## **Pocket Hose 17424**

# **Pocket Hose Silver Bullet 2.0 Expandable Garden Hose**

Model: 17424 | Length: 25 FT

## **1. INTRODUCTION AND PRODUCT OVERVIEW**

---

Thank you for choosing the Pocket Hose Silver Bullet 2.0. This innovative expandable garden hose is designed for ease of use, lightweight handling, and efficient watering. Its unique design allows it to expand to full size when water is turned on and shrink back for compact storage when water is turned off. This manual provides essential information for the proper setup, operation, and maintenance of your new garden hose.

*Image: The Pocket Hose Silver Bullet 2.0 in its compact, coiled state, with the included Turbo Shot Nozzle.*

### **Key Features:**

- **Expandable Design:** Expands to full size (25 FT) with water pressure and contracts for easy storage.
- **Lightweight & Compact:** Easy to maneuver and store, significantly lighter than traditional hoses.
- **Durable Construction:** Features 3 layers of High-Strength Latex interior and a seamless outer shell to

prevent bursts, leaks, and kinks.

- **Lead-Free Connectors:** Solid aluminum connectors are lead-free and safe for drinking water.
- **Easy On/Off Valve:** Convenient valve for controlling water flow directly at the hose end.
- **Turbo Shot Nozzle:** Includes a bonus nozzle with three adjustable spray settings (pinpoint, fine mist, full-power stream).

## 2. SAFETY INFORMATION

---

Please read and understand all safety warnings and instructions before using your Pocket Hose Silver Bullet 2.0. Failure to follow these instructions may result in product damage or personal injury.

### Important Warnings:

- This product is for outdoor use only.
- Hose expansion length will vary depending on household water pressure.
- For the hose to fully expand, do not turn the shut-off valve to the "on" position until after turning the water spigot on and allowing water to flow through the hose.
- Do not drink water from the hose unless it is explicitly stated as drinking water safe. This hose features lead-free connectors, making it safe for drinking water.
- Avoid stretching the hose when empty. It can snap back and cause injury.
- Always turn off water from the spigot and drain the hose after each use.
- Do not use in commercial, hot water, or high-pressure applications.
- Always supervise children and pets near the hose.
- Do not leave the hose unattended under pressure.
- Store indoors and away from extreme weather and direct sunlight when not in use to prolong product life.

### Drinking Water Advisory:

The Pocket Hose Silver Bullet 2.0 is designed with lead-free aluminum connectors, making it safe for drinking water. For optimal safety, it is always recommended to flush any garden hose before drinking from it, especially after periods of non-use.

## 3. COMPONENTS AND PARTS LIST

---

Your Pocket Hose Silver Bullet 2.0 package includes the following components:

# What makes Pocket Hose #1?

- 1 Strong Polypropylene, Anti-Burst Outer Sleeve
- 2 3 Thick Layers of Latex Tubing
- 3 Easy On/Off Valve
- 4 Extra-Strength Connector Protectors
- 5 + FREE Turbo Shot Nozzle

*Image: Exploded view diagram illustrating the key components of the Pocket Hose Silver Bullet 2.0, including the outer sleeve, latex tubing, on/off valve, connector protectors, and Turbo Shot Nozzle.*

- **Pocket Hose Silver Bullet 2.0 Expandable Garden Hose:** The main hose unit, 25 feet in length when expanded.
- **Turbo Shot Nozzle:** A multi-setting spray nozzle for various watering tasks.
- **Solid Aluminum Connectors:** Pre-attached to both ends of the hose for secure connections.
- **Easy On/Off Valve:** Integrated into one end of the hose for convenient water control.
- **Connector Protectors:** Help relieve stress and strain at the hose ends.

## 4. SETUP INSTRUCTIONS

Follow these steps to set up your Pocket Hose Silver Bullet 2.0 for the first time:

1. **Unpacking:** Carefully remove your Pocket Hose Silver Bullet 2.0 from its packaging. Uncoil the hose completely.
2. **Connection to Faucet:** Attach the Pocket Hose connector to your home's outdoor water spigot. Turn clockwise until securely attached. Ensure a tight seal to prevent leaks.

