3. SETUP AND ASSEMBLY

Assembly of the LINSY HOME 8-Drawer Dresser is required. While the instructions are generally clear, careful attention to illustrations and part labeling is recommended for a smoother process. All necessary hardware is included, along with extra parts and a double-sided screwdriver.

Assembly Tips:

- Lay out all pieces according to the illustration to avoid confusion.
- Ensure proper alignment of holes and parts, especially when attaching drawer wheels/slides.
- Some pre-drilled holes may contain residual material. Apply firm, steady pressure with the screwdriver to clear the hole before attempting to insert the screw.
- While assembly can be done by one person, especially for experienced individuals, it is recommended to have two

people for lifting and maneuvering the heavier components.

- The dresser is heavy (approximately 110 pounds) and large; plan for assistance when moving the assembled unit.

4. OPERATING INSTRUCTIONS

The drawers are designed for smooth operation using premium metal slides. To open, gently pull the handle. To close, push the drawer firmly until it is fully seated.

Safety Guidelines:

- **Anti-Tip Accessory:** Always install the provided anti-falling accessory to secure the dresser to the wall. This is crucial to prevent accidental tipping, especially in households with children or pets.
- **Drawer Usage:** To maintain stability and prevent tipping, avoid opening more than one drawer at a time.
- **Weight Distribution:** Distribute items evenly within the drawers. Avoid overloading individual drawers or the dresser top.
- **Top Surface:** Do not place a television or other heavy, unstable objects on top of the dresser.

5. MAINTENANCE

To ensure the longevity and appearance of your LINSY HOME dresser, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the dresser surfaces with a dry, soft cloth. Avoid using harsh chemicals or abrasive cleaners, which can damage the finish.
- **Spills:** Immediately wipe up any spills to prevent moisture damage to the P2 Grade Board.
- **Drawer Slides:** Periodically check the metal drawer slides for smooth operation. If they become stiff, a small amount of silicone-based lubricant can be applied.
- **Hardware:** Ensure all screws and fittings remain tight. Tighten as necessary to maintain structural integrity.

6. TROUBLESHOOTING

This section addresses common issues you might encounter with your dresser.

Common Issues and Solutions:

- **Drawers Not Sliding Smoothly:**
 - Check if the metal slides are properly aligned and free of obstructions.
 - Ensure all screws securing the slides are tightened.
 - Apply a silicone-based lubricant to the slides if needed.
- **Dresser Feels Unstable/Wobbly:**
 - Verify that the anti-tip accessory is correctly installed and securely anchored to the wall.

- Check all assembly screws and tighten any that are loose.
- Ensure the dresser is placed on a level surface.

• **Difficulty with Screws During Assembly:**

- Some pre-drilled holes may contain residual material. Apply firm, steady pressure with the screwdriver to clear the hole before attempting to insert the screw.
- Ensure you are using the correct screw type and length for each step as indicated in the assembly instructions.
