5 Surprise Unicorn Squad Magic Color Change Series 7

INSTRUCTION MANUAL

Introduction

Welcome to the magical world of 5 Surprise Unicorn Squad Magic Color Change Series 7! This product features collectible unicorns with unique color-changing abilities and various accessories. Each capsule contains a surprise unicorn and its accompanying items, designed for imaginative play.

There are 13 unique Unicorns to collect in Series 7, each with distinct features and accessories. Discover their magical color-changing powers and enjoy styling them with their individual accessories and slime.

Safety Information

WARNING: CHOKING HAZARD – Small parts. Not for children under 3 years.

Adult supervision is recommended during play, especially with younger children, due to small components and slime.

Setup

1. **Unwrap the Capsule:** Carefully peel back the layers of the 5 Surprise capsule to reveal the contents.
2. **Open the Capsule:** Separate the two halves of the capsule to access your surprise unicorn and accessories.
3. **Remove Contents:** Take out the unicorn, accessories, and slime from inside the capsule.

Operating Instructions

1. **Activate Color Change:** Submerge your unicorn in cold water to observe its magical color-changing transformation. The color change is temporary and will revert as the unicorn warms up.
2. **Style Your Unicorn:** Use the included comb to brush your unicorn's hair. Dress your unicorn with its unique fashion accessories. Accessories are often interchangeable with other Unicorn Squad figures.
3. **Play with Slime:** Each capsule includes a small amount of unicorn slime for additional play.

Maintenance

- **Cleaning:** To clean the unicorn figures, gently wipe them with a damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **Slime Care:** Store the slime in an airtight container to prevent it from drying out. If the slime becomes dry, a very small amount of water can sometimes help restore its consistency, but this is not guaranteed.
- **Storage:** Keep the figures and accessories in a clean, dry place away from direct sunlight and extreme temperatures to preserve their condition and color-changing properties.

Troubleshooting

- **Slime is Dried Out:** If the included slime is dry upon opening, it may be due to exposure to air. While adding a tiny amount of water might help, it is not always effective. Ensure future slime is stored in an airtight container.
- **Unicorn Parts (e.g., Legs) Detach:** Some small parts, like legs, may detach. These are generally designed to be reattached. Carefully align the part with its connection point and gently press it back into place. If a part is consistently loose, it may indicate wear.
- **Color Change Not Working:** Ensure the water used is sufficiently cold. The color change effect is activated by a significant temperature difference. If the unicorn is already cold, the effect may be less noticeable.
