5. Operating Instructions

5.1. Reversing the Chaise Configuration

The L-shaped sofa is designed to be reversible, allowing you to place the chaise on either the left or right side to suit your room layout.

1. Separate the chaise unit from the main sofa unit by lifting and disengaging the connecting brackets.
2. Move the chaise unit to the desired side (left or right).
3. Align the connecting brackets on the chaise and the main sofa unit, then push them together until they securely lock into place.

5.2. Using the Pull-Out Sofa Bed

To convert the sofa into a bed, follow these steps:

1. Locate the portable handles on the front of the sofa's pull-out section.
2. Gently pull the handles outwards. The pull-out section will extend forward on its bottom pulley device.
3. Continue pulling until the bed platform is fully extended and level with the sofa seats, creating a flat sleeping surface.
4. To revert to a sofa, lift the handles slightly and push the section back into the sofa frame until it is fully retracted.

5.3. Accessing the Storage Chaise

The chaise offers convenient hidden storage:

1. Locate the fabric loop or handle on the front edge of the chaise cushion.
2. Lift the chaise cushion upwards using the handle. The cushion will pivot open, revealing the storage compartment underneath.
3. Place or retrieve items from the storage space.
4. Gently lower the chaise cushion until it rests securely back in place.

- **Side Pockets:** Utilize the fabric pockets on the side of the armrests to store remote controls, magazines, or other small items for easy access.

6. Maintenance

Proper care will extend the life and appearance of your sofa bed.

- **General Cleaning:** Regularly vacuum the upholstery using a soft brush attachment to remove dust and debris.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. Do not rub. For stubborn stains, use a mild fabric cleaner suitable for linen upholstery, testing on an inconspicuous area first.
- **Removable Covers:** The back cushion covers are removable and easy to clean. Follow the care instructions on the fabric label, typically machine wash cold on a gentle cycle and air dry.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fabric fading. Position your sofa away from direct sun exposure or use curtains/blinds.
- **Mechanism Care:** Periodically check the pull-out bed and chaise mechanisms for smooth operation. If needed, a small amount of silicone-based lubricant can be applied to moving parts (avoiding fabric).

7. Troubleshooting

If you encounter any issues with your sofa bed, refer to the following common solutions:

- **Sofa Sections Not Connecting Securely:** Ensure the connecting brackets are properly aligned and free of obstructions. Apply firm, even pressure to lock them into place.
- **Pull-Out Bed Sticking/Difficult to Extend:** Check for any objects obstructing the mechanism or wheels. Ensure the track is clean. A small amount of silicone lubricant can be applied to the wheels and tracks if necessary.
- **Chaise Storage Lid Not Closing Properly:** Verify that no items inside the storage compartment are preventing the lid from closing fully. Check hinges for any damage or misalignment.
- **Cushions Appear Flat:** Over time, foam cushions may compress slightly. Fluff and rotate cushions regularly to help maintain their shape and extend their lifespan.
- **Squeaking Noises:** Check all assembly bolts and connections to ensure they are tight. Loose connections can cause squeaking.
