

## OCRUSTAR EKX5-L

# OCRUSTAR Universal Remote Control Adapter for iPhone (Lightning Plug iOS) User Manual

Model: EKX5-L

## 1. INTRODUCTION

---

The OCRUSTAR Universal Remote Control Adapter (Model EKX5-L) transforms your iPhone with a Lightning plug into a versatile universal remote. This compact adapter allows you to control a wide range of infrared-enabled household appliances directly from your smartphone, simplifying your home entertainment and appliance management.

**Compatible Devices:**

- TVs, Set Top Boxes, Air Conditioners, Projectors
- Ott-Boxes, DVDs, Amplifiers, SLRs
- Fans, IR Switches, Water Heaters, Electric Heaters
- Air Cleaners, Robot Vacuums, Blinds

## 2. SETUP GUIDE

### 2.1 Package Contents

Before you begin, ensure all items are present:

- 1x Universal Remote Adapter (Lightning Plug iOS)
- 1x User Guide
- 1x Key Ring
- 1x Leather Case

## 2.2 App Installation

1. Locate the QR code in the included user guide or on the product packaging.
2. Scan the QR code with your iPhone's camera.
3. Follow the link to download the official OCRUSTAR Remote App from the App Store. **Important:** If presented with multiple language options after scanning, select the English version for clear instructions.
4. Install the app on your iPhone.

## 2.3 Connecting the Adapter

1. Insert the OCRUSTAR Universal Remote Control Adapter into your iPhone's Lightning port.
2. Ensure the adapter is fully seated in the port. A small LED indicator on the adapter will illuminate, signifying it is powered and ready.

## 2.4 Adding a Device

1. Open the OCRUSTAR Remote App.
2. Tap the 'Add Device' or '+' icon within the app.
3. Select the type of appliance you wish to control (e.g., TV, AC, DVD).
4. Choose the brand of your appliance from the provided list.

5. Follow the on-screen instructions to test and pair the remote codes. This usually involves pointing the adapter towards the appliance and pressing a test button until the appliance responds.
6. Once a working code is found, save the device profile.

## 3. OPERATING INSTRUCTIONS

---

### 3.1 Basic Control

Once a device is added, select it from the app's main screen. The app will display a virtual remote control interface specific to that device type. Point your iPhone (with the adapter) towards the appliance and use the on-screen buttons to control functions such as:

- **Power:** Turn devices on/off.
- **Volume:** Adjust audio levels for TVs, sound systems.
- **Channels:** Change TV or set-top box channels.
- **Temperature:** Adjust settings for air conditioners or heaters.
- **Input/Source:** Switch between different inputs on TVs or amplifiers.

### 3.2 Advanced Features

The OCRUSTAR Remote App may offer additional features depending on the device type, such as:

- **Customizable Layouts:** Arrange buttons for frequently used functions.
- **Macro Functions:** Program a sequence of commands to execute with a single tap.
- **Learning Function:** If a device is not listed, the adapter may be able to learn commands from its original remote. Refer to the app's help section for detailed instructions on this feature.

## 4. MAINTENANCE

---

### 4.1 Cleaning

To maintain optimal performance and appearance:

- Gently wipe the adapter with a soft, dry cloth.

- Avoid using liquid cleaners, solvents, or abrasive materials, as these can damage the device.

## 4.2 Storage and Protection

The adapter comes with a protective silicone case and a key ring for convenience and durability:

- Always store the adapter in its provided leather case when not in use to protect it from dust, scratches, and minor impacts.
- Attach the key ring for easy portability, ensuring the adapter is always accessible.
- Avoid exposing the adapter to extreme temperatures, direct sunlight, or high humidity.

# PRODUCT DETAILS

## LED Working Indicator

Intuitively detects if an infrared command has been issued

## Protective Silicone Case

Protecting and storing the remote control from damage

## Key Ring

Put it on your keychain to control multiple appliances anywhere, anytime

## 5. TROUBLESHOOTING

---

If you encounter issues with your OCRUSTAR Universal Remote Control Adapter, refer to the following common problems and solutions:

Problem	Possible Cause / Solution
Adapter not detected by iPhone/App.	Ensure the adapter is fully inserted into the Lightning port. Check if the adapter's LED indicator is lit. Restart the app or your iPhone.
Appliance does not respond to commands.	Ensure the adapter is pointed directly at the appliance's IR receiver. Verify that the correct device type and brand profile are selected in the app. Try different remote codes within the app's device setup. Ensure there are no obstructions between the adapter and the appliance.
App screen rotation issues.	If the app's screen orientation becomes stuck after the phone locks, try closing and reopening the app. Ensure your iPhone's screen rotation lock is not enabled if you desire rotation.
Device functions incorrectly after pairing (e.g., AC settings changed).	Remove the device profile from the app and re-add it, carefully selecting the correct brand and testing codes. If issues persist, consult the appliance's original manual for specific IR command details or try a different remote code.
Difficulty understanding initial setup instructions.	When scanning the QR code for the app, ensure you select the English language option if prompted. If the physical user guide is in a foreign language, refer to this digital manual for English instructions.
