Innovations Lighting 010-BK

Innovations 010-BK 10' Corded Porcelain Socket Instruction Manual

Brand: Innovations Lighting | Model: 010-BK

1. PRODUCT OVERVIEW

The Innovations 010-BK is a 10-foot corded porcelain socket designed for various lighting applications. It features an industrial and restoration-vintage style, part of the Custom Cord Collection. This product is constructed from durable steel and cast brass components, ensuring reliability and longevity. Its design allows for versatile use in damp locations, making it suitable for a range of indoor environments.

This image displays a detailed view of the durable, black braided cord, which is 10 feet in length and designed for robust electrical connections.

2. SAFETY INFORMATION

Please read all safety instructions carefully before installation and use. Failure to follow these instructions may result in electric shock, fire, or other hazards.

- **Professional Installation Recommended:** Due to the electrical nature of this product, installation by a qualified electrician is highly recommended to ensure proper wiring and compliance with local electrical codes.
- **Power Disconnection:** Always disconnect power at the circuit breaker or fuse box before installing, servicing, or cleaning the socket.
- **Damp Location Rated:** This product is UL/ETL certified for damp locations. Do not use in wet locations or where it will be directly exposed to water.
- **California Proposition 65 Warning:** This product may expose you to chemicals known to the State of California to

cause cancer and birth defects or other reproductive harm. For more information, go to www.P65Warnings.ca.gov.

- **Bulb Compatibility:** Ensure that the light bulb used with this socket does not exceed the maximum wattage specified by the bulb manufacturer or the fixture it is connected to.
- **Secure Mounting:** Ensure the socket and any connected fixture are securely mounted to prevent accidental falls.

3. PACKAGE CONTENTS

Verify that all components are present and undamaged upon opening the package. If any parts are missing or damaged, do not proceed with installation and contact customer support.

- 1 x Innovations 010-BK 10' Corded Porcelain Socket (with integrated 10-foot cord)
- *(Additional mounting hardware or accessories may be included depending on the specific kit purchased.)*

4. SETUP AND INSTALLATION

This corded porcelain socket is designed for integration into a lighting fixture or for use as a standalone pendant. Follow these general steps for installation. Always consult a qualified electrician for complex installations.

1. **Prepare the Installation Area:** Ensure the power supply to the installation area is turned off at the circuit breaker.
2. **Mounting (if applicable):** If the socket is to be mounted, ensure the mounting surface is structurally sound and capable of supporting the weight of the socket and any attached light fixture. Use appropriate mounting hardware (not included unless specified).
3. **Electrical Connection:**
 - Connect the cord's wires to the appropriate power source or fixture wiring according to local electrical codes and the fixture's instructions. Typically, this involves connecting the live, neutral, and ground wires.
 - Ensure all wire connections are secure and properly insulated with wire nuts or electrical tape.
4. **Insert Bulb:** Once the socket is securely installed and wired, carefully screw a compatible light bulb into the porcelain socket. Do not overtighten.
5. **Restore Power:** After confirming all connections are secure and the bulb is installed, restore power at the circuit breaker.

5. OPERATING INSTRUCTIONS

The Innovations 010-BK corded porcelain socket operates as a standard light socket. Once properly installed and a compatible bulb is inserted, its operation is controlled by the power switch connected to its circuit.

- **Turning On/Off:** Use the wall switch or inline cord switch (if part of your setup) to turn the light on or off.
- **Bulb Replacement:** To replace a bulb, ensure the power to the socket is turned off at the switch and preferably at the circuit breaker. Allow the bulb to cool completely before unscrewing it. Screw in the new bulb gently until snug.

6. MAINTENANCE

Regular maintenance helps ensure the longevity and safe operation of your corded porcelain socket.

- **Cleaning:** Disconnect power before cleaning. Wipe the socket and cord with a soft, dry cloth. Do not use abrasive cleaners, solvents, or liquids directly on the electrical components.
- **Inspection:** Periodically inspect the cord for any signs of fraying, cuts, or damage. Check the socket for cracks or discoloration. If any damage is observed, discontinue use immediately and consult a qualified electrician for repair or replacement.
- **Bulb Tightness:** Ensure the light bulb remains securely screwed into the socket to maintain proper electrical

contact.

7. TROUBLESHOOTING

If you encounter issues with your Innovations 010-BK socket, refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
Light does not turn on.	No power to the circuit. Loose bulb. Burnt-out bulb. Faulty wiring connection.	Check circuit breaker or fuse. Tighten bulb in socket. Replace bulb with a new one. (Caution: Disconnect power) Inspect wiring connections; consult an electrician if unsure.
Light flickers.	Loose bulb. Incompatible bulb. Loose wiring connection.	Tighten bulb. Ensure bulb wattage and type are compatible. (Caution: Disconnect power) Check wiring connections.

If the problem persists after attempting these solutions, contact a qualified electrician or Innovations Lighting customer support.

8. SPECIFICATIONS

Model Number	010-BK
Brand	Innovations Lighting
Cord Length	10 feet (120 inches)
Socket Material	Porcelain
Cord Material	Steel, Cast Brass (internal components/braiding)
Dimensions (Socket)	Approximately 0.75 inches (W) x 0.75 inches (Dia)
Item Weight	3 pounds
Certification	UL/ETL Certified for Damp Locations
Style	Industrial, Restoration-Vintage

9. WARRANTY AND SUPPORT

Innovations Lighting products are manufactured to high standards. For specific warranty details, please refer to the documentation included with your purchase or visit the official Innovations Lighting website. Warranty terms typically cover defects in materials and workmanship under normal use.

For technical support, replacement parts, or further assistance, please contact Innovations Lighting customer service. Contact information can usually be found on the product packaging or the manufacturer's website.
