## KingSom HK608L

# KingSom Floating Pool Speaker Instruction Manual

Model: HK608L | Brand: KingSom

Your ultimate companion for music and light by the water.

## 1. PRODUCT OVERVIEW

The KingSom Floating Pool Speaker (Model: HK608L) is designed to provide high-quality audio and dynamic lighting effects for your pool, hot tub, or any water-related activity. Featuring IP68 waterproof technology, TWS pairing for stereo sound, and versatile light modes, it enhances your entertainment experience.

## 2. SETUP AND INITIAL USE

### 2.1 What's in the Box

- 1 x KingSom Floating Pool Speaker (Model: HK608L)
- 1 x Charging Cable (USB)
- 1 x User Manual (this document)

### 2.2 Charging the Speaker

Before first use, fully charge the speaker. Connect the provided USB charging cable to the charging port on the speaker and to a standard USB power adapter (not included). The charging indicator light will show charging status (specific light behavior not provided, refer to product for details). A full charge provides almost a whole day of music

playtime thanks to its 4000mAh battery.

Figure 2: The speaker's 4000mAh battery ensures extended playtime.

### 2.3 Bluetooth Pairing

1. Power On: Press and hold the power button on the speaker until you hear an audible prompt or see an indicator light.
2. Pairing Mode: The speaker will automatically enter Bluetooth pairing mode. The Bluetooth indicator light will flash (specific light behavior not provided, refer to product for details).
3. Connect Device: On your smartphone, tablet, or other Bluetooth-enabled device, search for "KingSom HK608L" (or similar name) in the Bluetooth settings and select it to connect.
4. Confirmation: Once successfully paired, you will hear a confirmation tone, and the Bluetooth indicator light will become solid.

### 2.4 TWS (True Wireless Stereo) Pairing

For an immersive stereo sound experience, you can pair two KingSom Floating Pool Speakers together.

1. Ensure both speakers are powered on and not connected to any other Bluetooth device.
2. On one speaker (this will be the primary speaker), press and hold the TWS pairing button (refer to product for exact button).
3. The speakers will automatically search for and connect to each other. You will hear a confirmation tone once TWS pairing is successful.
4. Connect your device to the primary speaker via Bluetooth as described in section 2.3. Music will now play through both speakers in stereo.

## 3. OPERATING THE SPEAKER

### 3.1 Basic Controls

Button/Feature	Function
Power Button	Press and hold to Power ON/OFF. Short press to Play/Pause music.
Volume Up (+) / Next Track	Short press for Volume Up. Long press for Next Track.
Volume Down (-) / Previous Track	Short press for Volume Down. Long press for Previous Track.
Light Mode Button	Cycles through various light modes (Flame, RGB, Music Sync).

Button/Feature	Function
Call Button (Built-in Mic)	Short press to Answer/End calls. Long press to Reject calls.

### 3.2 Light Modes

The speaker features both an LED flame light on top and RGB lights on the bottom, offering a variety of visual effects.

- **Flame Light Modes:** Press the Light Mode button to cycle through:
  - *Flame Flicker:* Simulates a realistic flickering flame.
  - *Flame Flash:* A faster, more dynamic flame effect.
  - *Flame Bright:* A steady, bright flame illumination.
- **RGB Light Modes:** The bottom RGB lights offer pulsing colorful light shows that can sync with music. Press the Light Mode button to activate and cycle through different patterns and colors.

## 4. MAINTENANCE AND CARE

### 4.1 IP68 Waterproof Design

The KingSom Floating Pool Speaker boasts an IP68 waterproof rating, making it suitable for use in pools, hot tubs, and other wet environments. When water enters the speaker, its advanced technology causes vibrations that automatically "pop out" the water, ensuring sound quality is not interfered with while in use.

# IP68 WATERPROOF Pool Speaker

The sound will never be interfered while in the water

Figure 6: The speaker's IP68 waterproof design allows it to float and function perfectly in water, with water automatically expelling from the speaker grilles.

## 4.2 Cleaning and Storage

- After use in chlorinated or saltwater, rinse the speaker with fresh water to prevent residue buildup.
- Wipe the speaker dry with a soft cloth before storing.
- Store the speaker in a cool, dry place away from direct sunlight and extreme temperatures.

## 5. TROUBLESHOOTING

### 5.1 Common Issues and Solutions

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Speaker does not power on.	Low battery.	Charge the speaker fully.
Cannot pair via Bluetooth.	Speaker is already paired or device Bluetooth is off.	Ensure speaker is in pairing mode. Turn off and on Bluetooth on your device. Forget previous pairings.
Poor sound quality when wet.	Water inside speaker grilles.	Shake the speaker gently to expel water. Sound quality should return to normal once water is cleared.
Lights not working.	Lights turned off or low battery.	Press the Light Mode button to activate. Ensure speaker is charged.
TWS pairing fails.	Speakers too far apart or already connected to other devices.	Ensure speakers are close to each other and not connected to other devices. Repeat TWS pairing steps.
