VGR V-005

VGR V-005 Professional Hair Clipper User Manual

Model: V-005 | Brand: VGR

INTRODUCTION

Thank you for choosing the VGR V-005 Professional Hair Clipper. This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your new hair clipper. Please read this manual thoroughly before first use and keep it for future reference.

SAFETY INFORMATION

For your safety and to ensure proper operation, please observe the following precautions:

- Always read the entire manual before using the appliance.
- Keep the appliance away from water or other liquids. Do not use it in the shower or near a bathtub.
- Do not immerse the appliance in water.
- Ensure the power cord is not damaged. If damaged, contact customer service for replacement.
- Keep out of reach of children.
- Unplug the clipper before cleaning or performing any maintenance.
- Use only the provided charging cable and accessories.

PACKAGE CONTENTS

Upon opening the package, please verify that all the following items are included:

- VGR V-005 Professional Hair Clipper
- USB Charging Cable
- 8 Guide Combs (1.5mm, 3mm, 4.5mm, 6mm, 10mm, 13mm, 16mm, 19mm)
- Cleaning Brush
- Blade Oil

PRODUCT FEATURES

- **Cordless/Corded Operation with Extended Run Time:** The powerful dual-voltage (110-220V) hair clipper features a 2600mAh rechargeable lithium-ion battery, providing 250 minutes of cordless operation after a full 3.5-hour charge. It can also be used corded for continuous operation.
- **Precise and Sharp Blades:** Equipped with self-sharpening ceramic and powder metallurgical blades, designed for smooth cutting and trimming of dry, wet, long, and thick hair without snagging or pulling. The R-shaped blade design ensures safety.

- **Full Metal Body:** The VGR hair clipper boasts a durable full metal body, designed to withstand challenges while offering an elegant and comfortable grip.
- **Powerful and Quiet Motor:** Features a heavy-duty motor with speeds ranging from 5500 to 7000 RPM, allowing for easy and efficient cutting of various hair types. The noise level is below 60dB, making it suitable for home use.
- **Turbo Power Function:** The trimmer comes with a four-speed power motor. The turbo function provides extra power when needed for tougher hair.
- **Adjustable Hair Cutting Lengths:** Easily adjust the trimming length using the integrated taper lever (0.5mm to 2mm without guide combs). Includes 8 attachment guides (1.5mm, 3mm, 4.5mm, 6mm, 10mm, 13mm, 16mm, 19mm).

- **USB Charging:** Convenient USB charging allows you to power the clipper anywhere.

Image: Visual representation of the VGR V-005's charging time (3.5 hours) and operating time (250 minutes) with its 2600mAh battery.

SETUP

1. **Initial Charge:** Before first use, fully charge the clipper for approximately 3.5 hours using the provided USB cable. The LED display will indicate charging status and battery level.
2. **Blade Inspection:** Ensure the blades are clean and free from debris. Apply a small drop of the included blade oil to the blades before first use and after each cleaning.
3. **Attaching Guide Combs:** Select the desired guide comb (1.5mm to 19mm) and firmly attach it to the clipper head. Ensure it clicks securely into place.

OPERATING INSTRUCTIONS

1. **Power On/Off:** Press the power button to turn the clipper on or off. The LED display will illuminate upon activation.
2. **Adjusting Speed (RPM):** Use the speed setting buttons (+/-) to cycle through the 4 available motor speeds (5500-7000 RPM) to match your hair type and cutting needs.

3. **Adjusting Cutting Length (Taper Lever):** For fine adjustments without a guide comb, or to blend sections, use the adjustable taper lever on the side of the clipper. This allows for lengths between 0.5mm and 2mm.
4. **Hair Cutting:**
- For best results, ensure hair is clean and dry.
 - Start with a longer guide comb if unsure of the desired length.
 - Hold the clipper flat against the head and move it slowly against the direction of hair growth.
 - Overlap strokes to ensure an even cut.
5. **Detail Trimming:** For outlining and detailing, remove the guide comb and use the clipper's bare blade. Use light pressure and precise movements.

MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your VGR V-005 hair clipper.

1. **Cleaning Blades:** After each use, turn off and unplug the clipper. Use the provided cleaning brush to remove hair clippings from the blades. For a more thorough clean, you can carefully detach the blade assembly (refer to specific instructions if available in a detailed diagram, otherwise proceed with caution).
2. **Oiling Blades:** After cleaning, apply 1-2 drops of the included blade oil across the top of the blades. Turn the clipper on for a few seconds to distribute the oil evenly. This helps maintain blade sharpness and reduces friction.
3. **Storage:** Store the clipper in a dry, cool place, away from direct sunlight and moisture. Keep it out of reach of children.
4. **Battery Care:** To prolong battery life, avoid completely draining the battery frequently. Charge it regularly, even if not used for extended periods.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Clipper does not turn on.	Battery is low or dead; Power button not pressed correctly.	Charge the clipper fully. Press the power button firmly.
Blades pull hair or cut unevenly.	Blades are dull, dirty, or not oiled; Hair is too thick or wet.	Clean and oil the blades. Ensure hair is dry. Use a lower speed setting for thicker hair.
Clipper makes unusual noise.	Blades need oiling; Debris caught in blades.	Oil the blades. Clean blades thoroughly.
Charging indicator not working.	Charging cable or adapter faulty; Clipper not connected properly.	Check cable and adapter. Ensure secure connection. Try a different USB port.

SPECIFICATIONS
