Important Safety Information

Read all instructions before installation and use. Failure to follow these instructions could result in injury or property damage.

- Ensure the installation area can support the weight of the bathtub when filled with water and a user.
- All plumbing and electrical connections must be performed by qualified professionals and comply with local codes.
- Do not use abrasive cleaners or harsh chemicals on the bathtub surface.
- Avoid dropping heavy or sharp objects into the tub, as this may cause damage.
- Always test water temperature before entering the tub to prevent scalding.

Package Contents

Carefully unpack all components and verify that all items are present. If any parts are missing or damaged, contact ADECAB customer support immediately.

Setup and Installation

The ADECAB Freestanding Bathtub is designed for straightforward installation. For detailed, step-by-step instructions, please refer to the official Installation Manual (PDF) provided with your product or download it from the ADECAB website.

Download Official Installation Manual (PDF)

Pre-Installation Checklist

- Verify floor stability and levelness.
- Ensure adequate space for the bathtub and plumbing connections.
- Confirm availability of hot and cold water supply lines and a drain connection.

Key Installation Steps (Summary)

1. Position the bathtub in the desired location, ensuring access for plumbing connections.
2. Connect the drain assembly to your floor drain. The bathtub features a leak-proof drain system designed to meet cUPC code requirements.
3. Connect the water supply lines to your chosen faucet (faucet not included).
4. Level the bathtub using the adjustable feet if necessary.
5. Seal the base of the bathtub to the floor using silicone sealant for stability and water resistance.

Operation

Using your ADECAB Freestanding Bathtub is simple and designed for maximum comfort.

Filling the Bathtub

1. Ensure the drain stopper is closed.

2. Turn on your faucet to fill the tub with water to your desired level and temperature. The bathtub's advanced material and double-walled reinforcement provide excellent thermal insulation, maintaining water temperature for extended periods.

Image: Diagram illustrating the thermal insulation properties of the ADECAB bathtub, showing how it retains heat over time with a temperature decay curve.

Draining the Bathtub

1. Open the drain stopper to allow water to flow out.
2. The integrated overflow system prevents accidental overflowing.

Care and Maintenance

Proper care will ensure the longevity and pristine appearance of your ADECAB bathtub.

Cleaning

- For daily cleaning, use a soft cloth or sponge with mild soap and warm water.
- Rinse thoroughly with clean water after cleaning.
- Avoid abrasive cleaners, scouring pads, or harsh chemicals (e.g., acetone, paint thinner, strong acids or bases) as they can damage the acrylic surface.
- For stubborn stains, a non-abrasive liquid cleaner specifically designed for acrylic surfaces can be used.

