TAEMVV K12

TAEMVV K12 Mini Karaoke Machine Instruction Manual

Model: K12

1. PRODUCT OVERVIEW

The TAEMVV K12 Mini Karaoke Machine is a compact and portable entertainment system designed for both kids and adults. It features advanced audio technology with a digital signal processor for clear, three-dimensional, and balanced sound quality. Equipped with dual wireless microphones and colorful LED lights, it offers an immersive karaoke experience. Its Bluetooth 5.3 connectivity ensures seamless pairing with various smart devices, making it ideal for home parties, outdoor gatherings, or educational settings.

2. WHAT'S IN THE BOX

- Bluetooth speaker * 1
- Wireless microphone * 2
- USB charging cable * 1
- Instruction manual * 1

3. SETUP

3.1 Charging the Device

Before initial use, ensure both the karaoke speaker and the two wireless microphones are fully charged. Connect the provided USB charging cable to the respective charging ports on the speaker and microphones, then plug the other end into a compatible USB power adapter (not included). The speaker and microphones have built-in batteries for portable use, offering extended playtime once fully charged.

3.2 Power On/Off

- **Speaker:** Press and hold the power button located on the top panel of the speaker until the LED lights illuminate.
- **Microphones:** For each wireless microphone, press and hold the power button until a blue indicator light appears.
- To power off, repeat the same steps by pressing and holding the respective power buttons.

5.3 Bluetooth technology, connect and use immediately

Light-speed direct connection, enjoy HIFI high-fidelity sound quality, clear vocal particles

Image: A detailed view of the wireless microphone, highlighting its control buttons for power, volume adjustment, and voice effects.

3.3 Bluetooth Pairing

After powering on, the speaker will automatically enter Bluetooth pairing mode, indicated by a flashing light or voice prompt. On your mobile phone, tablet, PC, or TV, navigate to the Bluetooth settings and search for available devices. Select 'K12' from the list to establish a connection. A confirmation voice prompt will indicate successful pairing. The speaker is compatible with various devices, ensuring a wide range of connectivity options.

AI CHIP INTELLIGENTLY OPTIMIZES SOUND

Bass diaphragm metal core, listen to a large amount of music at will

4. OPERATING INSTRUCTIONS

4.1 Music Playback

Once your device is successfully paired via Bluetooth, you can stream music directly to the K12 speaker from any audio application. Alternatively, the speaker supports Micro TF card playback by inserting a card into the designated slot, or you can connect an external audio source using the AUX input.

4.2 Microphone Usage & Voice Effects

The K12 comes with two wireless microphones, allowing for duets. Adjust the microphone volume using the '+' and '-' buttons on each microphone. The speaker also has independent volume controls. Explore various fun voice effects (e.g., female, male, monster, baby, original) by pressing the dedicated voice effect button on the microphone. This feature enhances the entertainment value for all ages.

FUNNY MAGIC VOICES

4.4 True Wireless Stereo (TWS) Pairing

For a more expansive sound experience, two K12 speakers can be paired together to create a True Wireless Stereo (TWS) system. Power on both speakers; they will automatically attempt to connect with each other. Once successfully paired, connect your device to one of the speakers via Bluetooth. Both speakers will then play synchronized audio, providing a richer and more immersive soundstage.

For Outdoor Party

Amazing rainbow light show. and colorful spectrum lights that dance to the beat of the music. Create a party exciting atmosphere. With the cycle of LED lights, Deep Breath, Carousel, Fashion Party mode, You will be immersed in the exciting music.

5. MAINTENANCE

5.1 Cleaning

To maintain the appearance and functionality of your karaoke machine, regularly wipe the exterior surfaces with a soft, dry, lint-free cloth. Avoid using abrasive cleaners, solvents, or harsh chemicals, as these can damage the finish or internal components.

5.2 Storage

When not in use, store the karaoke machine and its accessories in a cool, dry place, away from direct sunlight, excessive heat, or humidity. Keeping the original packaging can provide additional protection during storage.

5.3 Battery Care

To maximize the lifespan of the built-in lithium-ion batteries, fully charge the speaker and microphones before long periods of storage. If storing for more than three months, it is recommended to recharge the devices every three months to prevent deep discharge and maintain battery health.

6. TROUBLESHOOTING

- **No Power:** Ensure the device is fully charged. Connect it to a power source and attempt to power on again.
- **No Sound from Speaker:** Check the volume levels on both the speaker and your connected Bluetooth device. Verify that the Bluetooth connection is active and stable. If using a Micro TF card or AUX input, ensure the media source is playing correctly and the cable is securely connected.
- **Microphone Not Working:** Confirm that the microphone is powered on and has sufficient battery charge. If the issue persists, try re-pairing the microphone with the speaker by powering both off and then on again.

- **Bluetooth Disconnection:** Ensure your connected device is within the effective Bluetooth range (typically up to 10 meters) and there are no significant obstructions. Try disconnecting and then re-pairing the device.