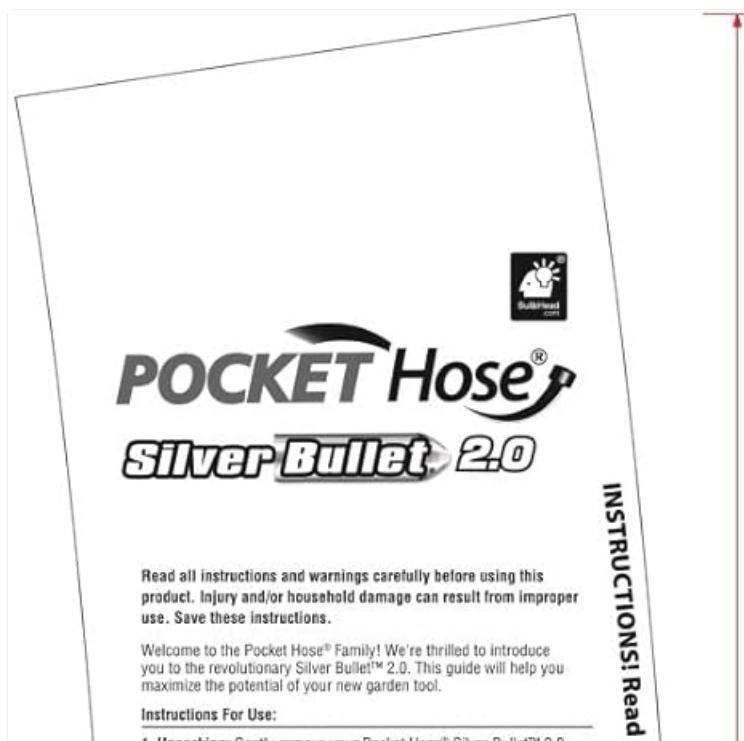

# Lead-Free Aluminum Connectors

Pocket Hose Silver Bullet is fitted with premium aluminum connectors that easily fit to any standard outdoor faucet

*Image: Detail of the lead-free aluminum connectors, designed for secure and leak-proof attachment to a standard outdoor faucet.*

3. **Prepare for Expansion:** Ensure the hose is fully extended before turning on the water to prevent any water flow restrictions. Make sure the shut-off valve on the hose is in the **CLOSED** position.

1. **Unpacking:** Gently remove your Pocket Hose® Silver Bullet 2.0 from the package and lay it flat to unravel.
2. **Connection:** Attach the Pocket Hose® connector to your home's outdoor water supply by turning it clockwise until securely attached. **Fig 1.**
3. **Operation:**
  - Make sure the Shutoff Valve is in the **CLOSED** position. **Fig 2.**
  - Turn on your home's water tap.
  - Watch as the Pocket Hose® expands to its full size.
  - To start the water flow, gently turn the Shutoff Valve a quarter turn counter-clockwise. **Fig 3.**

For optimal performance, make sure the hose is fully extended before using it to prevent any water flow restrictions.

**Storage:**

After use, turn off the water supply and drain the hose by leaving the nozzle in the **ON** position. The hose will shrink back to its original size.

Always store your Pocket Hose® indoors to extend its lifespan.

**Important Safety Information:**

**⚠️ WARNING**

- This product is for outdoor use only.
- Hose expansion length will vary depending on household water pressure. For the hose to fully expand, do not turn the shut-off valve to the "on" position until after turning the water spigot on and allowing water to flow through the hose.
- Do not use indoors.
- Avoid stretching the hose when empty. It can snap back and cause injury.
- Keep the hose away from children and pets to prevent strangulation hazards.
- Do not use in commercial, hot water, or high-pressure applications.
- Always supervise the product when in use.
- Directing high-pressure spray at people, pets, or fragile objects is dangerous.
- Store indoors and away from extreme weather and sunlight.

**Drinking Water Advisory :**

Pocket Hose® hose is lead-free and designed with drinking water safety in mind. For safety, it's best to avoid drinking from any garden hose, including ours. Flush the hose by letting water run to clear stagnant water before use. Regular cleaning of the hose, especially connectors, is recommended. Store in cool, shaded areas and inspect regularly for damage. The hose is intended for gardening and agricultural-related tasks.

