Giantex Set of 4 Patio Chairs Instruction Manual

Model: GX11384NY-4-PN

INTRODUCTION

Thank you for choosing the Giantex Set of 4 Patio Chairs. These chairs are designed for outdoor relaxation, offering a comfortable and durable seating solution for various settings such as your poolside, backyard, balcony, or garden. Featuring a breathable, quick-drying fabric and a rustproof steel frame, these chairs are built for longevity and ease of use. Their stackable design allows for convenient, space-saving storage when not in use.

SAFETY INFORMATION

- **Weight Capacity:** Do not exceed the maximum weight capacity of **330 lbs (150 kg)** per chair. Exceeding this limit may result in damage to the chair or personal injury.
- **Assembly:** Ensure all components are correctly assembled and tightened according to the instructions before use. Improper assembly can lead to instability and potential hazards.
- **Placement:** Place chairs on a stable, level surface to prevent tipping.
- **Children:** Keep children away from the assembly area. Do not allow children to climb or play on the chairs unsupervised.
- **Inspection:** Periodically inspect chairs for loose parts, damage, or wear. Discontinue use if any issues are found and address them promptly.

PACKAGE CONTENTS

Before beginning assembly, verify that all parts listed below are present and undamaged. If any parts are missing or damaged, please contact customer support.

- 4 x Chair Frames (Steel Pipes)
- 4 x Seat and Back Fabric Assemblies
- Hardware Pack (screws, washers, Allen key)
- 1 x Instruction Manual

