4. ASSEMBLY INSTRUCTIONS

Assembly typically takes approximately 30 minutes. It is recommended to have two people for assembly to ensure safety and ease.

- Step 1: Attach the Desk Legs to the Desktop.** Carefully place the desktop upside down on a soft, clean surface to prevent scratches. Align the desk legs with the pre-drilled holes on the underside of the desktop and secure them using the provided screws.
- Step 2: Install the Crossbar and Motor.** Attach the crossbar between the two leg frames. Connect the motor to the leg mechanisms and the control box. Ensure all connections are firm.
- Step 3: Mount the Control Panel and Accessories.** Secure the control panel to the underside of the desk in a convenient location. Attach the headphone hooks and cable management tray as desired.
- Step 4: Connect Power.** Plug the power adapter into the control box, then connect it to a power outlet.

5. **Step 5: Initializing the Desk.** Follow the instructions in the Operating section for initial setup and calibration.

5.2 Basic Height Adjustment

- Press the **Up Arrow (^)** button to raise the desk.
- Press the **Down Arrow (v)** button to lower the desk.
- Release the button when the desired height is reached. The LED display will show the current height.

5.3 Memory Presets

The desk allows you to save up to three preferred heights for quick access.

1. Adjust the desk to your desired height using the up/down arrows.
2. Press and hold one of the memory buttons (**1**, **2**, or **3**) until the LED display flashes or beeps, indicating the height has been saved.
3. To recall a saved height, simply press the corresponding memory button (**1**, **2**, or **3**) once. The desk will

automatically move to the saved position.

6. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your Claike's Electric Standing Desk.

- **Cleaning:** Wipe the desktop and frame with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the surface. The melamine resin tabletop is resistant to water and stains, making cleaning easy.
- **Cable Management:** Periodically check and reorganize cables in the cable management tray to prevent tangles and ensure smooth operation.
- **Inspection:** Regularly inspect all screws and connections to ensure they are tight. Tighten if necessary.
- **Motor Care:** The motor is designed for durability. Avoid obstructing the lifting mechanism during operation.

7. TROUBLESHOOTING

If you encounter any issues with your desk, refer to the following troubleshooting guide. If the problem persists, contact customer support.

Problem	Possible Cause	Solution
Desk does not move / Control panel is unresponsive.	Power cable disconnected; Motor overload; Control panel malfunction.	Check power connections. Unplug and replug the power cable. Reduce load on the desk. If still unresponsive, contact support.
Desk moves unevenly or makes unusual noise.	Uneven load; Loose connections; Obstruction in lifting mechanism.	Distribute weight evenly on the desktop. Check and tighten all assembly screws. Ensure no objects are obstructing the legs.
Memory function not working.	Height not properly saved.	Ensure you press and hold the memory button until the display confirms saving. Re-save your desired height.
