Feit Electric TAPE192/CHASE/AG

Feit Electric Smart Light Strip Instruction Manual

Model: TAPE192/CHASE/AG

Brand: Feit Electric

INTRODUCTION

The Feit Electric Smart Color Chasing Strip Light (Model TAPE192/CHASE/AG) is designed to enhance your living space with versatile and vibrant illumination. This flexible LED strip, measuring 16 feet in length, offers millions of color options, tunable white light, and dynamic chasing effects. It can be controlled via the Feit Electric app, remote control, or voice commands through Alexa and Google Home Assistant, providing a seamless and customizable lighting experience for both indoor and outdoor environments.

WHAT'S INCLUDED

Verify that all components are present in your package:

- 1 x Feit Electric Smart Color Chasing Strip Light (16 feet)
- 1 x Remote Control
- 1 x Power Adapter
- 9 x Mounting Clips
- 18 x Screws
- 1 x Adhesive Strip

What's Included

SETUP

Physical Installation

The light strip is flexible and can be shaped to fit various spaces. It features an adhesive backing for easy mounting. For permanent installation, use the included mounting clips and screws. The strip can be cut at designated marks to achieve a custom length. Ensure the surface is clean and dry before applying the adhesive or mounting clips.

App Setup and Pairing

- Download the Feit Electric App:** Search for "Feit Electric" in your device's app store and download the official application.
- Register/Log In:** Open the app and follow the prompts to register for a new account or log in if you already have one.
- Prepare for Pairing:** Power on the light strip. Ensure the indicator light on the control box is blinking rapidly. This indicates it is in pairing mode. If not, refer to the troubleshooting section or the app's instructions for resetting the device.
- Add Device:** In the Feit Electric app, select the option to add a new device. The app will search for nearby devices.
- Connect to Wi-Fi:** Once the light strip is discovered, select it and enter your 2.4GHz Wi-Fi network credentials. The device operates on a 2.4GHz Wi-Fi network.
- Completion:** After a few moments, the device will be connected and added to your app. You can then control it from your smartphone.

Works with or without Wi-Fi

OPERATING INSTRUCTIONS

App Control

The Feit Electric app provides comprehensive control over your light strip:

- **Color Selection:** Choose from millions of colors or set the light to various shades of white.
- **Brightness Adjustment:** Easily dim or brighten the light to your desired level.
- **Dynamic Effects:** Program animated patterns and effects such as chasing, pulsing, flow, and fade.
- **Individual Zone Control:** Assign different colors to individual sections of the strip light for unique displays.
- **Preset Scenes:** Access over 70 pre-programmed scenes for various moods, weather, or holidays.
- **Custom Scenes:** Create and save your own custom lighting scenes for quick access.
- **Scheduling:** Set schedules to automatically turn the lights on/off at specific times.
- **Grouping:** Group multiple Feit Electric Smart devices together for synchronized control.
- **Device Sharing:** Share control of your light strip with family members or other users.

Voice Control

Works with Alexa or Hey Google
when connected through your Feit app

Remote Control

The included remote control provides convenient access to basic functions without needing the app:

- **On/Off:** Power the light strip on or off.
- **Brightness:** Adjust the light intensity.
- **Color Change:** Cycle through various colors.
- **Effects:** Select different lighting effects like flash, strobe, or fade.

MAINTENANCE

To ensure the longevity and optimal performance of your Feit Electric Smart Light Strip, follow these maintenance guidelines:

- **Cleaning:** Gently wipe the light strip with a soft, dry cloth. Avoid using abrasive cleaners, solvents, or harsh chemicals, as these can damage the strip.
- **Placement:** While the strip is damp-rated for outdoor use, avoid prolonged exposure to direct water

submersion or extreme weather conditions.

- **Handling:** Do not excessively bend or twist the light strip, especially at the LED points, to prevent internal damage.
- **Power Supply:** Ensure the power adapter is connected securely and is not exposed to moisture.

TROUBLESHOOTING

Issue	Possible Cause / Solution
Light strip does not turn on.	<ul style="list-style-type: none">◦ Ensure the power adapter is securely plugged into a working outlet and the light strip.◦ Check if the remote control batteries need replacement.◦ Verify the light strip is powered on via the app or remote.
