Key Features:

- **Measurement Range:** 20 cm / 8 inches.

- **High Precision Markings:** Engraved markings ensure easy readability and accuracy.
- **Durability:** Rust-proof and highly durable for long-lasting performance.
- **Versatile Application:** Suitable for use in offices, drawing, architecture, and engineering.
- **Quantity:** Package includes 20 individual straight rulers.

SETUP AND INITIAL USE

The XYWHPGV straight rulers require no complex setup. They are ready for immediate use upon unboxing.

1. **Unpack:** Carefully remove the rulers from their packaging.
2. **Inspect:** Before first use, inspect each ruler for any signs of damage during transit. Ensure markings are clear and legible.
3. **Storage:** Store rulers in a clean, dry place to maintain their condition and prevent scratches.

OPERATING INSTRUCTIONS

Using the straight ruler for accurate measurements is straightforward.

1. **Placement:** Place the ruler flat on the surface of the item or drawing you wish to measure. Ensure the edge of the ruler is aligned precisely with the starting point of your measurement.
2. **Reading Measurements:** Read the measurement directly from the engraved markings. The rulers feature both centimeter (cm) and inch (inch) scales.
3. **Drawing Straight Lines:** For drawing straight lines, hold the ruler firmly against the surface with one hand and use a pencil or pen to draw along the edge with the other hand.

MAINTENANCE AND CARE

Proper care will extend the lifespan and maintain the accuracy of your rulers.

- **Cleaning:** Wipe the rulers with a soft, dry cloth to remove dust or smudges. For stubborn marks, a slightly damp cloth can be used, followed by immediate drying.
- **Avoid Abrasives:** Do not use abrasive cleaners or harsh chemicals, as these can damage the surface or fade the markings.
- **Storage:** Store rulers flat or in a designated holder to prevent bending or scratching. Avoid storing them with sharp objects that could scratch the surface.
- **Temperature:** Avoid exposing the rulers to extreme temperatures, which could potentially affect their material integrity.

TROUBLESHOOTING

These rulers are simple tools, and issues are rare. However, here are some common concerns and their solutions:

Problem	Possible Cause	Solution
Markings appear faded or unclear.	Surface dirt or residue.	Clean the ruler with a soft, dry cloth. If necessary, use a slightly damp cloth and dry immediately.
Ruler is bent or warped.	Improper storage or excessive force applied.	Ensure rulers are stored flat. Avoid bending or applying undue pressure. If severely warped, replacement may be necessary.
Scratches on the surface.	Contact with sharp objects or abrasive surfaces.	Store rulers separately from sharp tools. Handle with care to prevent surface damage.
