WUPRO LeApex 92-inch Black Crystal Electric Retractable Projector Screen (Model B0CPSNB83S)

WUPRO LeApex Electric Retractable Projector Screen

92-inch Black Crystal Model Instruction Manual

1. INTRODUCTION

Thank you for choosing the WUPRO LeApex Electric Retractable Projector Screen. This manual provides essential information for the proper setup, operation, and maintenance of your 92-inch Black Crystal screen. Please read this manual thoroughly before installation and use to ensure optimal performance and longevity of your product.

Figure 1.1: WUPRO LeApex 92-inch Black Crystal Electric Retractable Projector Screen.

2. PRODUCT OVERVIEW

2.1. Components

The package includes the following main components:

- WUPRO LeApex Electric Retractable Projector Screen Unit
- Remote Control
- USB Trigger
- Power Cable
- Instruction Manual

2.2. Key Features

- **Black Crystal Material:** Features a contrast gain of 1.5, enhancing detail, color richness, and image depth for Full HD 4K/8K content.
- **Ambient Light Rejection (ALR):** Environmentally resistant (ceiling) $\geq 70\%$, effectively blocking light from above to provide high-quality images in normal light conditions.
- **Automatic Leveling System:** Ensures the screen descends approximately 5 cm when reaching its maximum height, which is normal behavior.
- **Flexible Tensioning System:** Features an elastic support rod that lifts smoothly, ensuring a naturally taut and wrinkle-free surface for consistent image quality.
- **Versatile Installation:** Compatible with floor, wall, cabinet, or recessed mounting options, offering flexibility for various room setups.
- **Wide Viewing Angle:** Provides a 160° large viewing angle, allowing for flexible placement and comfortable

viewing from various positions in the room.

Figure 2.1: Screen tensioning mechanism ensuring a flat surface.

Figure 2.2: Ambient Light Rejection (ALR) feature.

Figure 2.3: 160° Large Viewing Angle.

2.3. Projector Compatibility

This screen is designed for use with normal projectors and telephoto lenses. It is ideal for both natural light and dark environments. **Note:** This ultra-short-throw black crystal projection screen cannot be used with ultra-short-throw projectors.

Figure 2.4: Projector compatibility overview.

3. SETUP AND INSTALLATION

Before installation, carefully measure the dimensions of your room, including lifts and corridors, to ensure the selected screen size fits your space. The screen offers versatile installation options.

3.1. Placement Options

The WUPRO LeApex screen can be installed in various ways:

- **Floor Standing:** Place the unit directly on the floor.
- **Wall Mounted:** Securely attach the unit to a wall using appropriate hardware (not included).
- **Cabinet or Recessed Mounting:** Integrate the unit into custom furniture or recessed spaces for a seamless look.

3.2. Initial Power Connection

Connect the power cable to the screen unit's power interface and then to a suitable power outlet. Ensure the power source matches the screen's voltage requirements.

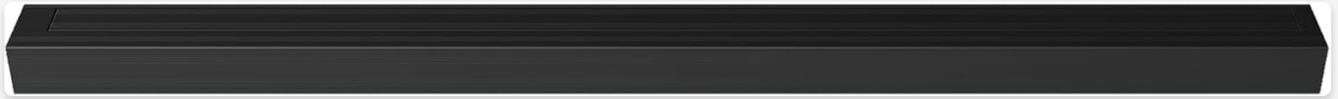

Figure 3.1: Side view of the screen base with power interface.

3.3. Installation and Operation Video

For a visual guide on the screen's components, installation, and operation, please refer to the official product video below:

Video 3.1: Official WUPRO Floor Rising Screen overview, demonstrating internal mechanisms, control panel, and screen deployment.

4. OPERATING INSTRUCTIONS

Your WUPRO projector screen offers multiple control methods for convenience.

4.1. Control Panel

The screen unit features an integrated control panel with buttons for basic operations:

- **Lift-Up Button:** Raises the screen.
- **Drop-Down Button:** Lowers the screen.
- **Pause Button:** Stops the screen at any desired position.
- **Switch Button:** Toggles power or mode.

