# FORVIK Storage Bed User Manual

Model: FORVIK | Size: 180 x 200 cm | Brand: Vente-unique

## 1. PRODUCT OVERVIEW

The Vente-unique FORVIK Storage Bed is a stylish and functional addition to any bedroom, designed to maximize space with its integrated storage solution. This bed features a robust wooden and MDF structure, upholstered in a durable blue fabric, and includes a slatted base for optimal mattress support. The spacious storage compartment, divided into two sections, provides ample room for linens, seasonal clothing, or other personal items.

## 2. SAFETY INFORMATION

Please read and understand all safety instructions before assembly and use. Failure to follow these

instructions may result in injury or damage to the product.

- Keep all small parts and packaging materials away from children and pets to prevent choking hazards.
- Assemble the bed on a soft, clean surface to prevent scratches or damage.
- Ensure all screws and fasteners are securely tightened before use. Periodically check and re-tighten as necessary.
- Do not exceed the maximum weight capacity of 240 kg (approximately 529 lbs) for the bed.
- When opening or closing the storage compartment, ensure hands and fingers are clear of moving parts to avoid pinching.
- Do not allow children to play inside the storage compartment.
- Use only the recommended mattress size (180 x 200 cm) to ensure proper fit and function of the slatted base and storage mechanism.

### 3. PACKAGE CONTENTS

Before beginning assembly, verify that all components are present and undamaged. If any parts are missing or damaged, do not proceed with assembly and contact customer support.

- Headboard and Footboard sections
- Side Rails (Left and Right)
- Slatted Base Frame (with 51 slats)
- Storage Compartment Base (2 separate parts)
- Hydraulic Lift Mechanism (pre-assembled or separate components)
- Center Support Beam(s)
- Assembly Hardware (screws, bolts, washers, Allen key, etc.)
- Assembly Instructions Manual

### 4. SETUP AND ASSEMBLY

Assembly typically requires two adults. Please follow the detailed instructions provided in the separate assembly guide included with your product. The general steps are outlined below:

1. **Unpack and Identify Parts:** Carefully remove all components from the packaging and lay them out on a clean, soft surface. Refer to the parts list to ensure everything is accounted for.
2. **Assemble the Bed Frame:** Attach the side rails to the headboard and footboard using the provided hardware. Ensure all connections are secure.
3. **Install Center Supports:** Secure any center support beams or legs to the bed frame as indicated in the assembly guide.
4. **Assemble Storage Base:** Construct the two separate storage compartment bases. These will form the floor of the storage area.
5. **Attach Hydraulic Lift Mechanism:** Secure the hydraulic lift mechanism to the bed frame. This mechanism will allow the slatted base to be lifted for access to the storage.
6. **Install Slatted Base:** Place the slatted base frame onto the hydraulic lift mechanism and secure it according to the instructions. Ensure the slats are properly seated.
7. **Final Checks:** Double-check all connections for tightness. Ensure the bed frame is stable and level.

## 5. OPERATING INSTRUCTIONS (STORAGE MECHANISM)

The FORVIK bed features an easy-to-use hydraulic lift mechanism for accessing the under-bed storage. Ensure no objects are on the bed when operating the mechanism, except for the mattress.

1. **To Open:** From the foot of the bed, firmly grasp the handle or edge of the slatted base (with mattress on it) and lift upwards. The hydraulic mechanism will assist in raising the bed base smoothly. Continue lifting until the base is fully open and locked in the upright position.
2. **To Close:** Gently push down on the slatted base from the foot of the bed. The hydraulic mechanism will slowly lower the base back into the closed position. Ensure the base is fully lowered and flush with the bed frame.

The storage compartment is divided into two separate sections, allowing for organized storage of your belongings. The internal dimensions of the storage chest are approximately L178 x P98 cm (for each section, total for 180x200 bed).

## 6. MAINTENANCE AND CARE

Proper care will extend the life and appearance of your FORVIK Storage Bed.

- **Fabric Care:** The bed is upholstered in 95% Polyester, 5% Nylon fabric. For general cleaning, gently vacuum with an upholstery attachment to remove dust and debris. For spills, blot immediately with a clean, dry cloth. For stubborn stains, use a mild fabric cleaner specifically designed for polyester, testing on an inconspicuous area first. Do not use harsh chemicals or abrasive cleaners.
- **Frame Care:** Wipe the wooden and MDF frame components with a soft, damp cloth. Avoid excessive moisture.
- **Hydraulic Mechanism:** The hydraulic lift mechanism is designed for long-term use and generally requires no maintenance. Do not lubricate the hydraulic cylinders.
- **Regular Checks:** Periodically check all screws and fasteners to ensure they remain tight. Re-tighten if necessary.
- **Ventilation:** Ensure adequate air circulation around and under the bed to prevent moisture buildup in the storage compartment.

## 7. TROUBLESHOOTING

If you encounter any issues with your FORVIK Storage Bed, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Bed creaks or wobbles.	Loose fasteners.	Check and tighten all screws and bolts. Ensure the bed is on a level surface.
Storage mechanism is difficult to lift or close.	Overloaded storage, incorrect mattress weight, or mechanism not properly installed.	Ensure storage is not overloaded (max 240 kg total bed weight). Verify mattress size (180x200 cm) and weight are appropriate. Re-check hydraulic mechanism installation.
Slats are loose or broken.	Excessive weight or improper installation.	Ensure weight limit is not exceeded. Re-seat loose slats. Contact customer support for replacement slats if broken.
Fabric appears stained or dirty.	Accumulated dust or spills.	Refer to the "Maintenance and Care" section for cleaning instructions.

If the problem persists after attempting these solutions, please contact Vente-unique customer support.

## 8. SPECIFICATIONS

Feature	Detail
Model Name	FORVIK
Product Type	Storage Bed
Color	Night Blue
Upholstery Material	Fabric (95% Polyester, 5% Nylon)
Frame Structure	Wood, MDF
Overall Dimensions (L x H x D)	224 cm x 95 cm x 255 cm
Bed Height (from floor)	44 cm
Compatible Mattress Size	180 x 200 cm (Mattress not included)
Slatted Base Type	HDF Slatted Frame (51 slats)
Storage Compartment	Divided into 2 parts
Storage Chest Internal Dimensions (approx.)	L178 x P98 cm (each section)
Maximum Supported Load	240 kg
Assembly Required	Yes
Origin	Made in Europe

## 9. WARRANTY AND SUPPORT

Vente-unique products are manufactured to high quality standards. For information regarding warranty

coverage, claims, or technical support, please refer to the warranty card included with your purchase or visit the official Vente-unique website.

For direct assistance, you may contact Vente-unique customer service through their official channels. Please have your purchase receipt and product model information (FORVIK, B0CQ2NRCG4) ready when contacting support.
