## UPBRIGHT WONNIE W-103 12V Power Supply

# UpBright 12V AC/DC Adapter Instruction Manual

Model: WONNIE W-103 12V Power Supply

## INTRODUCTION

---

This manual provides detailed instructions for the safe and effective use of your UpBright 12V AC/DC Adapter. This power supply is designed to provide reliable power to compatible WONNIE Portable DVD Players and other specified devices. Please read this manual thoroughly before use and retain it for future reference.

## PRODUCT OVERVIEW

---

The UpBright 12V AC/DC Adapter is a switching power supply designed for global compatibility, featuring a wide input voltage range and multiple safety protections.

Image: Front view of the UpBright 12V AC/DC Adapter, showing the two-prong wall plug, the adapter body with branding and safety certifications, and the attached power cord ending in a yellow-tipped barrel connector.

### Key Features:

- **Universal Input Voltage:** Supports 100-240VAC, 50/60Hz, allowing for worldwide use with appropriate plug adapters.
- **Safety Protections:** Equipped with Over Voltage Protection (OVP), Over Current Protection (OCP), and Short Circuit Protection (SCP) to ensure safe operation and protect your devices.
- **Reliable Performance:** Each unit is tested to ensure great working condition and consistent power delivery.
- **Barrel Round Plug Tip:** Features a standard barrel connector for broad compatibility with various portable electronic devices.

### COMPATIBILITY

This UpBright 12V AC/DC Adapter is specifically designed to be compatible with a wide range of WONNIE Portable DVD Players

and other devices requiring a 12V DC power supply with a barrel round plug tip. Verify your device's power requirements before connecting.

### Compatible WONNIE Models Include:

- WONNIE W-103, W103
- WONNIE W-1068, W1068 (12.5" Portable DVD Player)
- WONNIE W-BR141, WBR141 (16.9" Portable Blu-Ray DVD Player)
- WONNIE W-1468, W1468 (16.5" Portable DVD Player)
- WONNIE US1011B (10.5" Dual Screen Portable Twins CD DVD Player)
- WONNIE US1012F (10.5" Car Dual Portable DVD Player)
- WONNIE W-3015, W3015 (10" Dual Screen Portable DVD Player)
- WONNIE W-2058, W2058 (10.5" Dual Portable DVD Player)
- WONNIE W-912E, W912E (10.1" Dual Car DVD Player Portable Headrest Video Player)
- WONNIE W-VN1020, WVN1020 (Dual Screen Headrest Video DVD Player)

## SETUP

---

Follow these steps to properly set up your AC/DC adapter with your device.

1. **Verify Compatibility:** Before connecting, ensure your device requires a 12V DC input and has a compatible barrel round plug tip. Check your device's manual or power input specifications.
2. **Connect to Device:** Insert the barrel plug tip of the UpBright adapter's cable firmly into the DC input port of your WONNIE Portable DVD Player or other compatible device.
3. **Connect to Power Outlet:** Plug the two-pin AC plug of the adapter into a standard wall power outlet (100-240VAC, 50/60Hz). Ensure the outlet is easily accessible.
4. **Power On Device:** Once connected, you can power on your device. The adapter will automatically convert the AC wall power to the required 12V DC for your device.

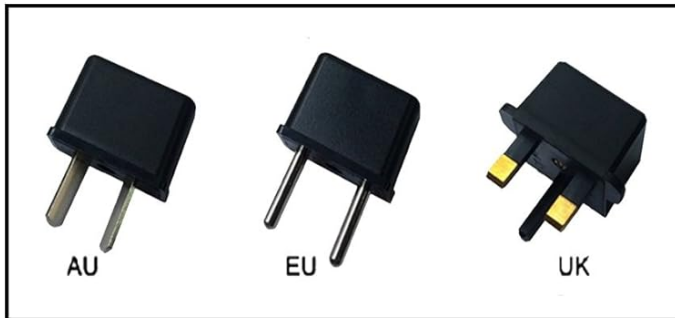

Image: Side view of the UpBright 12V AC/DC Adapter, showing the compact design of the adapter body and the neatly coiled power cord.

### **International Use:**

The adapter supports a wide input voltage range (100-240VAC), making it suitable for international travel. Depending on your region, you may need a physical plug adapter (not included with the power supply itself) to fit the local wall outlet type (e.g., AU, EU, UK). Ensure you use the correct physical adapter for your country.

# Come With A Suitable Outlet Adapter (Only One) to Fit Your Country/Area For International Order

THIS PRODUCT COMES WITH A UPBRIGHT®

LIMITED WARRANTY CERTIFICATE  
+ UPBRIGHT® LIMITED WARRANTY

## OPERATING

Once connected, the adapter operates automatically. It provides a stable 12V DC output to your device. No user intervention is required for its operation beyond initial connection.

- Ensure the adapter is placed in a well-ventilated area to prevent overheating.
- Do not cover the adapter during operation.
- Disconnect the adapter from the power outlet when not in use for extended periods.

## MAINTENANCE

Proper maintenance ensures the longevity and safe operation of your adapter.

- **Cleaning:** Disconnect the adapter from both the power outlet and your device before cleaning. Use a soft, dry cloth to wipe the surface. Do not use liquid cleaners or aerosols.
- **Storage:** Store the adapter in a cool, dry place away from direct sunlight and extreme temperatures when not in use. Avoid tightly coiling the cable to prevent damage.
- **Inspection:** Periodically inspect the adapter and its cable for any signs of damage, such as cuts, fraying, or bent pins. If damage is observed, discontinue use immediately.

## TROUBLESHOOTING

If you encounter issues with your UpBright AC/DC Adapter, refer to the following common troubleshooting steps.

| Problem | Possible Cause | Solution |
|---------|----------------|----------|
|---------|----------------|----------|

| Problem                       | Possible Cause                                                                   | Solution                                                                                                                                                                                                                                                                          |
|-------------------------------|----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Device not powering on.       | Adapter not properly connected; Power outlet issue; Device issue; Adapter fault. | Ensure the adapter is fully plugged into both the device and the wall outlet. Test the wall outlet with another device. Verify your device is functioning correctly with its original power supply (if available). If the adapter is suspected to be faulty, discontinue use.     |
| Adapter feels hot.            | Normal operation under load; Poor ventilation; Overload.                         | A slight warmth is normal. Ensure the adapter is in a well-ventilated area and not covered. If it feels excessively hot or emits a burning smell, immediately disconnect it and discontinue use. Ensure the connected device does not exceed the adapter's output specifications. |
| Intermittent power to device. | Loose connection; Damaged cable/connector.                                       | Check all connections for tightness. Inspect the cable and barrel connector for any visible damage. If damage is found, discontinue use.                                                                                                                                          |

If the problem persists after trying these steps, please contact UpBright customer support.