VARIOUS MATERIALS AND VARIOUS EXPERIENCES

Different materials will have different visual experience, if you need special materials, please contact customer service

4.3. USB Trigger Synchronization

The complimentary USB trigger allows for smart control synchronized with your projector. When the projector is turned on, the screen can automatically deploy, and retract when the projector is turned off, providing a seamless home cinema experience.

NOT AFRAID OF COMPARISON

Smoother by excellent workmanship

4.4. Voice Functions

The screen supports voice control functions for added convenience, allowing you to operate the screen using voice commands (e.g., "OK, opening the Wupro Cinema Screen.").

Figure 4.5: Voice control feature.

5. CARE AND MAINTENANCE

5.1. Cleaning the Screen Surface

To clean the screen surface, gently wipe it with a soft, damp cloth. Avoid using harsh chemicals, abrasive cleaners, or excessive force, as this may damage the screen material.

5.2. Handling Creases

Note: Some screens may develop creases during use. This is normal and usually reduces gradually over time. In some cases, minor creases may not disappear completely. This does not typically affect the screen's performance or image quality.

6. TROUBLESHOOTING

If you encounter any issues with your WUPRO projector screen, please refer to the following common troubleshooting tips:

- **Screen not responding:** Ensure the power cable is securely connected and the power outlet is functional. Check the remote control batteries.
- **Screen not retracting/deploying fully:** The automatic leveling system may cause a slight over-extension (approx. 5 cm) when fully deployed; this is normal. If the screen stops unexpectedly, check for obstructions.
- **Image quality issues:** Ensure your projector is compatible with this screen type (not for ultra-short-throw projectors). Adjust projector settings for optimal focus and alignment.

For further assistance, please contact WUPRO customer support.

