Lamshaw M1

Lamshaw Screen Protector Instruction Manual for AGPTEK M1/M1PL MP3 Player

1. PRODUCT OVERVIEW

This manual provides detailed instructions for the installation and care of your Lamshaw PET Soft Screen Protector, designed specifically for the AGPTEK M1 and M1PL 2.8-inch MP3 Players. This screen protector offers full coverage and is engineered to protect your device's screen from scratches and impacts while maintaining touch sensitivity.

3. KEY FEATURES

- **Soft Protector:** Specifically designed for AGPTEK M1 and M1PL 2.8-inch MP3 Players, ensuring a precise fit.
- **Bubble Self-Healing:** Minor scratches and small bubbles can self-heal within 24 hours.
- **Anti-Shatter & Anti-Scratch:** Provides robust protection against daily wear and accidental damage.
- **High Transparency & High Sensitivity:** Maintains original screen clarity and touch responsiveness.

Natural Screen Touch

Ultra-thin design preserves 100% touch sensitivity

Image 3: Demonstrates the screen protector's ability to preserve natural touch sensitivity, showing a finger interacting with the device's display.

Automatic Repair

The self-healing technology constantly eliminates minor scratches and bubbles within 24hrs.

Image 4: Shows two MP3 players, one with a pristine screen and another with minor imperfections, to illustrate the self-healing capability of the screen protector over time.

4. INSTALLATION GUIDE

4.1. Preparation

- Ensure your MP3 player is powered off.
- Work in a clean, dust-free environment to prevent particles from getting trapped under the protector.
- Gather all tools: screen protector, alcohol wipes (wet and dry), microfiber cloth, and squeegee.

4.2. Step-by-Step Installation

1. **Clean the Screen:** Use the 'Wet 1' alcohol wipe to thoroughly clean the MP3 player's screen. Follow with the 'Dry 2' wipe to remove any moisture. Finally, use the microfiber cloth to polish the screen and remove any remaining dust or smudges.
2. **Peel Off Back Layer:** The screen protector has three layers. Carefully peel off the protective film labeled 'Back 1' (often red). Avoid touching the adhesive side of the screen protector.
3. **Align and Apply:** Align the screen protector precisely with the edges of your MP3 player's screen. Once

aligned, gently lay it down onto the screen.

4. **Remove Bubbles:** Use the provided squeegee to gently push out any air bubbles from the center towards the edges of the screen. Apply steady, even pressure.
5. **Peel Off Front Layer:** Once the protector is smoothly applied and bubbles are removed, carefully peel off the top protective film labeled 'Front 2' (often black).
6. **Final Polish:** Use the microfiber cloth to gently wipe the newly installed screen protector.

For a visual demonstration of the installation process, please refer to the video below. While the video may feature a different device, the general screen protector application method is similar.

Your browser does not support the video tag.

Video 1: This video demonstrates a general method for applying a screen protector, which can be adapted for your AGPTEK M1/M1PL MP3 Player. It covers cleaning, alignment, and bubble removal techniques.

