 RGB Lighting System

The integrated RGB lights in the headboard offer various lighting modes and colors. Control the lights using the included remote control or a compatible iOS/Android application.

- **Remote Control:** Use the remote to power on/off, change colors, adjust brightness, and select different lighting effects (e.g., static, fade, flash).
- **Mobile App:** Download the specified app (refer to packaging for QR code or app name) to access advanced features such as music mode, timing functions, and microphone synchronization for dynamic lighting.

Image 3.2: Illustration of the wide range of color choices available for the RGB headboard lighting.

Video 3.3: A video showcasing the velvet texture and adjustable cloud headboard of the bed frame.

3.2 Adjustable Headboard

The upholstered cloud headboard can be adjusted in height from 44.5 inches to 46.5 inches to accommodate various mattress thicknesses and user preferences.

- To adjust, locate the adjustment mechanism (typically bolts or levers) on the back or sides of the headboard.
- Loosen the mechanism, raise or lower the headboard to the desired height, and then securely tighten it.

Image 3.5: Visual representation of the headboard's adjustable height feature.

4. MAINTENANCE

Proper care and maintenance will ensure the longevity and appearance of your bed frame.

4.1 Cleaning

- **Velvet Upholstery:** For general cleaning, wipe the velvet headboard and frame with a dry cloth. For spills or stains, use a damp cloth and blot gently. Avoid harsh chemicals or abrasive cleaners.
- **Frame:** Wipe metal and engineered wood components with a dry or slightly damp cloth as needed.

4.2 Underbed Area

The 7.1-inch underbed clearance allows for easy cleaning with most robot vacuums and provides space for storage bins. Regularly clean this area to prevent dust accumulation.

Box Spring Free Design

Fits 8"-14" mattress, use it right away

5. TROUBLESHOOTING

If you encounter any issues with your bed frame, refer to the following common solutions.

5.1 Squeaking Noises

- **Check all bolts:** Ensure all assembly bolts are fully tightened. Loose connections are a common cause of squeaking.
- **Inspect slats:** Verify that all wooden slats are properly seated and secured by the Velcro.
- **EVA Tape:** Confirm that EVA tape is correctly applied to all contact points between metal and wood components to minimize friction.

5.2 RGB Lights Not Functioning

- **Power Connection:** Ensure the RGB light strip is securely plugged into its power source and the wall outlet.
- **Remote/App Battery:** Check the battery in the remote control. If using the app, ensure your device is properly paired via Bluetooth.
- **Controller:** Inspect the light controller for any visible damage or loose connections.

6. SPECIFICATIONS

Feature	Detail
Model Number	BUB007
Size	Full
Color	Cream
Style	Modern
Material Type	Engineered Wood, Metal, Velvet
Upholstery Fabric Type	Velvet
Item Dimensions (L x W x H)	78.9" x 58" x 46.5"
Item Weight	57.32 Pounds
