HAOARA Full Size Platform Bed Frame Instruction Manual

Model: Full Size Platform Bed Frame (Beige Velvet)

1. INTRODUCTION

Thank you for choosing the HAOARA Full Size Platform Bed Frame. This manual provides essential information for the safe assembly, operation, and maintenance of your new bed frame. Please read these instructions carefully before beginning assembly and retain them for future reference.

This bed frame is designed to provide a sturdy and comfortable foundation for your mattress without the need for a box spring. It features an upholstered button-tufted headboard, wooden slat support, and a noise-free design for enhanced sleep quality.

2. SAFETY INFORMATION

- Always assemble the bed frame on a soft, clean surface to prevent damage to the product or your floor.
- Ensure all bolts, screws, and connectors are securely tightened before use. Periodically check and re-tighten as necessary.
- Do not use power tools for assembly unless specifically instructed, as overtightening can strip screws or damage components.
- Keep small parts and packaging materials away from children and pets to prevent choking hazards.
- Do not stand on the bed frame or use it as a ladder.
- The maximum weight capacity for this full-size bed frame is 1000 lbs (including mattress and occupants). Do not exceed this limit.
- If any parts are missing or damaged, do not proceed with assembly. Contact customer support for assistance.

4. ASSEMBLY INSTRUCTIONS

Assembly is designed to be straightforward and typically takes approximately 30 minutes with no extra tools required beyond what is provided. It is recommended to have two people for easier assembly.

1. **Unpack and Identify Parts:** Carefully remove all components from the headboard packaging. Lay out all parts on a soft, clean surface and compare them against the package contents list to ensure everything is present and undamaged.
2. **Attach Side Rails to Headboard:** Connect the left and right side rails to the upholstered headboard using the provided bolts and Allen wrench. Ensure the connections are firm but do not fully tighten yet.

3. **Attach Footboard:** Connect the footboard to the other ends of the side rails. Once all four corners are connected, gradually tighten all bolts securely.
4. **Install Center Support Beam and Legs:** Attach the center support beam to the designated points on the frame. Screw in the support legs to the center beam and other frame sections as indicated in the diagram. These sturdy metal supports provide firm foundation.
5. **Place Wooden Slats:** Unroll the wooden slats onto the bed frame. The slats feature a Velcro design for simplified installation and to minimize noise and prevent loss. Ensure they are evenly spaced and securely attached to the frame's Velcro strips.
6. **Final Tightening:** Double-check all bolts and connections to ensure they are fully tightened for optimal stability and noise reduction.

5. OPERATING INSTRUCTIONS

Once assembled, the HAOARA Platform Bed Frame is ready for use.

- **Mattress Placement:** Place your full-size mattress directly onto the wooden slats. A box spring is not required.
- **Weight Distribution:** Ensure weight is distributed evenly across the bed frame. Avoid concentrating heavy loads on a single point.
- **Movement:** When moving the bed frame, lift it rather than dragging it to prevent damage to the legs or frame structure.

6. MAINTENANCE

Regular maintenance will help prolong the life and appearance of your bed frame.

- **Cleaning Fabric:** For the velvet upholstery, gently vacuum with an upholstery attachment to remove dust and debris. For spills, blot immediately with a clean, dry cloth. For stubborn stains, consult a professional upholstery cleaner. Avoid harsh chemicals.
- **Cleaning Frame:** Wipe metal and wooden parts with a soft, damp cloth. Avoid abrasive cleaners.
- **Hardware Check:** Periodically (e.g., every 3-6 months) check all bolts and screws and re-tighten them if necessary to maintain stability and prevent squeaking.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fading of the upholstery fabric.