7. TECHNICAL SPECIFICATIONS

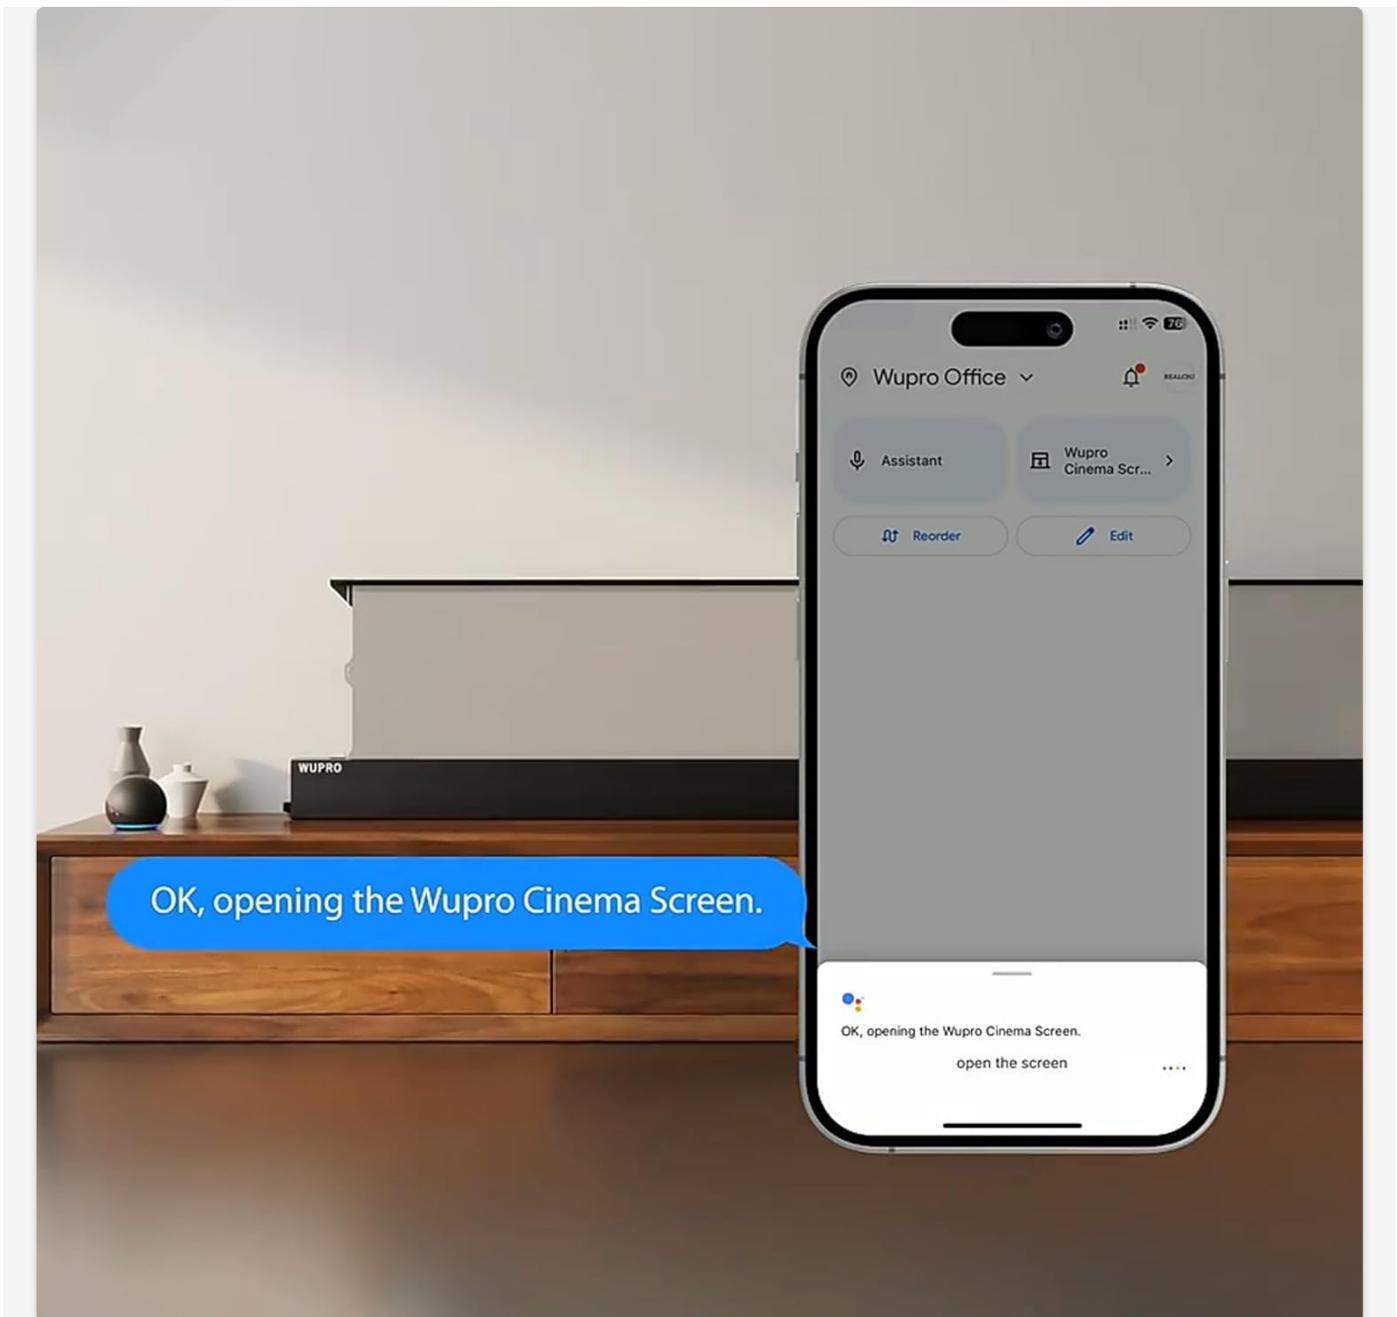

Figure 7.1: Dimensions and Weight Specifications.

Feature	Specification
Brand	WUPRO
Model	LeApex 92-inch Black Crystal Electric Retractable Projector Screen
ASIN	B0CPSNB83S
Screen Material	Black Crystal (MAT-PVC)
Gain	1.5
Thickness	0.32mm
Viewing Angle	160°
