Samsung EF-US928CTEGUS

Samsung Galaxy S24 Ultra Anti-Reflecting Screen Protector User Manual

Model: EF-US928CTEGUS

Introduction

This manual provides detailed instructions for the installation, usage, maintenance, and troubleshooting of your Samsung Galaxy S24 Ultra Anti-Reflecting Screen Protector. Designed to enhance your viewing experience, this protective film helps maintain screen clarity and vibrancy while offering protection against scratches and dust.

What's in the Box

Verify that all components are present before beginning installation.

- Screen Protector (2 units)
- Installation Frame
- Dust Removal Stickers
- Squeegee
- Cleaning Cloth

Setup: Installation Guide

Follow these steps carefully for optimal installation. Ensure you are in a clean, dust-free environment.

1. **Prepare Your Device:** Power off your Samsung Galaxy S24 Ultra. Use the provided cleaning cloth to thoroughly clean the screen, removing all smudges and fingerprints. Use a dust removal sticker to pick up any remaining dust particles.
2. **Attach the Installation Frame:** Place the installation frame onto your phone. The frame is designed to align the screen protector perfectly. It uses two small sticky areas to secure it to the bottom corner of the phone.
3. **Position the Screen Protector:** The screen protector comes with two index tabs on the installation frame. Align the screen protector with these tabs, ensuring it is correctly oriented.
4. **Remove Backing (Part 1):** Carefully peel off the first section of the protective backing from the screen protector. This usually corresponds to the top half of the screen.
5. **Apply Top Half:** Gently lay the exposed portion of the screen protector onto the phone screen, starting from the top. Use the provided squeegee to smooth out any air bubbles as you apply, working from the center outwards.
6. **Remove Backing (Part 2):** Once the top half is securely applied, carefully remove the second section of the protective backing. This is often indicated by a "REMOVE PART 2" tab.
7. **Apply Bottom Half:** Continue to apply the remaining portion of the screen protector to the bottom half of the screen. Use the squeegee to push out any air bubbles, ensuring a smooth, even application across the entire screen.
8. **Final Smoothing:** After the protector is fully applied, use the squeegee to firmly press down on the entire surface, especially along the edges, to remove any remaining small bubbles and ensure strong adhesion.
9. **Remove Installation Frame:** Carefully detach and remove the installation frame from your phone.
10. **Inspect:** Check the screen protector for any dust, bubbles, or misalignment. Small bubbles may

disappear over 24-48 hours.

Operating Instructions

The Samsung Galaxy S24 Ultra Anti-Reflecting Screen Protector is designed to integrate seamlessly with your device, providing enhanced screen visibility and protection.

- **Anti-Reflective Performance:** This screen protector significantly reduces reflections, allowing for clearer and more vibrant visuals even in bright lighting conditions or direct sunlight.
- **Touch Sensitivity:** The protector maintains the original touch sensitivity of your Galaxy S24 Ultra screen, ensuring smooth and responsive interaction.
- **Fingerprint Scanner Compatibility:** The in-display fingerprint scanner functions accurately and quickly with the screen protector applied. Re-registration of fingerprints is typically not required, but may be performed if you experience any issues.
- **S Pen Compatibility:** The screen protector does not interfere with the functionality or responsiveness of the S Pen.
- **Scratch and Dust Protection:** The film acts as a barrier, protecting your device's screen from everyday scratches, scuffs, and dust accumulation.

Maintenance

To ensure the longevity and optimal performance of your screen protector, follow these maintenance guidelines:

- **Cleaning:** Use a soft, lint-free cloth (such as the one provided) to gently wipe the screen protector. For stubborn smudges, slightly dampen the cloth with water or a screen-safe cleaning solution. Avoid harsh chemicals or abrasive materials.
- **Avoid Sharp Objects:** While the protector offers scratch resistance, avoid contact with sharp objects like keys or coins to prevent deep scratches.
- **Replacement:** If the screen protector becomes heavily scratched, damaged, or loses its adhesive properties, it is recommended to replace it with a new one to maintain optimal screen protection and visual clarity.

Troubleshooting

Refer to these common issues and solutions:

Issue	Possible Cause	Solution

Issue	Possible Cause	Solution
Bubbles or Dust Under Protector	Dust particles present during installation; improper squeegee application.	• Ensure installation is done in a dust-free environment. • Use dust removal stickers thoroughly before application. • Apply the squeegee firmly and consistently from the center outwards during installation. • Small bubbles may dissipate naturally within 24-48 hours.
Screen Protector Misaligned	Incorrect use of the installation frame or improper initial placement.	• Ensure the installation frame is securely and correctly attached to the phone. • Align the screen protector precisely with the frame's index tabs before beginning application. • If severely misaligned, carefully peel off and reapply (if adhesive allows) or use the second protector provided.
Fingerprint Scanner Not Working	Fingerprint not properly registered with the protector, or sensor obstruction.	• Ensure the screen protector is clean and free of smudges over the fingerprint sensor area. • Re-register your fingerprints after installing the screen protector. This can improve recognition accuracy.
Reduced Anti-Reflective Performance	Surface smudges, dirt, or wear over time.	• Clean the screen protector regularly with a soft, lint-free cloth. • If the protector is heavily worn or damaged, consider replacing it.

Specifications

Brand	Samsung
Model Number	EF-US928CTEGUS
Compatible Phone Models	Samsung Galaxy S24 Ultra
Material	Plastic
Color	Transparent
Additional Features	Anti Glare (Anti-Reflecting)
Screen Size	6.8 Inches
Item Dimensions	6.61 x 3.33 x 0.5 inches
