Ymimi 616FJ140

Ymimi Replacement Filter User Manual

For Shark WZ250, WZ240, WZ240 26, WZ140 Pet Pro Cordless Stick Vacuums

Product Overview

This manual provides instructions for the Ymimi Replacement Filters, designed for use with Shark Pet Pro Cordless Stick Vacuum models including WZ250, WZ240, WZ240 26, WZ140, IX141, IX140, IZ140, IX142, IZ140C, IZ142, UZ145, IZ141C, and IX141H Series. The package includes 2 HEPA filters, 4 foam filters, and 4 felt filters, serving as direct replacements for original parts 616FJ140 and 617FJ140.

Setup and Installation

Before installing the new filters, ensure your Shark Pet Pro Cordless Stick Vacuum is turned off and unplugged. Locate the existing filter compartment on your vacuum cleaner. Refer to your vacuum's original user manual for specific instructions on accessing the filter housing.

1. **Remove Old Filters:** Carefully remove the used HEPA filter and foam/felt filters from their compartments. Dispose of them according to local regulations.
2. **Insert New Foam/Felt Filters:** Place the new foam and felt filters into their designated slots. Ensure they are seated correctly and flat.
3. **Insert New HEPA Filter:** Insert the new HEPA filter into its housing. Make sure it clicks securely into place.
4. **Close Compartment:** Close the filter compartment cover securely.

Maintenance

Regular maintenance of your filters is crucial for maintaining optimal vacuum performance and air quality.

Cleaning the Filters

The foam and felt filters are reusable and can be washed. The HEPA filter is generally not washable and should be replaced when dirty.

1. **Remove Filters:** Remove the foam and felt filters from the vacuum as described in the "Setup and Installation" section.
2. **Wash:** Rinse the foam and felt filters under running water until the water runs clear. Gently squeeze out excess water.
3. **Air Dry:** Allow the filters to air dry completely for at least 24 hours before reinserting them into the vacuum. Do not use a dryer or other heating device.

Replacement Schedule

For optimum performance, it is recommended to replace your vacuum filters every 3-6 months, depending on usage frequency and household conditions.

Troubleshooting

Problem	Possible Cause	Solution
Reduced Suction Power	Clogged or dirty filters. Filters not installed correctly.	Clean washable filters thoroughly. Ensure filters are completely dry before reinstallation. Replace filters if heavily soiled or damaged. Verify filters are seated correctly in their compartments.

Problem	Possible Cause	Solution
Unusual Odor from Vacuum	Dirty filters retaining odors.	Clean washable filters. Replace all filters if odor persists.
Filters Don't Fit	Incorrect model compatibility.	Double-check your vacuum model number against the compatible models listed in this manual (WZ250, WZ240, WZ240 26, WZ140, IX141, IX140, IZ140, IX142, IZ140C, IZ142, UZ145, IZ141C, IX141H Series).

Specifications

- **Model Number:** 616FJ140
- **Compatible Devices:** Shark Pet Pro Cordless Stick Vacuum (WZ250, WZ240, WZ240 26, WZ140, IX141, IX140, IZ140, IX142, IZ140C, IZ142, UZ145, IZ141C, IX141H Series)
- **Included Components:** 2 HEPA filters, 4 foam filters, 4 felt filters
- **Material Type:** Foam
- **Reusability:** Reusable (Foam/Felt filters)
- **Item Weight:** 8.4 ounces
- **Product Dimensions:** HEPA Filter: 4.8"L x 4.3"W x 2.95"H; Foam Filter: 4.7"L x 4.2"W x 2.2"H
