KAMABOKO KM029

KAMABOKO 69-inch Tall Wood Cat Tree Instruction Manual

Model: KM029

INTRODUCTION

Thank you for choosing the KAMABOKO 69-inch Tall Wood Cat Tree. This multi-level cat tower is designed to provide a spacious and engaging environment for your feline companions, featuring durable sisal scratching posts and comfortable platforms. This manual provides essential information for assembly, operation, maintenance, and troubleshooting to ensure a safe and enjoyable experience for your cats.

SAFETY INFORMATION

- Ensure all parts are securely fastened before allowing cats to use the tree.
- Place the cat tree on a flat, stable surface to prevent wobbling or tipping.
- Regularly inspect the tree for any loose or damaged components and address them promptly.
- Keep small children away from the cat tree during assembly and ensure they do not climb on it.
- This product is designed for indoor use only.

COMPONENTS LIST

Before beginning assembly, please verify that all components listed below are present and undamaged:

- Top Perch
- Scratching Posts (Sisal-wrapped)
- Soft Cushions (Removable and Washable)
- Cat Condo (Enclosed space)
- Multi-level Platforms
- Base Plate
- Assembly Hardware (Screws, Allen Wrench, etc.)

SETUP AND ASSEMBLY

Assembly of the KAMABOKO Cat Tree is designed to be straightforward. Please follow the included clear instructions step-by-step. It is recommended to inventory all parts before you begin to ensure nothing is missing.

Figure 1: Fully assembled KAMABOKO 69-inch Tall Wood Cat Tree.

This image shows the complete cat tree with its various platforms, sisal posts, and cat condo, ready for use in a home environment.

