## PGYTECH P-GM-117

# PGYTECH CapLock Extension Pole Mini Tripod with Phone Clip User Manual

Brand: PGYTECH

Model: P-GM-117

## 1. OVERVIEW

The PGYTECH CapLock Extension Pole Mini Tripod with Phone Clip is a versatile accessory designed for action cameras and smartphones. It features a quick-release system, an extendable pole, a built-in mini tripod, and a panoramic ball head, making it ideal for various shooting scenarios, from vlogging to stable photography.

## 2. FEATURES

- **Quick Release System:** The CapLock system allows for one-step installation and removal of devices, enhanced by a dual-lock design for security.
- **Versatile Compatibility:** Includes an action camera adapter and a 1/4" adapter, compatible with action cameras and smartphones. A mobile phone clip is included.
- **Magnetic Leg Base:** Functions as a selfie stick or a tripod with built-in magnetic legs for stability.
- **Panoramic Ball Head:** Offers total pan-and-tilt flexibility with a strong clamping force, supporting up to 1kg.
- **Light and Portable:** Folds down to 18cm (7.08 inches) for easy transport, made from aluminum alloy with a non-slip rubber texture.

CapLock allows users to avoid the tedious process of rotating and removing the interface knob of traditional sports cameras, and installs it in one step.

### 3. SETUP

#### 3.1. Attaching Your Device

1. **For Action Cameras:** Attach the action camera adapter to your camera's mounting frame. Align the adapter with the CapLock base on the tripod and push down until it clicks securely into place. Ensure the dual-lock mechanism is engaged.
2. **For Smartphones:** Attach the included phone clip to the 1/4" adapter. Then, align the 1/4" adapter with the CapLock base on the tripod and push down until it clicks securely. Insert your smartphone into the phone clip.

## 3.2. Extending the Pole

To extend the pole, grasp the handle and gently pull the top section upwards. The pole has multiple sections that extend smoothly. To retract, push the sections back down into the handle until fully collapsed.

## 3.3. Deploying Tripod Legs

The handle of the tripod contains integrated magnetic legs. To deploy, simply pull the legs outwards from the handle. They will snap into a stable tripod position. To retract, push the legs back together until they magnetically secure into the handle.

## 360° Panoramic View

The dual-ball magic arm provides a complete panoramic view, it can be tilted and rotated 360° to meet the needs of different scene angle shooting.

## 4. OPERATING

### 4.1. Adjusting the Panoramic Ball Head

The tripod features a panoramic ball head for flexible positioning. Loosen the knob on the side of the ball head to adjust the angle of your camera or phone. Once the desired angle is achieved, tighten the knob to secure the position. The ball head allows for 360-degree rotation and tilting up to 145 degrees.

## Panoramic Ball Head

The ball head brings total pan-and-tilt flexibility  
(Ball head tilts 55° on one side, with reserved notch for portrait shooting)

*Image: Illustrates the panoramic ball head's range of motion, including 360-degree pan and 145-degree tilt, with a reserved notch for portrait shooting.*

### 4.2. Using as a Selfie Stick

With the tripod legs retracted into the handle, extend the pole to your desired length. Hold the handle firmly to capture selfies or wider shots. The non-slip rubber texture provides a comfortable grip.

### 4.3. Using as a Tripod

Deploy the magnetic legs and place the tripod on a stable, flat surface. Adjust the pole height and ball head angle as needed for stationary shots or time-lapses.