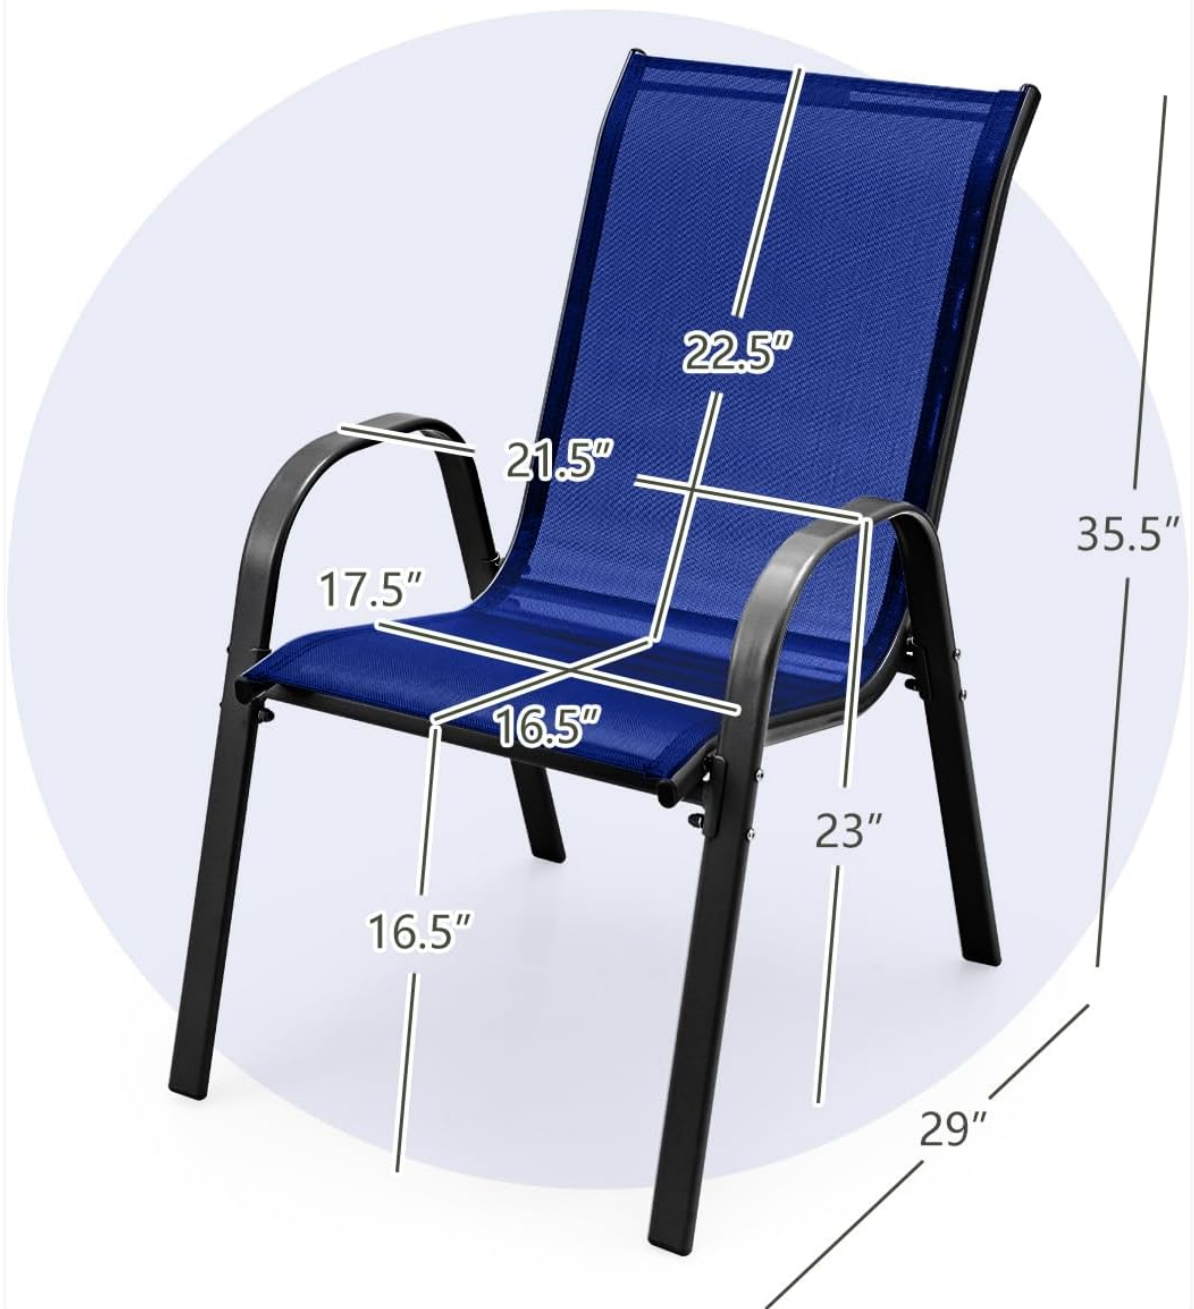

Image: All components included in the package.

ASSEMBLY INSTRUCTIONS

Assembly is required for these chairs. Please follow these steps carefully. It is recommended to have a second person assist with assembly for easier alignment of parts.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface to prevent scratches. Refer to the 'Package Contents' section to ensure all items are present.
2. **Attach Cross Beams:** Identify the leg cross beams. Note that these beams have two sides; the longer side should be positioned on top. Secure them to the chair frame using the provided screws, but do not fully tighten them yet.
3. **Install Seat and Back Fabric:** Carefully slide the fabric seat and back assembly onto the chair frame. Ensure that the small holes near where the neck would be positioned face inward towards each other for proper alignment.
4. **Secure Armrests:** Attach the curved armrests to the chair frame. Align the holes and insert the screws. Again, do not fully tighten all screws at this stage.
5. **Final Tightening:** Once all parts are loosely assembled, gently place the chair on a flat surface. Apply slight pressure to ensure all parts are seated correctly. Then, gradually tighten all screws evenly until secure. Avoid over-tightening.
6. **Check Stability:** After tightening all screws, gently rock the chair to ensure it is stable and does not wobble. If wobbling occurs, loosen the screws slightly, adjust the chair on a flat surface, and re-tighten.

OPERATING INSTRUCTIONS

These chairs are designed for straightforward use and comfort.

- **Seating:** Sit upright with your back against the chair's backrest for optimal ergonomic support. The curved armrests provide additional comfort.
- **Stacking for Storage:** To save space, these chairs can be stacked. Lift one chair and carefully place it on top of another, aligning the legs and frames to ensure stability. Stack up to four chairs for compact storage.

MAINTENANCE

To ensure the longevity and appearance of your Giantex Patio Chairs, follow these simple maintenance guidelines:

- **Cleaning:** Wipe clean with a damp cloth and mild soap. Avoid harsh chemicals or abrasive cleaners, which can damage the fabric and frame finish.

- **Drying:** The fabric is quick-drying. Allow chairs to air dry completely after cleaning or rain before stacking or storing.
- **Frame Care:** The steel frame is plastic-sprayed for rust resistance. If any scratches or chips occur, touch up with rust-inhibiting paint to prevent corrosion.
- **Storage:** When not in use for extended periods, especially during harsh weather, store chairs in a dry, protected area. Utilize the stackable feature for efficient storage.

Plastic Sprayed Steel Frame

TROUBLESHOOTING

If you encounter any issues during assembly or use, refer to the following common problems and solutions:

- **Chair is Wobbly After Assembly:**

Solution: Loosen all screws slightly. Place the chair on a flat, level surface and apply even pressure to all four legs. Then, re-tighten all screws firmly and evenly. This helps the frame settle into its correct alignment.

- **Screws Do Not Reach or Align Properly:**

Solution: Ensure that no screws are fully tightened until all parts are loosely assembled. Sometimes, leaving screws slightly loose allows for the necessary flexibility to align other components. Also, double-check the orientation of parts, especially cross beams (longer side up) and fabric (small holes inward).

- **Difficulty Tightening Screws with Provided Allen Key:**

Solution: While an Allen key is provided, using a ratchet with an appropriate Allen key attachment can significantly ease the tightening process and ensure a more secure fit.

- **Parts Appear Slanted:**

Solution: This often relates to screws being tightened unevenly or prematurely. Follow the advice for 'Screws Do Not Reach or Align Properly' and 'Chair is Wobbly After Assembly' to ensure proper alignment before final tightening.

SPECIFICATIONS

Feature	Detail
Brand	Giantex
Model Name	Set of 4 Patio Chairs
Model Number	GX11384NY-4-PN
Color	Blue
Material	Alloy Steel (Frame), Fabric (Seat & Back)
