MERITLINE HZG-SF000069AAE

MERITLINE HZG-SF000069AAE Twin Platform Bed with Trundle Instruction Manual

Model: HZG-SF000069AAE | Brand: MERITLINE

1. Safety Information

Please read all instructions carefully before assembly and use. Keep this manual for future reference.

- **Weight Capacity:** Do not exceed the recommended weight capacity for the bed (300 lbs) and trundle (300 lbs). Exceeding these limits may result in product failure and potential injury.
- **Assembly:** Improper assembly can lead to instability or collapse. Always follow the provided assembly instructions precisely. Ensure all bolts and screws are securely tightened before use.
- **Children:** Supervise children around the trundle bed to prevent accidents.
- **Maintenance:** Regularly check all connections and tighten as necessary to maintain structural integrity.
- **Placement:** Place the bed on a level surface.

2. Package Contents

Your MERITLINE Twin Platform Bed with Trundle is shipped in two packages. Please ensure all components are present before beginning assembly. If any parts are missing or damaged, contact customer support.

Included Components:

- Bed Frame Components (Headboard, Footboard, Side Rails)
- Trundle Bed Frame Components
- Wooden Slats for Main Bed and Trundle
- Hardware Pack (Screws, Bolts, Washers, Allen Wrench)
- Installation Manual

3. Setup and Assembly Instructions

Assembly is required. All necessary tools are included. It is recommended to assemble the bed with two people.

1. **Unpack Components:** Carefully unpack all parts from both packages. Lay them out on a clean, soft surface (like a carpet) to prevent scratches. Verify all parts are present against the parts list in the included installation manual.
2. **Assemble Headboard and Footboard:** Attach the side rails to the headboard and footboard using the provided hardware. Ensure all connections are secure but do not fully tighten until the frame is complete.
3. **Install Main Bed Slats:** Place the wooden slats across the main bed frame. Secure them according to the instructions in the manual. These slats provide mattress support, eliminating the need for a box spring.
4. **Assemble Trundle Bed:** Assemble the trundle bed frame separately, attaching its side rails and slats. Ensure the casters are properly installed for smooth movement.
5. **Insert Trundle:** Once the main bed and trundle are assembled, slide the trundle bed under the main bed frame.
6. **Final Tightening:** Once the entire bed frame is assembled and positioned, go back and fully tighten all bolts and screws.

4. Operating Instructions

Using the Main Bed

Place a twin-size mattress (recommended thickness: 6 inches) directly onto the wooden slats of the main bed frame. No box spring is required.

Using the Trundle Bed

The trundle bed is designed for easy pull-out and storage. To use:

1. Grasp the handles on the front panel of the trundle.
2. Gently pull the trundle out from under the main bed. The smooth casters will facilitate movement.
3. Place a twin-size mattress (recommended thickness: 4-6 inches) onto the trundle slats.
4. To store, remove the mattress if desired, and push the trundle back under the main bed until it is fully recessed.

5. Maintenance

- **Cleaning:** For the velvet upholstery, gently vacuum with an upholstery attachment to remove dust. For spills, blot immediately with a clean, dry cloth. For stubborn stains, consult a professional upholstery cleaner or use a mild fabric cleaner designed for velvet, testing on an inconspicuous area first.
- **Frame Care:** Wipe wooden or metal parts with a soft, damp cloth. Avoid harsh chemicals.
- **Hardware Check:** Periodically check all bolts and screws to ensure they remain tight. Re-tighten as needed to maintain the bed's stability.
- **Caster Maintenance:** Keep trundle casters free of debris to ensure smooth operation.

6. Troubleshooting

Problem	Possible Cause	Solution
Bed feels wobbly or unstable.	Loose hardware connections.	Check and tighten all bolts and screws on the main bed frame and headboard. Ensure the bed is on a level surface.
Trundle does not slide smoothly.	Debris in casters or uneven floor.	Inspect casters for any obstructions (e.g., carpet fibers, dust). Clean if necessary. Ensure the floor surface is clear and level.
Screws coming out or material damage.	Over-tightening during assembly or manufacturing defect.	If screws are stripped, they may need to be replaced with slightly larger ones or wood glue can be used. If material is damaged, contact customer support for assistance. Avoid over-tightening during assembly.
Missing parts.	Packaging error.	Refer to the parts list in your installation manual. Contact MERITLINE customer support with the specific part numbers for replacements.

7. Specifications

Feature	Detail
Model Number	HZG-SF000069AAE
Brand	MERITLINE
Size	Twin
Color	Grey
Material	Velvet, Plywood
Product Dimensions (L x W x H)	80.2" x 41.5" x 42.5"
Total Height	42.5"
