BLACK+DECKER CM0122-1BD

BLACK+DECKER Split Brew 12-Cup Digital Coffee Maker

Model: CM0122-1BD

Brand: BLACK+DECKER

INTRODUCTION

Introducing the Black+Decker Splitbrew 12 Cup Programmable Coffee Maker, a cutting-edge appliance designed to cater to the diverse preferences of coffee aficionados. This coffee maker redefines flexibility by allowing you to effortlessly brew a perfect cup of either iced or hot coffee using a single carafe. With its state-of-the-art Iced & Hot Coffee Brewing Technology, this appliance ensures that your iced coffee maintains its rich, full-bodied flavor without the dilution commonly associated with traditional brewing methods. Quick Touch Programming takes the hassle out of coffee preparation – simply set the clock and program the auto-brew system to have your coffee ready whenever you desire. The Exclusive Vortex Technology is the secret behind the consistently exceptional flavor of your coffee. This technology ensures an even saturation of coffee grounds, extracting the full range of flavors and aromas for a truly satisfying cup every time. The convenience of the Hot Coffee Sneak-a-Cup™ feature allows you to pause the brewing process, letting you pour that first cup without the mess or wait, ensuring immediate gratification. Designed for efficiency, the coffee maker boasts an ergonomic carafe handle that facilitates easy pouring and seamless storage in the fridge, perfect for those who enjoy their coffee over ice. Additional features like the Easy-View Water Window, Duralife™ Glass Carafe, 4-hour Keep Warm Plate for hot coffee, and the Auto-Clean Function enhance the overall brewing experience. The inclusion of a Brew Freshness Timer not only adds a touch of sophistication but also empowers you to save over \$1000 per year by brewing your favorite coffee at home. For those who revel in the boldness of iced coffee, this appliance delivers an impressive 75% stronger brew compared to conventional methods, ensuring a robust and full-flavored experience. Embrace the best of both worlds – the rich warmth of a hot cup and the refreshing coolness of iced coffee – with the Black+Decker Splitbrew 12 Cup Programmable Coffee Maker. Elevate your daily caffeine ritual with a perfect balance of versatility and quality in every sip.

IMPORTANT SAFETY INFORMATION

When using electrical appliances, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and/or injury to persons, including the following:

- Read all instructions.
- Do not touch hot surfaces. Use handles or knobs.

- To protect against fire, electric shock and injury to persons, do not immerse cord, plugs, or appliance in water or other liquid.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts, and before cleaning the appliance.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions, or has been damaged in any manner. Contact customer service for examination, repair, or adjustment.
- The use of accessory attachments not recommended by the appliance manufacturer may result in fire, electric shock or injury to persons.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.
- Do not place on or near a hot gas or electric burner, or in a heated oven.
- To disconnect, turn any control to "off", then remove plug from wall outlet.
- Do not use appliance for other than intended use.
- The carafe is designed for use with this appliance. It must never be used on a range top.
- Do not set a hot carafe on a wet or cold surface.
- Do not use a cracked carafe or a carafe having a loose or weakened handle.
- Do not clean carafe with cleansers, steel wool pads, or other abrasive material.
- Scalding may occur if the lid is removed during the brewing cycles.

PRODUCT OVERVIEW

Familiarize yourself with the components of your new BLACK+DECKER Split Brew Coffee Maker.

Overall view of the BLACK+DECKER Split Brew 12-Cup Digital Coffee Maker, showcasing its sleek black design and digital display.

Key Components:

- **Water Reservoir:** For filling with water. Features an Easy-View Water Window.
- **Brew Basket:** Holds the coffee filter and grounds.
- **Duralife™ Glass Carafe:** 12-cup capacity for hot coffee, or suitable for iced coffee with ice.
- **Control Panel:** Digital display with Quick Touch Programming buttons for setting time, brew options, and strength.
- **Keep Warm Plate:** Maintains the temperature of hot coffee for up to 4 hours.

SETUP

Before first use, it is recommended to clean your coffee maker thoroughly.

1. Initial Cleaning:

- Wash the Duralife™ Glass Carafe, brew basket, and permanent filter (if included) in warm, soapy water. Rinse thoroughly.
- Wipe the exterior of the appliance with a soft, damp cloth.

2. **Placement:** Place the coffee maker on a flat, stable surface, away from the edge of the counter. Ensure there is adequate ventilation around the unit.

3. Water Filling:

Sneak-A-Cup®

Enjoy a Hot, Fresh Cup Without Waiting

The Easy-View Water Window with clear measurement markings for precise water filling.

- Open the top lid of the coffee maker.
- Fill the Duralife™ Glass Carafe with the desired amount of cold, fresh water. For iced coffee, use cold, filtered water for best results.
- Pour the water into the water reservoir, using the Easy-View Water Window as a guide for the correct number

of cups.

4. Adding Coffee Grounds:

- Place a standard basket-style paper filter or the permanent filter (if included) into the brew basket.
- Add the desired amount of ground coffee. For hot coffee, a general guideline is 1 tablespoon of ground coffee per cup. For iced coffee, the appliance is designed to brew 75% stronger, so adjust accordingly or follow specific iced coffee instructions in the operating section.
- Close the top lid securely.

