3.3 App Installation

To manage and track your device, download the free PAJ GPS app. It is compatible with both Android and iOS devices. Search for "PAJ GPS" in the Google Play Store or Apple App Store and follow the installation instructions.

4. OPERATING INSTRUCTIONS

4.1 Real-Time Tracking

Once your device is activated and connected, you can view its real-time location through the PAJ GPS app. The app displays the current position on a map, allowing you to monitor movement instantly.

Image: A smartphone screen showing a live tracking map with two distinct location markers, indicating the positions of an elderly person and a child.

4.2 Geo-Fence Alarms

Set up custom 'safe zones' or geofences within the app. You will receive an instant notification if the device enters or exits these predefined areas. This feature is ideal for monitoring boundaries for children or elderly individuals.

4.3 SOS Function

The device is equipped with an SOS button. In an emergency, pressing this button will send an immediate alarm notification to your designated contacts via the app, providing the device's current location.

4.4 Location History

The PAJ GPS app stores up to 365 days of track memory, allowing you to review past routes, including time and speed data. This feature provides a comprehensive overview of the device's movements over time.

5. FEATURES OVERVIEW

- **RELIABLE LIVE LOCATION:** Accurate real-time global positioning with 365 days of track memory.
- **SAFETY FIRST:** Various alarms including 'safe zone' notifications when the device leaves a defined area.
- **NO DISTANCE LIMIT:** Track your loved ones regardless of distance.
- **SMALL DEVICE - LONG BATTERY LIFE:** Lightweight (41 grams) with approximately 5 days of battery life. Battery alarm notifies when low.
- **SUBSCRIPTION:** Includes SIM card, lifelong device replacement, and 24/7 customer support. Free app compatible with Android and iOS.

5.1 Connectivity and Durability

The People Finder 4G operates on 4G LTE for reliable and fast connection. It is designed to be practical, easy, and versatile, with an IP65 rating, making it excellent even in heavy rain.

6. MAINTENANCE

6.1 Battery Life and Charging

The device has a battery life of approximately 5 days. To ensure continuous tracking, recharge the device promptly when the battery alarm notifies you of a low battery level. Use only the provided USB cable for charging.

6.2 Cleaning and Care

To maintain the device's performance and longevity, wipe it with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials. While the device is water-resistant (IP65), do not submerge it in water.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Device not tracking location	No active subscription; poor GPS signal; low battery.	Verify subscription status; move to an open area; charge the device.
Battery drains quickly	Frequent location updates; old battery.	Adjust tracking frequency in app; contact support for battery issues.
No alarm notifications	App notifications disabled; incorrect geofence settings.	Enable notifications in phone settings and app; review geofence boundaries.
Device not turning on	Completely discharged battery; device malfunction.	Charge for several hours; if still unresponsive, contact customer support.