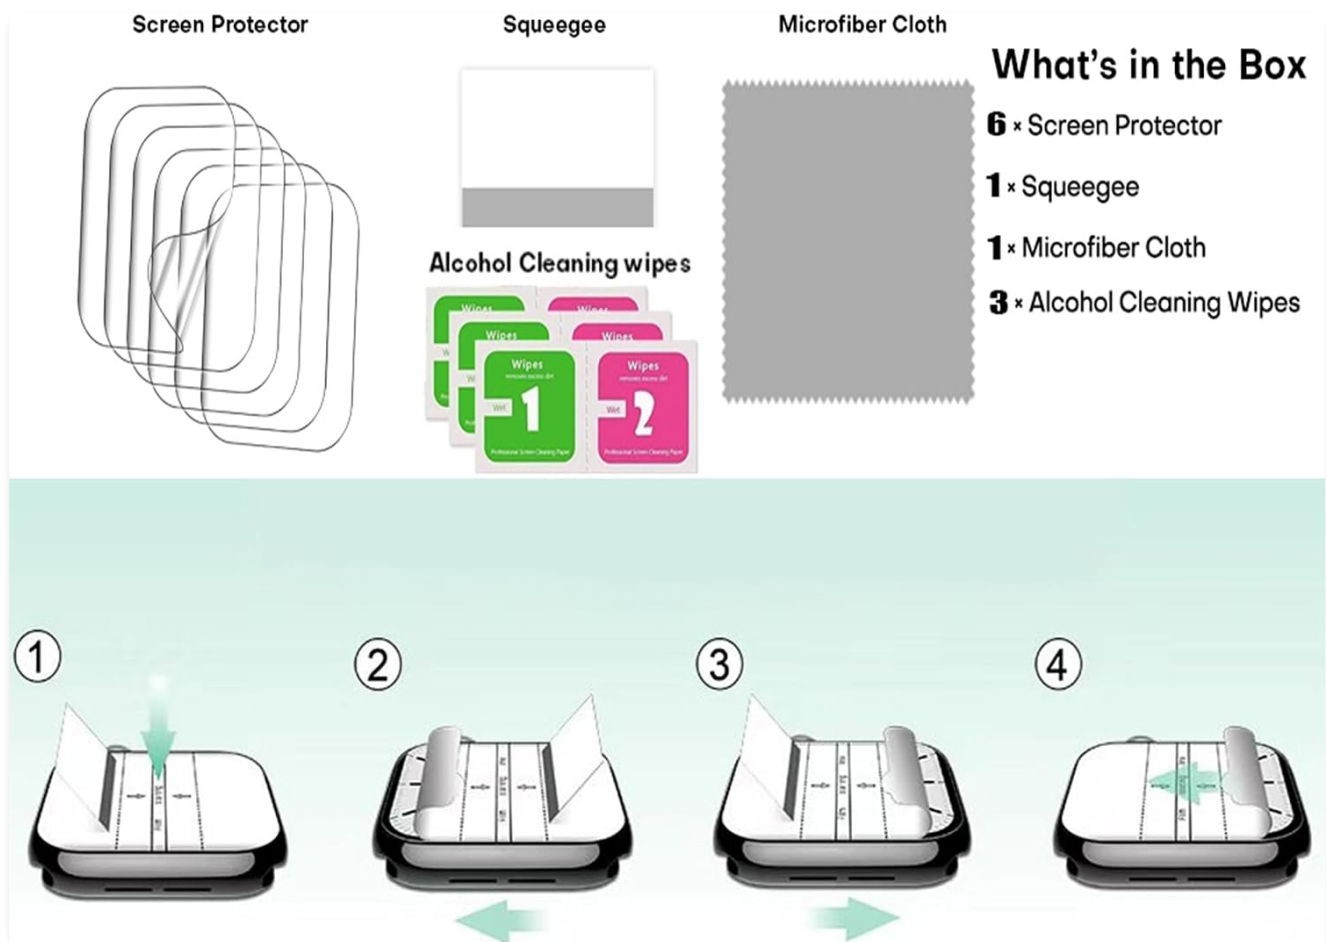

Image 5: A four-step diagram illustrating the process of applying the screen protector, from initial placement to final smoothing.

5. TROUBLESHOOTING

5.1. Air Bubbles

- **Small Bubbles:** Many small bubbles will disappear naturally within 24-48 hours due to the self-healing properties of the film.
- **Large Bubbles:** If large bubbles persist, gently lift the nearest edge of the screen protector and re-apply, using the squeegee to push the air out as you lay it back down. Ensure the screen is free of dust before re-application.

5.2. Protector Not Sticking Properly

- Ensure you have peeled off the correct 'Back 1' layer first. The middle layer is the adhesive layer. If you accidentally peeled off 'Front 2' first, the adhesive side might not be exposed correctly.
- If the middle layer seems to have detached with 'Front 2', carefully wrinkle the 'Back 1' layer to separate it, re-attach the middle layer to 'Front 1', and then proceed with installation.

6. SPECIFICATIONS

Attribute	Detail
Brand	Lamshaw
Compatible Devices	AGPTEK M1, AGPTEK M1PL 2.8-inch MP3 Player
Material	PET Soft Film (Silicone)
Item Hardness	6H
Special Feature	Anti-Shatter, Anti-Scratch, Bubble Self-Healing
