DUDUPET DUF01W

DUDUPET Automatic Pet Feeder for Cats (Model DUF01W)

Instruction Manual

INTRODUCTION

Thank you for purchasing the DUDUPET Automatic Pet Feeder. This device is designed to provide scheduled and portion-controlled meals for your cat, ensuring a healthy feeding routine even when you are away. It features app control, voice recording, and a dual power supply for reliable operation. Please read this manual thoroughly before use to ensure proper setup and operation.

PRODUCT FEATURES

- **App Control & Timer Function:** Schedule up to 6 meals per day with adjustable portions (5g to 75g per portion) via a dedicated smartphone app.
- **Voice Recording:** Record a personalized message to call your pet at meal times.
- **4L Food Capacity:** Large capacity food tank suitable for extended periods.
- **2-Way Power Supply:** Operates via AC adapter or 3 D-size alkaline batteries (not included) for backup during power outages.
- **Jam Detection:** Built-in sensor monitors the feeding port and sends app notifications if a jam occurs.
- **Enhanced Sealing:** Features a desiccant compartment and silicone gasket to maintain food freshness and prevent moisture intrusion.
- **Easy to Clean:** Removable food tank, lid, and stainless steel bowl for thorough cleaning.
- **Secure Locking Mechanism:** Side locks prevent accidental spills if the feeder is tipped over.

アップグレードした密封性能

1、鮮度をロックする乾燥剤

余分な水分を吸収し、フードを乾燥に保つ

2、密封されたシリコンリング

水分がある空気の侵入を防ぎます

3、隠蔽なフード排出口

フード排出後直ぐに密封する

- DUDUPET Automatic Pet Feeder (Main Unit)
- Stainless Steel Food Bowl
- AC Power Adapter
- Instruction Manual

Note: D-size alkaline batteries are not included and must be purchased separately for backup power.

SAFETY INFORMATION

- Always place the feeder on a stable, level surface.
- Keep the feeder away from direct sunlight and heat sources.
- Do not immerse the main unit in water. Only removable parts are washable.
- Ensure the power cord is not chewed by pets.
- Use only dry pet food with a diameter between 3mm and 10mm.
- Keep out of reach of children.
- Regularly check the food level and desiccant for optimal performance.

remains contained.

SETUP

1. Unpacking

Carefully remove all components from the packaging. Inspect the feeder for any damage. Retain packaging for future transport or storage.

2. Power Connection

- **AC Power:** Connect the AC adapter to the feeder's power port and plug it into a wall outlet.
- **Battery Backup:** For backup power, insert 3 D-size alkaline batteries into the battery compartment at the bottom of the unit. Ensure correct polarity. The feeder will automatically switch to battery power during an outage. Note that WiFi functionality is automatically disabled when operating solely on battery power to conserve energy.

Image: Illustration of the dual power supply, showing both the AC power cord connection and the battery compartment for backup.

3. App Installation & WiFi Connection

- Download the dedicated "PetTech" app from your smartphone's app store (iOS/Android).

- Open the app and follow the on-screen instructions to register an account.
- Add the feeder device within the app. Ensure your smartphone is connected to **2.4GHz WiFi network**. The feeder does not support 5GHz WiFi.
- Follow the app's prompts to connect the feeder to your home WiFi network.

Image: A smartphone displaying the PetTech app interface, demonstrating remote control and feeding options.

4. Food Loading

- Open the lid of the food tank.
- Pour dry pet food into the tank. Ensure the food size is between 3mm and 10mm.
- Close the lid securely.

Image: Close-up of the food tank, showing dry pet food being loaded into the transparent container.

5. Voice Recording

Use the app to record a short voice message (e.g., "Time to eat!") that will play automatically before each scheduled meal to attract your pet.

OPERATING INSTRUCTIONS

1. Scheduling Feeds (App)

- Open the PetTech app.
- Navigate to the feeding schedule section.
- Set desired meal times (up to 6 per day).
- Adjust the number of portions for each meal (1 portion = 5g, up to 15 portions = 75g).
- Save your schedule. The feeder will dispense food automatically.

2. Manual Feeding

- **Via App:** In the PetTech app, select the "Feed Now" option and choose the number of portions to dispense immediately.
- **Via Device:** Press and hold the manual feed button on the feeder (if available, refer to device specific buttons) to dispense a single portion.

MAINTENANCE

1. Cleaning

- Disconnect the power adapter and remove batteries before cleaning.
- Remove the food tank, lid, and stainless steel bowl. These parts are washable with water and mild detergent. Rinse thoroughly and dry completely before reassembly.
- Wipe the main unit with a damp cloth. Do not submerge the main unit in water.

ミニマリストな構造

簡単に分解でき、徹底的に掃除できます
トレイ、転子とフードタンクは直接洗浄可能

Note: Do not wash the base

Image: Disassembled components of the feeder, including the food tank and stainless steel bowl, shown being cleaned in water. Note: Do not wash the base unit.

2. Food Freshness

- Replace the desiccant pack in the lid every 1-2 months to ensure optimal food freshness.
- Ensure the lid and food discharge port are properly sealed after loading food or cleaning.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Feeder not dispensing food.	Food tank empty, food jam, power issue, incorrect schedule.	Check food level. Clear any food jams (see below). Verify power connection. Check app schedule.
Food jam detected (app notification).	Food stuck in the dispensing mechanism.	Remove the food tank and empty all food. Reassemble and try again. Ensure food size is appropriate (3-10mm).

Problem	Possible Cause	Solution
Cannot connect to WiFi.	Incorrect WiFi band, weak signal, incorrect password.	Ensure you are connecting to a 2.4GHz WiFi network. Check WiFi signal strength. Re-enter WiFi password carefully. Restart feeder and router.
Feeder loses power.	AC power disconnected, batteries depleted.	Check AC adapter connection. Replace D-size batteries if using backup power.