OPERATING INSTRUCTIONS

Brewing Hot Coffee:

1. Ensure the coffee maker is set up as described in the "Setup" section.
2. Place the empty Duralife™ Glass Carafe on the Keep Warm Plate.
3. Press the **BREW** button to start the brewing cycle. The indicator light will illuminate.
4. The coffee maker will automatically shut off after 4 hours of keeping warm.

Brewing Iced Coffee:

The Split Brew technology ensures a strong, flavorful iced coffee that won't be watered down by ice.

Iced Coffee Function

High-Quality Iced Brews,
75% Stronger[^]

[^]12 cups iced coffee brewed with BLACK+DECKER CM0122-1BP vs. 12 cups hot coffee brewed with the BLACK+DECKER CM0915 and poured over ice.

The coffee maker's specialized function for brewing strong iced coffee directly over ice.

1. Fill the Duralife™ Glass Carafe with ice cubes up to the indicated "MAX ICED" line.
2. Add cold, filtered water to the reservoir according to the "ICED" markings on the Easy-View Water Window.
3. Add coffee grounds to the brew basket as per the "Setup" section, noting that this brew is designed to be stronger.
4. Place the carafe with ice on the Keep Warm Plate.
5. Press the **ICED COFFEE** button. The indicator light will illuminate.
6. Once brewing is complete, remove the carafe and serve.

Quick Touch Programming (Setting the Clock & Auto-Brew):

Easy View Water Window With Measurement Markings

For Accurate Brewing Every Time

The QuickTouch programming panel for setting the clock and auto-brew feature.

1. Setting the Clock:

- Press the **HR** button to set the hour.
- Press the **MIN** button to set the minute.
- The clock will automatically set after a few seconds of inactivity.

2. Setting Auto-Brew:

- Prepare the coffee maker with water and grounds as usual.
- Press the **BREW LATER** button. The indicator light will flash.
- Use the **HR** and **MIN** buttons to set the desired brew time.
- Press the **BREW LATER** button again to confirm. The indicator light will remain solid, indicating the auto-brew is set.

Sneak-a-Cup™ Feature:

This feature allows you to pour a cup of coffee before the brewing cycle is complete.

QuickTouch® Programming

Set the Clock & Auto Brew Feature

Demonstration of the Sneak-a-Cup feature, allowing a quick pour during brewing.

- Simply remove the carafe from the Keep Warm Plate during brewing. The flow of coffee will temporarily stop.
- Return the carafe to the plate within 30 seconds to prevent overflow from the brew basket.

Brew Strength Selector:

Adjust the strength of your hot coffee to your preference.

Brew Strength Selector

Personalize Every Brew

Close-up of the control panel showing the Brew Strength Selector button.

- Before brewing hot coffee, press the **STRONG** button to activate the stronger brew setting. The indicator light will illuminate.
- Press it again to return to regular strength.

MAINTENANCE AND CLEANING

Regular cleaning ensures optimal performance and longevity of your coffee maker.

Save up to
\$1,000 a Year*

Barista-Quality Coffee
Without the High Prices

*Assumes spending at least \$2.95 per day on coffeehouse iced coffee vs. \$0.20 per day making iced coffee at home.

Components of the coffee maker, including the removable carafe and filter basket, for easy cleaning.

Daily Cleaning:

- **Carafe and Brew Basket:** After each use, wash the Duralife™ Glass Carafe and brew basket in warm, soapy water. They are also top-rack dishwasher safe.
- **Exterior:** Wipe the exterior surfaces with a soft, damp cloth. Do not use abrasive cleaners or scouring pads.

Auto-Clean Function (Descaling):

Mineral deposits from water can build up over time and affect performance. Use the Auto-Clean function to descale your coffee maker regularly (e.g., monthly or every 80 uses).

1. Empty the carafe and remove any filter from the brew basket.
2. Fill the water reservoir with 4 cups of white vinegar.
3. Place the empty carafe on the Keep Warm Plate.
4. Press the **AUTO CLEAN** button (if available, otherwise refer to manual for specific cleaning cycle initiation). The indicator light will illuminate.

5. Allow the cycle to complete. The appliance will pause during the cycle to allow the vinegar to soak.
6. Once the cycle is finished, discard the vinegar solution.
7. Run 2-3 full cycles with fresh, cold water to flush out any remaining vinegar smell or taste.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Coffee not brewing.	Not plugged in; power outage; auto-brew not set correctly; water reservoir empty.	Ensure appliance is plugged in; check power supply; re-program auto-brew; fill water reservoir.
Coffee tastes weak or too strong.	Incorrect coffee-to-water ratio; wrong grind size; brew strength setting.	Adjust coffee grounds amount; use appropriate grind for drip coffee; check/adjust brew strength setting.
Brew basket overflows.	Too much coffee grounds; filter not seated correctly; carafe not on plate; mineral buildup.	Reduce coffee grounds; ensure filter is properly seated; ensure carafe is fully on Keep Warm Plate; perform Auto-Clean cycle.
Iced coffee is watered down.	Not enough ice; incorrect water level for iced brew; not using ICED COFFEE setting.	Ensure carafe is filled with ice to MAX ICED line; use water level markings for ICED brew; select ICED COFFEE button.
