Veken SHF3

Veken SHF3 Replacement Filter User Manual

Model: SHF3

INTRODUCTION

Thank you for choosing the Veken SHF3 Replacement Filters. This manual provides essential information for the proper installation, operation, and maintenance of your new filters, ensuring you receive the best performance and purified water for your shower.

These filters are designed exclusively for Veken SHF3 model handheld shower heads, offering a 10-stage filtration system to reduce chlorine, heavy metals, and other impurities from hard water.

PRODUCT OVERVIEW

The Veken SHF3 replacement filter utilizes a multi-stage filtration process to enhance water quality, contributing to healthier skin and hair. Each filter provides effective purification for approximately 1 to 3 months, depending on water quality and usage.

10-Stage Filtration System

The filter cartridge contains various layers, each designed to target specific impurities:

- **High Density Stainless Steel Screen:** Initial filtration of larger particles.
- **Cleaning Ball:** Assists in maintaining filter efficiency.
- **Vitamin C:** Neutralizes chlorine, reduces limescale, and supports skin health.
- **Medical Stone:** Balances water pH, reduces skin irritation.
- **Activated Carbon:** Absorbs organic pollutants, dechlorinates, and removes odors.
- **Calcium Sulfite:** Highly effective in removing chlorites.
- **KDF:** Further reduces chlorine and heavy metals.
- **Magnetic Ball:** Helps to soften water.
- **Zeolite:** Adsorbs impurities and heavy metals.
- **High Density Stainless Steel Screen:** Final filtration layer.

INSTALLATION INSTRUCTIONS

These replacement filters are designed for easy, tool-free installation into your Veken SHF3 model handheld shower head.

Compatibility Check

Ensure you have the correct filter type for your Veken shower head. These filters are specifically for the SHF3 model, which

typically uses a transparent cartridge filled with various media balls.

CHOOSE THE RIGHT FILTER FOR YOUR VEKEN SHOWER HEAD

Step-by-Step Installation

1. **Turn off Water Supply:** Before beginning, ensure the water supply to your shower is turned off to prevent leaks.
2. **Unscrew Shower Head Handle:** Gently twist the handle of your Veken SHF3 shower head counter-clockwise to separate it from the main shower head body.

- 3. Remove Old Filter:** Carefully extract the used filter cartridge from the handle. Dispose of the old filter responsibly.
- 4. Insert New Filter:** Place the new Veken replacement filter cartridge into the shower head handle. Ensure it is seated correctly and fully inserted.
- 5. Reattach Shower Head Handle:** Screw the handle back onto the shower head body by twisting clockwise until it is hand-tight. Do not overtighten.
- 6. Check for Leaks:** Turn on the water supply and check for any leaks around the connection points. If leaks occur, ensure the filter is properly seated and the handle is securely tightened.
- 7. Flush Filter:** Allow water to run through the shower head for a few minutes to flush out any loose media particles and prepare the filter for use.

OPERATING INSTRUCTIONS

Once installed, the Veken SHF3 replacement filter operates automatically with your shower head. Simply use your shower as normal. The filtration process begins as water flows through the cartridge, providing purified water for your shower experience.

MAINTENANCE AND FILTER REPLACEMENT

To ensure continuous optimal performance and water quality, regular filter replacement is necessary.

- Replacement Frequency:** Each Veken SHF3 replacement filter is designed to last approximately **1 to 3 months**. This duration can vary based on your local water quality (e.g., hardness, sediment levels) and frequency of shower use.
- Indicators for Replacement:** You may notice a decrease in water flow, a return of unpleasant odors, or a reduction in the beneficial effects on your skin and hair. These are signs that the filter media is exhausted and needs to be replaced.
- Replacement Procedure:** Follow the "Installation Instructions" outlined in the Setup section to replace the old filter with a new one.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Reduced Water Flow	Filter is clogged or nearing end of life.	Replace the filter cartridge. Ensure proper installation.
Water Leaks from Shower Head	Filter not seated correctly or handle not tightened.	Ensure the filter is fully inserted and the shower head handle is securely hand-tightened. Check for damaged O-rings.
Water Quality Not Improved	Filter is exhausted or incorrect filter type.	Replace the filter. Verify that you are using the correct Veken SHF3 replacement filter.

SPECIFICATIONS

Brand: Veken

Model Number: SHF3V204 (compatible with SHF3 shower heads)

Material: Acrylonitrile Butadiene Styrene (ABS) casing, various filtration media

Product Dimensions: Approximately 4.7 x 0.8 x 0.8 inches

Item Weight: Approximately 2.72 ounces per filter

Filter Lifespan: 1-3 months (dependent on water quality and usage)

Included Components: Spare Filter Cartridge (2-pack)

UPC: 850051133857