**LIMITATION OF LIABILITY**

Liability limited to the purchase price of this product. Telebrands Corp. shall not be liable for any incidental or consequential damages or any implied warranty on this product. Some states do not allow the exclusion or limitation of incidental or consequential damages so the above limitation or exclusion may not apply to you.

*Image: Diagram illustrating the 'CLOSED' and 'ON' positions of the hose's shut-off valve.*

4. **Attach Nozzle (Optional):** If desired, attach the Turbo Shot Nozzle or another watering accessory to the open end of the hose.

## 5. OPERATING INSTRUCTIONS

Operating your Pocket Hose Silver Bullet 2.0 is simple and efficient:

1. **Turn on Water:** With the hose's shut-off valve in the **CLOSED** position, slowly turn on the water at your

spigot. The hose will begin to expand as it fills with water.

**+FREE Turbo Shot Nozzle!**

**25ft**

*Image: Visual comparison of the Pocket Hose Silver Bullet 2.0 in its compact state (left) and fully expanded state (right) after water is turned on.*

- 2. Allow Full Expansion:** Allow the hose to fully expand to its 25-foot length. This may take a few seconds.
- 3. Open Shut-Off Valve:** Once fully expanded, turn the shut-off valve on the hose to the **ON** position to begin water flow.
- 4. Using the Nozzle:** If using the Turbo Shot Nozzle, twist the nozzle head to select your desired spray pattern (pinpoint, fine mist, or full-power stream).
- 5. Turning Off:** When finished watering, first turn off the water at the spigot.
- 6. Drain and Contract:** Open the shut-off valve on the hose to drain any remaining water. As the water drains, the hose will automatically begin to shrink back to its original compact size.

## 6. MAINTENANCE

Proper maintenance will extend the life of your Pocket Hose Silver Bullet 2.0:

- Draining After Use:** Always turn off the water at the spigot and drain the hose completely after each use. This is crucial for the hose to contract properly and for long-term durability.

- **Storage:** Store the hose indoors, away from direct sunlight and extreme temperatures (both hot and freezing). Its compact size makes it easy to store in a garage, shed, or utility closet.
- **Cleaning:** If the hose becomes dirty, wipe it down with a damp cloth. Do not use harsh chemicals or abrasive cleaners.
- **Inspecting Connectors:** Periodically check the aluminum connectors for any signs of wear or damage. Ensure the rubber gasket inside the connector is intact to prevent leaks.
- **Winterization:** In colder climates, ensure the hose is completely drained and stored indoors before the first freeze to prevent damage from freezing water.

## 7. TROUBLESHOOTING

---

If you encounter any issues with your Pocket Hose Silver Bullet 2.0, refer to the following table for common problems and solutions:

Problem	Possible Cause	Solution
Hose not expanding fully.	Low water pressure; hose not fully uncoiled; shut-off valve open too soon.	Ensure adequate water pressure. Fully uncoil the hose before turning on water. Keep shut-off valve closed until hose is fully expanded.
Hose is leaking.	Loose connection; damaged gasket; hose puncture.	Tighten connections at spigot and nozzle. Check and replace rubber gaskets if damaged. Inspect hose for visible damage; if punctured, the hose may need replacement.
Hose is kinking.	Hose is twisted; internal damage.	Ensure the hose is not twisted during use. While designed to be kink-free, extreme twisting can temporarily restrict flow.
Low water pressure from nozzle.	Partially closed shut-off valve; nozzle clogged; low spigot pressure.	Ensure the hose's shut-off valve is fully open. Clean the nozzle if it appears clogged. Check your household water pressure.
Hose not contracting after use.	Water not fully drained from hose.	Ensure water is turned off at the spigot, then open the hose's shut-off valve to allow all water to drain out.

## 8. SPECIFICATIONS

---

Attribute	Detail
Brand	Pocket Hose
Model Number	17424
Material	Aluminum (Connectors), High-Strength Latex (Interior), Polypropylene (Outer Shell)
Color	Black
Expanded Length	25 Feet
Product Dimensions (Compact)	3" L x 0.75" W (approximate, coiled)

Attribute	Detail
Item Weight	1.54 pounds (0.7 Kilograms)
Included Components	Pocket Hose Silver Bullet 2.0, Turbo Shot Nozzle
Specific Uses	Outdoor watering, lawn care, RV cleaning, gardening
