

SABLUTE KL3 PRO

SABLUTE Wireless Keyboard and Mouse Combo User Manual

Model: KL3 PRO

INTRODUCTION

This manual provides comprehensive instructions for the setup, operation, maintenance, and troubleshooting of your SABLUTE Wireless Keyboard and Mouse Combo. Please read this manual carefully before using the product to ensure optimal performance and longevity.

The SABLUTE KL3 PRO Wireless Keyboard and 6-Button Mouse Combo is designed to enhance your computing experience with its ergonomic features, customizable backlighting, and efficient wireless connectivity.

PACKAGE CONTENTS

- SABLUTE Wireless Keyboard
- SABLUTE Wireless Mouse
- USB Receiver (located in the keyboard's battery compartment)
- Charging Cable
- User Manual (this document)

SETUP

1. Locating the USB Receiver

The 2.4G USB wireless receiver for both the keyboard and mouse is conveniently stored in a dedicated slot on the underside of the keyboard. Gently remove it before initial use.

Your browser does not support the video tag.

Video: Demonstrates how to locate and remove the USB receiver from the underside of the keyboard.

2. Connecting to Your Device

1. Insert the USB receiver into an available USB-A port on your computer (Laptop, Personal Computer, Television).
2. Ensure both the keyboard and mouse are powered on using their respective ON/OFF switches. The switches are typically located on the underside of each device.
3. The devices should automatically connect to your computer. No additional drivers are usually required for Windows, Mac, or Linux systems.

Important Note: A USB-C dongle is not included. This keyboard and mouse combo cannot connect directly to tablets or phones without a compatible USB-A adapter (not supplied).

Keyboard Features

- **Ergonomic Wrist Rest:** The keyboard features an extra-large wrist rest (2.8" widest edge) designed to provide ergonomic support and reduce wrist pain during prolonged use.

Image: Close-up view of the keyboard's ergonomic palm rest, illustrating how it supports the user's wrists to reduce fatigue.

- **Integrated Device Holder:** A built-in holder accommodates phones and tablets under 11.9 inches, allowing for convenient multitasking.

- **Backlight Control:**

- Turn ON/OFF Backlight: Press **Fn + PrtSc/SysRq**.
- Switch Backlight Mode: Press **Fn + Scroll Lock**. The keyboard offers 3 backlight modes and 7+1 backlight colors.
- Adjust Light Brightness: Press **Fn + Up Arrow** (increase) or **Fn + Down Arrow** (decrease). There are 3 brightness levels.

COLORFUL BACKLIT MOODS

- **Shortcut Hotkeys:** In addition to standard F1-F12 functions, the keyboard includes 6 one-touch hotkeys for improved efficiency.
- **Quiet Typing:** Soft membrane keys ensure consistent transmission force and significantly reduce typing noise by 95%.

Mouse Features

- **6-Button Design:** Includes standard left/right click, scroll wheel, and dedicated forward/backward buttons for

enhanced navigation.

- **3-Level Tracking Speed (DPI):** Adjust the mouse sensitivity to your preference.
- **Silent Clicks:** Features silent micro motion technology for nearly silent operation.
- **Backlight:** The mouse also features color backlighting which can be quickly switched or turned off.

MAINTENANCE

Charging the Devices

Both the keyboard and mouse have built-in rechargeable batteries. Use the provided USB-C charging cable to recharge them when the battery is low.

- Connect the USB-C end of the charging cable to the charging port on the keyboard/mouse.
- Connect the USB-A end to a USB power source (e.g., computer USB port, USB wall adapter).
- An indicator light on the device will typically show charging status and turn off when fully charged.

Smart Sleep Mode

To conserve energy, both the keyboard and mouse will enter a smart sleep mode after 90 seconds of inactivity. To wake them up, simply press any button or key.

Cleaning

To clean your devices, gently wipe them with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials that could damage the surface.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Keyboard/Mouse not responding	Devices are off. Low battery. USB receiver not properly connected. Interference from other wireless devices. Devices are in sleep mode.	Ensure ON/OFF switches are in the ON position. Charge the keyboard and mouse. Reconnect the USB receiver to a different USB port. Move the devices closer to the receiver or away from other wireless devices. Press any key/button to wake up the devices.
Backlight not working or turning off quickly	Backlight is turned off. Low battery. Incorrect backlight mode selected.	Press Fn + PrtSc/SysRq to toggle backlight. Charge the keyboard/mouse. Press Fn + Scroll Lock to cycle through backlight modes.
Lag or delayed response	Distance from receiver too great. Interference.	Ensure devices are within the 33ft operating range. Move the receiver to a more open location or away from other electronics.
Cannot connect to tablet/phone	Direct connection not supported.	This combo is designed for devices with USB-A ports (Laptops, PCs, TVs). It does not support direct connection to tablets or phones.
