YASHE QF-150

YASHE QF-150 2-in-1 Manual Pasta Maker Instruction Manual

MODEL: QF-150

Introduction

Thank you for choosing the YASHE QF-150 2-in-1 Manual Pasta Maker. This machine is designed to simplify the process of making fresh, homemade pasta. Crafted from food-grade stainless steel and aluminum alloy, it offers durability and safety for your kitchen. With adjustable thickness settings and dual cutting widths, you can create a variety of pasta types, including spaghetti, fettuccine, and lasagna sheets.

This manual provides detailed instructions for the proper setup, operation, and maintenance of your pasta maker to ensure optimal performance and longevity.

Safety Instructions

- Read all instructions before using the pasta maker.
- Keep hands and loose clothing away from moving parts during operation.
- Ensure the machine is securely clamped to a stable surface before use to prevent movement.
- Do not immerse the pasta maker in water. Clean with a dry cloth or brush as instructed.
- Keep out of reach of children. Adult supervision is required when children are operating the machine.
- Use only with appropriate food-grade ingredients.

Product Overview

The YASHE QF-150 pasta maker includes the following components:

- Pasta Roller Unit (main body)
- Detachable Noodle Cutter (for spaghetti and fettuccine)
- Hand Crank

- Fixing Clamp
- Cleaning Brush
- Cleaning Rag

2-in-1 Pasta Maker

1

Roll out
the dough thin

2

Cut the rolled
dough into noodles

Setup

1. **Attach the Clamp:** Position the pasta maker on a clean, stable countertop. Insert the fixing clamp into the designated hole on the base of the machine. Tighten the clamp securely to the edge of your table or counter (suitable for thicknesses of 1.4-2.7 inches) to prevent any movement during operation.
2. **Insert the Hand Crank:** The hand crank can be inserted into two different locations:
 - For rolling pasta sheets: Insert the hand crank into the larger hole on the side of the main pasta roller unit.
 - For cutting noodles: Insert the hand crank into the hole on the side of the detachable noodle cutter.
3. **Prepare the Dough:** Ensure your pasta dough is well-kneaded and lightly floured before beginning.

Easy To clean

We include extra dry cloth and brush for easy cleaning

Please use a dry cloth or soft brush to clean.

It is not recommended to wash the product with water

The stable table clamp ensures the pasta maker remains secure during use.

Operating Instructions

1. Rolling Pasta Sheets:

- a. Insert the hand crank into the main roller unit.
- b. Adjust the thickness setting knob on the side. The machine offers 9 settings, ranging from 0.3mm (thinnest) to 3mm (thickest). Start with a thicker setting (e.g., 7 or 9) and gradually decrease it.
- c. Feed a small, flattened piece of dough through the rollers while turning the hand crank. Fold the dough in half, lightly flour, and repeat the process several times on the same thickness setting until the dough is smooth and elastic.
- d. Gradually reduce the thickness setting, passing the dough through each setting until you reach your desired pasta sheet thickness.

2. Cutting Noodles:

- a. Remove the hand crank from the main roller unit and insert it into the noodle cutter attachment.
- b. The noodle cutter has two widths: 2mm for thin pasta (spaghetti) and 6.5mm for wide pasta (fettuccine).
- c. Feed the rolled pasta sheet through the desired cutting width while turning the hand crank. Support the emerging noodles to prevent tearing.

Various Thicknesses Available

0.3~3mm pasta sheets can be made
according to your preference

Achieve various pasta sheet thicknesses from 0.3mm to 3mm.

Thin Pasta
2 mm

Wide Pasta
6.5 mm

2 Width Options

Dual width options for spaghetti (2mm) and fettuccine (6.5mm).

Maintenance & Cleaning

Proper cleaning and maintenance will extend the life of your pasta maker.

- **Do Not Wash with Water:** The YASHE QF-150 is **not dishwasher safe** and should not be immersed in water. Water can damage the internal mechanisms and lead to rust.
- **Immediate Cleaning:** Clean the machine immediately after each use, before dough residue hardens.
- **Use Brush and Cloth:** Use the provided cleaning brush to remove any dry dough particles from the rollers and cutters. Use the cleaning rag to wipe down the exterior of the machine.
- **Air Dry:** Allow all parts to air dry completely before storing.
- **Storage:** Store the pasta maker in a dry place. The detachable cutter can be separated for compact storage.

What's in the box

The included cleaning brush and rag facilitate easy maintenance.

Troubleshooting

- Dough Sticking:** If dough sticks to the rollers, ensure it is not too wet. Lightly dust the dough and rollers with flour.
- Uneven Sheets:** If pasta sheets are uneven, fold the dough and pass it through the widest setting several times until it becomes uniform before gradually reducing the thickness.
- Machine Wobbles:** Ensure the fixing clamp is securely tightened to a stable surface.
- Difficulty Turning Crank:** If the crank is hard to turn, the dough might be too thick for the current setting. Adjust to a wider setting or ensure the dough is properly kneaded.

Specifications

Feature	Detail
Brand	YASHE

Feature	Detail
Model Number	QF-150
Material	Aluminum, Stainless Steel
Color	Silver
Product Dimensions	9.76" L x 8.98" W x 6.69" H
Item Weight	6.38 pounds (2.9 Kilograms)
Number of Thickness Settings	9
Minimum Sheet Thickness	0.3 Millimeters
Maximum Sheet Thickness	3 Millimeters
Operation Mode	Manual
Dishwasher Safe	No
Electric	No