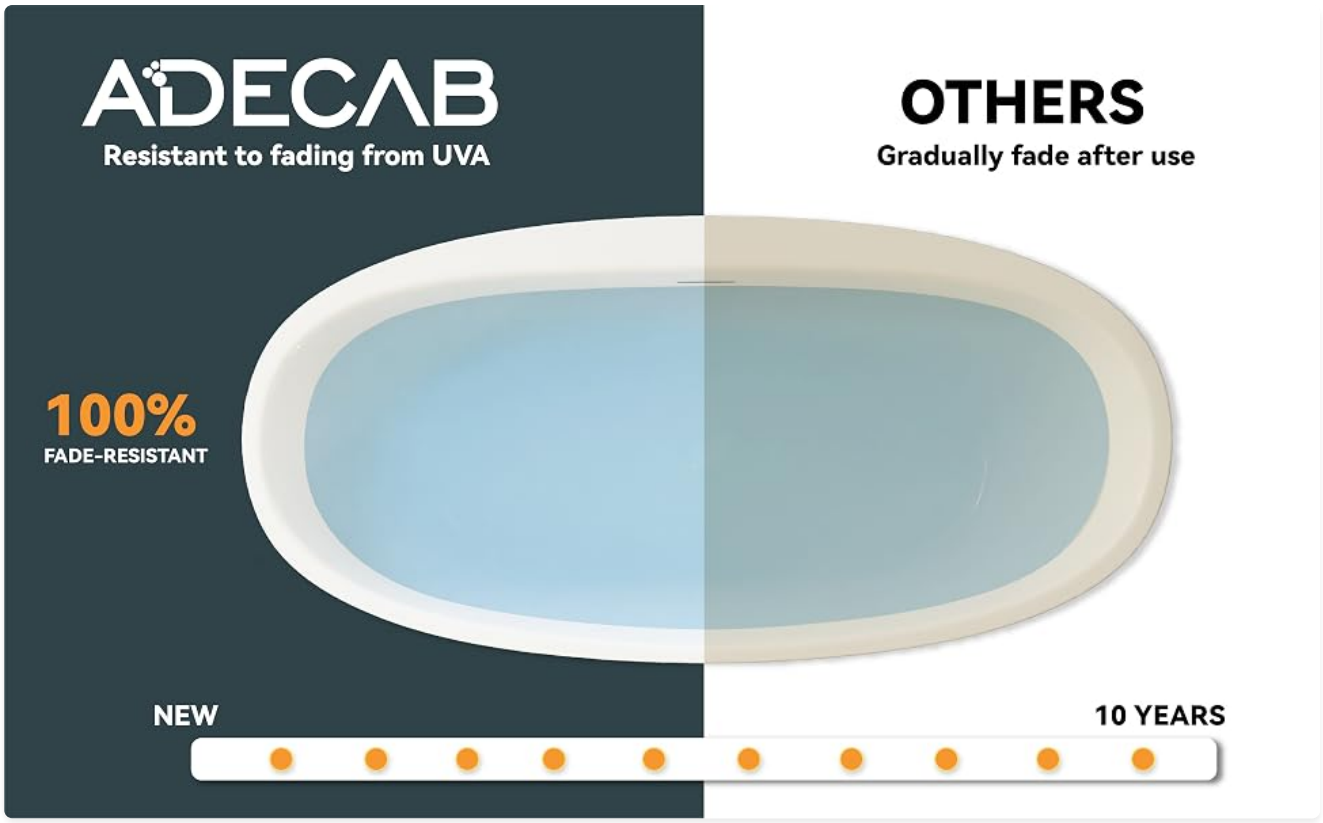

Image: Visual demonstration of how easily the ADECAB bathtub can be cleaned with just water, shower gel, and a rag, thanks to its high-grade acrylic and smooth surface.

Preventing Damage

- Do not place hot objects directly on the bathtub surface.
- Prevent sharp objects from falling into the tub.
- Ensure proper ventilation in the bathroom to prevent mold and mildew buildup.

Troubleshooting

This section addresses common issues you might encounter with your bathtub.

Problem	Possible Cause	Solution
Slow Draining	Clogged drain or P-trap	Check and clear any obstructions in the drain. Consult a plumber if necessary.
Water Leaks	Loose drain connections or damaged seals	Inspect all plumbing connections for tightness. If seals are damaged, contact customer support.
Surface Scratches	Abrasive cleaning or sharp objects	Minor scratches on acrylic can sometimes be buffed out with a specialized acrylic repair kit. For deep scratches, professional repair may be needed.

Problem	Possible Cause	Solution
Water Temperature Loss	External factors, prolonged soaking	While the tub has excellent thermal properties, extreme room temperatures or very long soaking times can lead to gradual temperature decrease.

Warranty and Customer Support

ADECAB stands behind the quality of its products.

Warranty Information

This ADECAB bathtub comes with a 10-year warranty from the date of purchase, covering manufacturing defects. Please retain your proof of purchase for warranty claims. The warranty does not cover damage due to improper installation, misuse, neglect, or normal wear and tear.

Customer Support

For any questions, technical assistance, or warranty claims, please contact ADECAB customer support through the retailer where you purchased the product.