Product Dimensions

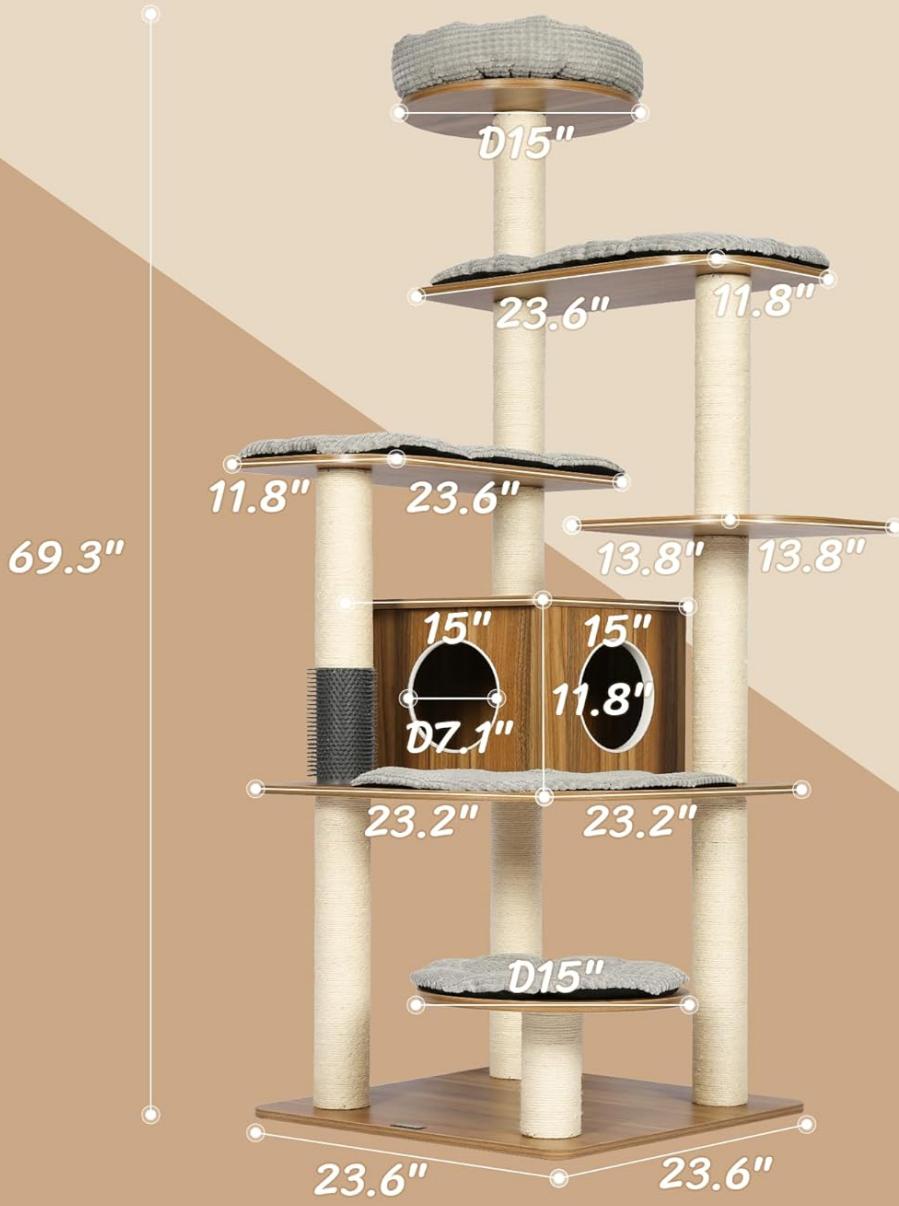

Figure 2: Product Dimensions Diagram.

Refer to this diagram for precise measurements of each platform, the cat condo, and the overall height of the cat tree, which is approximately 69.3 inches.

For detailed assembly steps, please consult the instruction manual included in your product packaging. Ensure all screws are tightened firmly to maintain the tree's sturdy and safe structure.

OPERATING (USAGE GUIDELINES)

The KAMABOKO Cat Tree offers multiple levels and features to satisfy your cat's natural instincts for scratching, climbing, running, cuddling, and jumping. Encourage your cat to explore all areas of the tree.

- **Spacious Design:** The 8-level platform and spacious condo provide ample room for exploration and relaxation.
- **Sisal Scratching Posts:** These posts are designed to protect your furniture by providing a dedicated area for your cat to sharpen its claws.
- **Cat Condo:** The enclosed condo offers a private and comfortable space for your cat to rest and feel secure.

- **Multiple Platforms:** Ideal for multi-cat households or active cats, allowing them to climb and observe their surroundings from various heights.

Figure 3: Two-door Cat Condo.

The cat condo features two access points for easy entry and exit, promoting ventilation and providing a cozy hideaway.

Rubber Self Groomer

Help cats groom in places they can't reach, such as their head.

Figure 4: Rubber Self Groomer.

A rubber self-groomer is integrated into the design to help cats groom themselves, especially in hard-to-reach areas like their head.

Video 2: Cats playing on a cat tree, showcasing the scratching posts and various perches. This short video highlights the interactive elements and the cats' engagement with the structure.

MAINTENANCE

Proper maintenance will extend the life of your KAMABOKO Cat Tree and keep it hygienic for your pets.

- **Cushion Cleaning:** The soft cushions are removable and washable. For best results, hand wash only. Allow them

to air dry completely before reattaching.

- **Surface Cleaning:** Wipe down wood surfaces with a damp cloth as needed. Avoid harsh chemicals that could damage the finish or be harmful to your pets.
- **Sisal Posts:** The sisal scratching posts are designed for durability. Over time, natural wear will occur. Monitor the condition of the sisal and replace the posts if they become excessively frayed or ineffective.
- **General Inspection:** Periodically check all connections and tighten any loose screws to maintain stability.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Cat tree feels wobbly or unstable.	Loose connections; uneven floor; insufficient base weight.	Ensure all screws are tightened. Place the tree on a level surface. If necessary, place additional weight on the base (e.g., sandbags, heavy books) to improve stability, especially for active or larger cats.
Unpleasant odor from the new cat tree.	New product smell from manufacturing materials.	Air out the cat tree in a well-ventilated area for several days before introducing your cat. You can also sprinkle baking soda on fabric parts, let it sit for a few hours, then vacuum it off.
Cats not using the scratching posts.	Preference for other surfaces; unfamiliarity.	Encourage use by sprinkling catnip on the sisal posts or gently guiding your cat's paws to the posts. Ensure the posts are stable and tall enough for a full stretch.

SPECIFICATIONS

Feature	Detail
Brand	KAMABOKO
Model Name	Large Cat Tower
Item Model Number	KM029
Color	69" H Brown
Material	Wood
Item Dimensions (LxWxH)	23.6 x 23.6 x 69 inches
