- **Using the Bed:** Access the bed using the integrated ladder. Always climb and descend carefully, facing the ladder. Ensure the mattress is properly positioned on the slat support system.
- **Using the Desk:** The integrated desk provides a stable surface for studying, working, or creative activities. Ensure items placed on the desk do not exceed the 66 lbs weight limit.
- **Using the Whiteboard:** The whiteboard panel is suitable for use with dry-erase markers. Use a soft cloth or whiteboard eraser to clean the surface. Avoid abrasive cleaners or permanent markers.
- **Using the 3-Tier Shelves:** The shelves offer convenient storage for books, decor, or personal items. Distribute weight evenly and do not exceed 66 lbs per shelf.

6. MAINTENANCE

Regular maintenance will help prolong the life and safety of your Bellemave loft bed.

- **Cleaning:** Wipe metal surfaces with a soft, damp cloth. For wooden parts (desk and shelves), use a dry or slightly damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **Hardware Check:** Periodically (e.g., monthly) inspect all bolts, screws, and connections. Re-tighten any loose hardware to maintain stability and prevent wobbling.
- **Rust Prevention:** The metal frame is coated with a rust-proof finish. Avoid exposing the bed to excessive moisture to maintain this finish.
- **Whiteboard Care:** Clean the whiteboard regularly to prevent marker residue buildup. Use only dry-erase markers and cleaners designed for whiteboards.

7. TROUBLESHOOTING

If you encounter issues with your loft bed, consider the following common solutions:

- **Bed Feels Unsturdy/Wobbly:** This is often due to loose hardware. Re-check and tighten all bolts and screws throughout the entire frame. Ensure the bed is placed on a level surface.
- **Missing Parts:** If you find any parts missing upon unpacking, do not proceed with assembly. Contact Bellemave customer support immediately with your product model number and a description of the missing parts.
- **Difficulty During Assembly:** Refer back to the detailed assembly guide. Ensure you are using the correct hardware for each step and that parts are oriented correctly. If still stuck, consider seeking assistance from another person.
- **Damaged Parts:** If any components are damaged during shipping or unpacking, do not attempt to assemble. Contact customer support for replacement parts.
