

## Portronics POR-2015

# Portronics Vader Wired Gaming Mouse User Manual

Model: POR-2015

## INTRODUCTION

Thank you for choosing the Portronics Vader Wired Gaming Mouse. This manual provides detailed instructions for setting up, operating, maintaining, and troubleshooting your new gaming mouse. Please read this manual carefully to ensure optimal performance and longevity of your device.

## PRODUCT OVERVIEW

The Portronics Vader is a wired gaming mouse designed for precision and comfort. It features a 6-button layout, adjustable DPI settings, and dynamic RGB lighting effects.

### Key Features:

- **6-Button Layout:** Includes left click, right click, scroll wheel, DPI adjustment, forward, and backward buttons.
- **Adjustable DPI:** Optical tracking with adjustable DPI settings up to 6400 (1000-1600-3200-6400).
- **Ergonomic Design:** Features a comfortable grip with a dedicated thumb rest to reduce hand fatigue during extended use.
- **RGB Light Effects:** Dynamic lighting enhances the aesthetic of your gaming setup.
- **Wired Connectivity:** 1.5-meter long USB cable for reliable, plug-and-play operation.
- **Universal Compatibility:** Works with Windows and Mac OS.

# Mastery at Your Fingertips

Dominate the Battlefield with the 6-Button Design

## SETUP

The Portronics Vader Gaming Mouse is designed for simple plug-and-play functionality.

1. **Connect the USB Cable:** Plug the USB connector of the mouse into an available USB port on your computer (Laptop or PC).
2. **Driver Installation:** Your operating system (Windows or Mac OS) will automatically detect and install the necessary drivers. No additional software installation is required.
3. **Ready for Use:** Once the drivers are installed, the mouse is ready for immediate use.

## OPERATING INSTRUCTIONS

---

Familiarize yourself with the functions of each button on your Portronics Vader Gaming Mouse:

- **Left Button:** Primary click function, typically used for selection and activation.
- **Right Button:** Secondary click function, typically used to open context menus.
- **Scroll Wheel:** Used for scrolling through documents and web pages. Can also function as a middle click button.
- **DPI Switch Button:** Adjusts the mouse sensitivity (DPI). See the 'DPI Adjustment' section for details.
- **Forward Button:** Navigates forward in web browsers or file explorers.
- **Backward Button:** Navigates backward in web browsers or file explorers.

## DPI ADJUSTMENT

---

The Portronics Vader mouse allows you to adjust its sensitivity (DPI - Dots Per Inch) to match your preference and task requirements. This is particularly useful for gaming, where different scenarios may require varying levels of precision or speed.

- Locate the **DPI Switch Button**, usually positioned below the scroll wheel.
- Press the DPI button to cycle through the available DPI settings: **1000, 1600, 3200, and 6400 DPI**
- Each press will change the DPI level, allowing you to find the optimal sensitivity for your current activity.

**Image:** The Portronics Vader Gaming Mouse illustrating its adjustable DPI settings, ranging from 1000 to 6400 for precise optical tracking.

## RGB LIGHTING

The Portronics Vader Gaming Mouse features integrated RGB lighting that automatically cycles through various color effects. These lights are designed to enhance the visual appeal of your gaming setup and operate automatically upon connection. There are no user-adjustable settings for the RGB lighting patterns or colors.

## Epic Design, Epic Performance

### Transform Your Experience with Striking RGB Lighting and Design

## MAINTENANCE

---

Proper maintenance ensures the longevity and optimal performance of your gaming mouse.

- **Cleaning:** Use a soft, dry cloth to wipe the surface of the mouse. For stubborn dirt, slightly dampen the cloth with water or a mild cleaning solution. Avoid using harsh chemicals or abrasive materials.
- **Optical Sensor:** Keep the optical sensor on the underside of the mouse clean and free from dust or debris to ensure accurate tracking. Use a cotton swab for delicate cleaning if necessary.
- **Cable Care:** Avoid sharp bends, twists, or excessive pulling on the USB cable. Store the cable neatly when not in use to prevent damage.
- **Storage:** When not in use for extended periods, store the mouse in a clean, dry environment away from extreme temperatures.

## TROUBLESHOOTING

---

If you encounter issues with your Portronics Vader Gaming Mouse, refer to the following common solutions:

Problem	Solution
Mouse not responding	<ul style="list-style-type: none"><li>• Ensure the USB cable is securely plugged into a working USB port.</li><li>• Try plugging the mouse into a different USB port.</li><li>• Restart your computer.</li></ul>
Inaccurate tracking or cursor jumps	<ul style="list-style-type: none"><li>• Clean the optical sensor on the underside of the mouse.</li><li>• Ensure you are using the mouse on a clean, non-reflective surface or a mouse pad.</li><li>• Adjust the DPI setting to a lower value if the cursor is too sensitive.</li></ul>
RGB lights are not working	<ul style="list-style-type: none"><li>• Verify the mouse is properly connected to your computer.</li><li>• The RGB lighting is automatic and cannot be manually controlled. If the mouse is functioning but lights are off, contact support.</li></ul>
Forward/Backward buttons not working	<ul style="list-style-type: none"><li>• These buttons are typically functional in web browsers and file explorers. Ensure you are using an application that supports these functions.</li><li>• Some applications may require specific settings or software for these buttons to work.</li></ul>
