Ollny HG-29V220C

Ollny Christmas Lights 200LED 60FT User Manual

Model: HG-29V220C

1. INTRODUCTION

Thank you for choosing Ollny Christmas Lights. This manual provides essential information for the safe and effective use of your 200LED 60FT Warm White String Lights. Designed for both indoor and outdoor applications, these lights feature multiple lighting modes, a convenient timer, and a connectable design for extended coverage.

2. IMPORTANT SAFETY INSTRUCTIONS

- Read all instructions before use.
- Do not connect the lights to the power supply while they are in the packaging.
- Ensure the power adapter is protected from direct water exposure when used outdoors. The lights themselves are IP44 waterproof, but the adapter requires protection.
- Do not attempt to replace individual LEDs. The entire string is designed as a sealed unit.
- Keep away from heat sources and open flames.
- Always unplug the lights from the power source before installation, removal, or maintenance.
- Use only the provided power adapter. Using a different adapter may damage the product or pose a safety risk.
- This product is not a toy. Keep out of reach of children.

3. PACKAGE CONTENTS

Verify that all components are present and in good condition:

- 1 x Ollny 200LED 60FT Warm White String Light
- 1 x Power Adapter with Controller

4. SETUP INSTRUCTIONS

4.1 Unpacking and Preparation

1. Carefully remove the string lights from the packaging. It is recommended to uncoil them slowly to prevent tangling.
2. Inspect the entire length of the string lights and the power adapter for any signs of damage. Do not use if damaged.
3. Determine your desired installation location, ensuring it is within reach of a power outlet.

4.2 Connecting Multiple Sets (Optional)

These lights are designed to be connectable, allowing you to extend the length for larger areas. You can connect up to 3 sets of Olly 200LED 60FT string lights together, all controlled by a single power adapter and controller.

1. Locate the male and female connectors at the ends of each string light set.
2. Align the connectors and firmly push them together.
3. Twist the waterproof cap on the connector to secure the connection and ensure water resistance.
4. Connect the first string light set to the power adapter.

Image 2: Illustration of connecting multiple string light sets.

4.3 Installation

Hang or drape the lights in your desired location. The flexible wire allows for creative placement around objects, along walls, or across ceilings.

5. OPERATING INSTRUCTIONS

5.1 Powering On/Off

Plug the power adapter into a standard electrical outlet. The lights will illuminate in the last selected mode due to the memory function.

5.2 Lighting Modes

The integrated controller on the power adapter allows you to cycle through 8 different lighting modes. Short press the button on the controller to switch between modes:

- **Combination:** Cycles through all modes.
- **In Waves:** Lights fade in and out in a wave-like pattern.
- **Sequential:** Lights illuminate in sequence.
- **Slo-Glo:** Lights slowly glow on and off.
- **Chasing/Flash:** Lights chase and flash.
- **Slow Fade:** Lights slowly fade in and out.
- **Twinkle/Flash:** Lights twinkle and flash.
- **Steady On:** Lights remain continuously lit.

Image 3: Controller for selecting 8 lighting modes.

5.3 Timer Function

To activate the timer function, long press the button on the controller. The lights will then operate on a 6-hour ON and 18-hour OFF cycle. The timer will automatically repeat daily until manually deactivated.

Image 4: Timer function for 6 hours ON, 18 hours OFF.

5.4 Memory Function

The lights are equipped with a memory chip that saves your last selected lighting mode and timer setting. When powered on again, the lights will resume the previous setting without needing to be reset.

6. MAINTENANCE

6.1 Cleaning

Ensure the lights are unplugged before cleaning. Wipe the lights gently with a soft, dry cloth. Do not use harsh chemicals or abrasive cleaners.

6.2 Storage

When not in use, carefully coil the string lights and secure them to prevent tangling. Store them in a cool, dry place away from direct sunlight and extreme temperatures.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Lights do not turn on.	No power supply or loose connection.	Ensure the power adapter is securely plugged into a working outlet. Check all connections between light sets.
Lights are dim or flickering.	Insufficient power or damaged section.	Ensure no more than 3 sets are connected. Inspect the string for any visible damage.
Timer function not working.	Timer not activated correctly.	Long press the controller button to activate the 6H ON/18H OFF timer.
Lights are tangled.	Improper unpacking or storage.	Carefully untangle the lights. For future use, uncoil slowly and store neatly.

8. SPECIFICATIONS
