## HALO HL0031

# HALO Sleepsack Supersoft Wearable Blanket HL0031 Instruction Manual

Model: HL0031

## INTRODUCTION

Thank you for choosing the HALO Sleepsack Supersoft Wearable Blanket. This product is designed to provide a safe, comfortable, and warm sleeping environment for your baby, eliminating the need for loose blankets in the crib. Please read this manual thoroughly before first use and keep it for future reference.

The HALO Sleepsack is recognized for its commitment to sleep safety and is a trusted choice in hospitals nationwide.

## PRODUCT FEATURES

- **Material:** Crafted from 95% viscose from bamboo and 5% elastane, with 100% polyfill for a buttery soft feel.
- **TOG Rating:** 1.5 TOG, suitable for all seasons to keep your baby comfortably warm.
- **2-Way Zipper:** Facilitates easy diaper changes without fully undressing the baby. Features a zipper cover at the neckline to prevent scratches.
- **Hip-Healthy Design:** Provides ample room for hip movement, promoting healthy hip development.
- **Hypoallergenic:** Gentle on sensitive skin.

Size chart for HALO SleepSack, detailing recommended age, size, height, and weight ranges for proper fit.

## HALO Sleepsack Size Chart

Age Range	Size	Height Range	Weight Range
0-3 months	NB	19-23 in	5-10 lb
0-6 months	S	23-26 in	10-18 lb
6-12 months	M	26-30 in	16-24 lb
12-18 months	L	30-35 in	22-28 lb
18-24 months	XL	35-40 in	26-36 lb

## SETUP AND FIRST USE

- Inspect Product:** Before first use, carefully inspect the Sleepsack for any damage, loose threads, or broken zippers. Do not use if any defects are found.
- Pre-Wash:** For optimal softness and hygiene, machine wash the Sleepsack before its first use. Follow the care instructions provided in the 'Maintenance' section.

3. **Prepare Sleeping Area:** Ensure the baby's crib or bassinet is free of any loose blankets, bumpers, toys, or other soft bedding that could pose a suffocation hazard.

## OPERATING INSTRUCTIONS

### How to Dress Your Baby in the Sleepsack

1. **Choose Appropriate Underwear:** Dress your baby in appropriate sleepwear underneath the Sleepsack based on the room temperature. The 1.5 TOG rating means it provides moderate warmth. Consider a long-sleeved onesie in cooler rooms or just a diaper in warmer rooms.
2. **Open Zipper:** Unzip the Sleepsack fully from the bottom up.
3. **Place Baby Inside:** Lay your baby down inside the Sleepsack, ensuring their arms are through the armholes.
4. **Secure Zipper:** Zip the Sleepsack from the bottom up, ensuring the zipper is fully closed and the fabric guard covers the zipper pull at the neckline to prevent irritation.

### Safe Sleep Guidelines

- Always place your baby on their back to sleep.

- Use a firm sleep surface, such as a crib or bassinet with a firm mattress, covered by a fitted sheet.
- Keep soft objects, loose bedding, or any objects that could increase the risk of entrapment, suffocation, or strangulation out of the baby's sleep area.
- Ensure the Sleepsack fits properly according to the size chart to prevent the baby from slipping down inside.

### MAINTENANCE AND CARE

Proper care will extend the life of your HALO Sleepsack and maintain its softness and effectiveness.

- **Washing:** Machine wash cold with like colors. Do not bleach.
- **Drying:** Tumble dry low. Due to the plush, multi-layered design, the Sleepsack may require a longer drying time or an additional cycle. Ensure it is completely dry before use or storage. Do not iron. Do

not dry clean.

- **Storage:** Store in a clean, dry place away from direct sunlight when not in use.

## TROUBLESHOOTING

---

- **Baby seems too warm/cold:** Adjust the layers of clothing your baby wears underneath the Sleepsack. The 1.5 TOG is designed for moderate room temperatures. If the room is very warm, a diaper may be sufficient. If very cool, a long-sleeved bodysuit might be needed.
- **Zipper sticking:** Ensure the fabric is not caught in the zipper. Gently pull the fabric away from the zipper teeth while zipping. Regular washing can help keep the zipper smooth.
- **Fabric pilling:** Pilling can occur with wear and washing. To minimize pilling, wash inside out and avoid harsh detergents or excessive agitation.