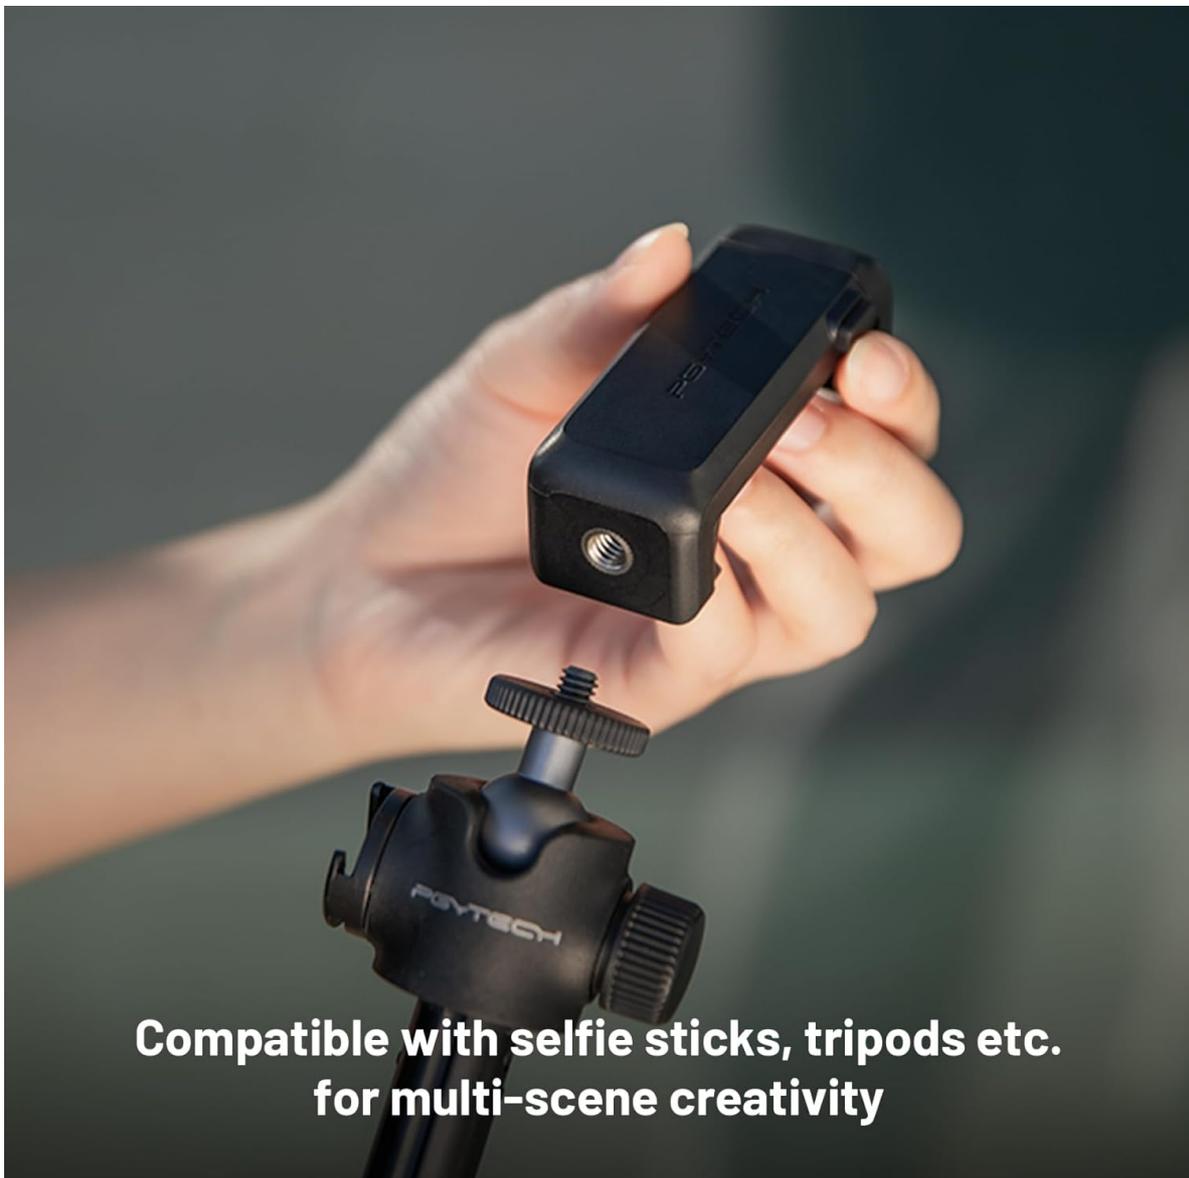

*Video: Demonstrates the PGYTECH CapLock Extension Pole Tripod with Phone Clip in use, showcasing its versatility for both action cameras and smartphones.*

#### 4.4. Attaching Additional Accessories

The tripod features a cold shoe mount on the side of the ball head. This allows for the attachment of accessories such as microphones or LED lights to enhance your recording setup.

### 5. MAINTENANCE

- **Cleaning:** Wipe the tripod with a soft, dry cloth. For stubborn dirt, a slightly damp cloth can be used, followed by immediate drying. Avoid harsh chemicals.
- **Storage:** Store the tripod in a cool, dry place, away from direct sunlight and extreme temperatures. Ensure it is fully retracted and the legs are folded for compact storage.
- **Moving Parts:** Periodically check the ball head and extension pole for smooth operation. Do not force any parts if they feel stiff.

*Image: Shows the PGYTECH CapLock Extension Pole Mini Tripod being stored compactly in a backpack pocket, emphasizing its portability.*

## 6. TROUBLESHOOTING

- **Device Not Secure:** Ensure the CapLock system is fully engaged and the dual-lock mechanism is activated. For 1/4" screw mounts, ensure the screw is tightened.
- **Pole Not Extending/Retracting Smoothly:** Check for any obstructions or debris in the pole sections. Clean if necessary. Avoid applying excessive force.
- **Tripod Unstable:** Ensure the legs are fully deployed and placed on a flat, stable surface. Check that the ball head is tightened after adjusting the angle.

## 7. SPECIFICATIONS

Feature	Specification
Model Number	P-GM-117
Material	Aluminum
Item Weight	6.2 ounces (177 Grams)
Weight Limit	1120 Grams
Maximum Height	47 Centimeters (18.5 inches)
Folded Length	18 Centimeters (7.08 inches)
Tripod Head Type	Ball Head
Special Feature	Foldable
