2. **Unfold the Frame:** Gently unfold the bed frame. The folding hinge design allows for convenient setup. Ensure the frame is fully extended and locked into place.
3. **Attach the Legs:** Screw the provided legs into the designated threaded holes on the underside of the bed frame. Hand-tighten securely.
4. **Connect Power:** Locate the power supply and cord. Plug the power cord into the control box on the bed frame, then plug the other end into a grounded electrical outlet.
