SAFETY INFORMATION

For your safety and to prevent damage to the product, please observe the following precautions:

- Keep the sofa bed away from open flames or high heat sources to prevent fire hazards.
- Supervise children and pets around the sofa bed, especially during conversion, to avoid entrapment risks.
- Use the integrated USB ports and power sockets with caution. Ensure devices are compatible and do not overload the outlets to prevent electrical hazards.
- Do not exceed the maximum weight capacity of 250 lbs per seat.
- Ensure all components are securely connected before use.

SETUP AND ASSEMBLY

The Polibi L-Shape Sofa Bed is designed for minimal assembly. No complex tools are required. The main components are

modular and connect to form the desired configuration.

Unpacking and Initial Placement:

1. Carefully remove all components from the packaging. Retain packaging materials until assembly is complete in case of returns or missing parts.
2. Place the individual modular sections in your desired L-shape or U-shape configuration. The sections are designed to fit together snugly.
3. Ensure the sofa is placed on a flat, stable surface.

Connecting Modular Sections:

The modular sections are designed to interlock. Align the connecting brackets on the sides of adjacent sections and push them firmly together until they click into place. This ensures stability and prevents sections from shifting during use.

Converting to a Sleeper Bed:

This sofa features a convenient pull-out sleeper mechanism. To convert the sofa into a bed:

1. Locate the handles positioned on the front of the pull-out sections.
2. Gently pull the handles outwards. The integrated wheels will allow the sections to smoothly glide out from underneath the sofa frame.
3. Continue pulling until the sections are fully extended and level with the sofa seats, forming a continuous sleeping surface.
4. To revert to sofa mode, push the extended sections back into the sofa frame until they are fully retracted.

Handy USB Ports and Power Sockets

There are two USB ports and two power sockets on the side of the sofa, so you don't have to worry about running out of battery when playing with your phone on the sofa.

Using USB Ports and Power Sockets:

The sofa bed is equipped with two USB ports and two standard power sockets located on the side of the armrest. These allow you to conveniently charge your electronic devices while relaxing on the sofa.

- Plug your device's USB cable into one of the USB ports.
- For AC-powered devices, plug them into the standard power sockets.
- Ensure the sofa is connected to a power source for these features to function.

MAINTENANCE AND CARE

Proper care will extend the life and appearance of your Polibi sofa bed.

Fabric Care (Corded Velveteen):

- **Regular Cleaning:** Vacuum regularly using an upholstery attachment to remove dust and loose debris.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. Do not rub, as this can spread the stain. For stubborn stains, use a mild, water-free solvent or dry-cleaning product. Test on an inconspicuous area first.
- **Pillow Covers:** The pillow covers feature zip-off designs and can be removed for easier cleaning. Follow the care label instructions on the covers.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fading. Position your sofa away from direct sun exposure or use curtains/blinds.

- Keep the pull-out mechanism free of obstructions. If the wheels or sliding parts become stiff, clean them and apply a silicone-based lubricant if needed.
