SAFETY INFORMATION

Please observe the following safety guidelines to ensure safe use of your bed frame:

- This product has a maximum weight capacity of 800 lbs. Do not exceed this weight limit. Exceeding the capacity may lead to structural failure, injury, or damage to the product.
- Ensure all components are securely fastened during assembly. Periodically check and tighten all bolts and screws.
- Do not allow children to climb or play on the bed frame.
- Use the bed frame on a flat, level surface to prevent instability.
- Keep small parts away from children during assembly to prevent choking hazards.

SETUP AND ASSEMBLY

Assembly of the Aiho Queen Size Bed Frame is designed to be straightforward. All parts are labeled and numbered for easy identification. An installation manual in PDF format is also available for detailed visual instructions: [Download PDF Manual](#).

1. **Unpack and Identify Parts:** Carefully remove all components from the packaging. Lay them out on a clean, soft surface to prevent scratches. Refer to the parts list in the included manual to identify each piece.
2. **Assemble the Headboard:** Attach any necessary support components to the upholstered headboard as indicated in the detailed manual.
3. **Connect Side Rails:** Securely attach the side rails to the headboard and footboard (if applicable) using the provided hardware. Ensure all connections are tight.
4. **Install Center Support:** Position and secure the center support beam and any associated legs to the frame. This provides crucial stability.
5. **Place Wooden Slats:** Lay the solid wooden slats across the frame. The slats are equipped with Velcro for easier placement and to prevent shifting. Ensure they are evenly spaced and secured.
6. **Final Check:** Double-check all bolts and connections to ensure they are fully tightened before placing a mattress on the frame.

USAGE

This bed frame is designed for optimal comfort and functionality.

- **Mattress Compatibility:** The bed frame is designed to accommodate mattresses with a thickness between 8 and 14 inches. A box spring is not required, as the solid wooden slats provide sufficient support.
- **Noise-Free Design:** Equipped with Velcro and silent bars, the bed frame minimizes noise, contributing to a peaceful sleeping environment.
- **Under-Bed Storage:** The frame offers approximately 7.9 inches of clearance underneath, providing convenient space for storing items in bins or containers, helping to keep your bedroom organized.

MAINTENANCE

Proper maintenance will extend the life and appearance of your bed frame.

- **Cleaning the Upholstery:** For general cleaning, gently vacuum the upholstered headboard and frame with a soft brush attachment. For spills, blot immediately with a clean, dry cloth. For stubborn stains, use a mild fabric cleaner following the product's instructions, testing on an inconspicuous area first.
- **Frame Care:** Wipe the metal and wooden components with a damp cloth and mild detergent if necessary. Dry thoroughly. Avoid harsh chemicals or abrasive cleaners.
- **Hardware Check:** Periodically (e.g., every 3-6 months) inspect all bolts, screws, and connections. Tighten any that have become loose to maintain stability and prevent squeaking.

TROUBLESHOOTING

If you encounter any issues with your bed frame, refer to the following common solutions:

Problem	Possible Cause	Solution
Bed frame is squeaking or noisy.	Loose hardware, uneven floor, slats shifting.	Tighten all bolts and screws. Ensure the bed is on a level surface. Check that slats are properly seated and Velcro is engaged.
Bed frame feels unstable or wobbly.	Loose connections, missing support legs, incorrect assembly.	Verify all connections are tight. Ensure all support legs are installed and making firm contact with the floor. Review assembly steps.
Mattress sags or is not adequately supported.	Slats are not properly spaced or secured, mattress too thin.	Ensure all wooden slats are correctly positioned and secured by the Velcro. Verify mattress thickness is within the recommended 8-14 inch range.
Missing parts upon unboxing.	Packaging error.	Contact Aiho customer support immediately with your purchase details.
