- **Software Updates:** Keep your tablet's software updated to ensure optimal performance and security. Check for updates in the device settings.

## TROUBLESHOOTING

Problem	Possible Solution
Tablet does not power on.	Ensure the battery is charged. Connect the charger and wait a few minutes before attempting to power on again.
Screen is unresponsive.	Perform a forced restart by pressing and holding the Power Button for approximately 10-15 seconds.
Wi-Fi connection issues.	Restart the tablet and your Wi-Fi router. Forget the network in settings and reconnect. Ensure you are within range.
Apps are crashing or freezing.	Clear the app's cache and data in settings, or uninstall and reinstall the app. Ensure sufficient storage space is available.
Battery drains quickly.	Adjust screen brightness, close background apps, disable unnecessary connectivity features (Bluetooth, GPS), and use power-saving modes.
