NARWAL YJGSS01

NARWAL S10 Pro Microfiber Brush Roller Instruction Manual

Model: S10 Pro (YJGSS01)

Brand: NARWAL

INTRODUCTION

This manual provides essential information for the proper use and maintenance of your NARWAL S10 Pro High-Efficiency Microfiber Brush Roller. Designed for optimal dirt and debris pickup, this brush roller ensures efficient and thorough cleaning of your floors. Please read this manual carefully before installation and use.

KEY FEATURES

- **Superior Cleaning Efficiency:** Engineered with dense microfibers to effectively capture and hold spills, oil, and debris, ensuring your floors remain clean and shiny.
- **Anti-Tangle Design:** Constructed to minimize tangles, this roller brush maintains its functionality and form, making your cleaning process smoother and faster.
- **Reliable Floor Care:** Specially coated to take good care of your floors, enhancing their longevity and appearance without harsh chemicals.
- **Intelligent Replacement Alerts:** Integrated technology notifies you when it's time to replace the brush, ensuring your cleaning remains optimally effective.

Narwal Vacuum Mop S10 Pro

Specialized Microbe-Reducing Roller Brush

Efficient floor cleaning without tangling, more reliable microbe-reducing durability.

High dirt absorption

Anti-tangle

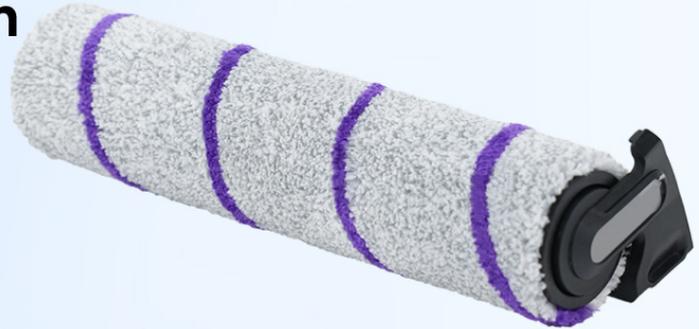

Image: The NARWAL S10 Pro Microfiber Brush Roller, highlighting its specialized microbe-reducing capabilities and efficient, anti-tangle design.

Structural anti-tangle, Higher drying efficiency

High-density short fibers prevent tangling and are easier to dry.

Image: Close-up view illustrating the structural anti-tangle design of the brush roller, which features high-density short fibers to prevent tangling and promote faster drying.

High Dirt Absorption and Floor Care

Microfibers effectively absorb water, oil stains, and dust, making floors shiny and spotless. High-density fibers keep it moist, soft, and floor-friendly.

INSTALLATION

The NARWAL S10 Pro Microfiber Brush Roller is designed for easy installation and replacement. Follow these steps to install or replace your brush roller:

1. Ensure your NARWAL S10 Pro Wet and Dry Vacuum is powered off and unplugged before beginning.
2. Locate the brush roller compartment on your vacuum.
3. To remove the old brush roller, pull up the roller brush handle from the left end to detach it.
4. Align the new brush roller with the existing grooves in the vacuum's brush roller compartment.
5. Gently push the new roller brush into place until it clicks securely. Ensure both ends are properly seated.

OPERATION

Once installed, the NARWAL S10 Pro Microfiber Brush Roller operates automatically as part of your NARWAL S10 Pro Wet and Dry Vacuum. Its high-efficiency microfiber design ensures effective cleaning by absorbing spills, oil, and debris while protecting your floors. The anti-tangle design minimizes hair wrap, maintaining consistent cleaning performance.

MAINTENANCE

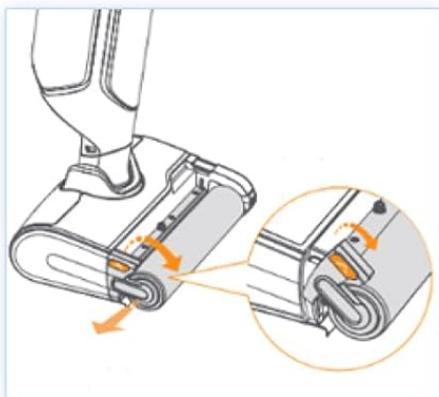

Regular maintenance of your brush roller is crucial for optimal cleaning results and extending its lifespan. The vacuum's

intelligent system will alert you when replacement is recommended.

Cleaning the Brush Roller:

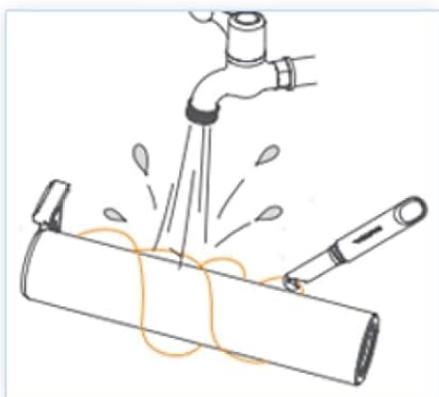

1. After each use, remove the brush roller from the vacuum as described in the Installation section.
2. Rinse the brush roller thoroughly under clean running water.
3. Use the included cleaning brush to remove any trapped hair, debris, or stubborn dirt from the microfiber and the ends of the roller.
4. Allow the brush roller to air dry completely in a well-ventilated, cool place before re-installing or storing. Avoid direct sunlight to prolong its life.

Regular Maintenance for Better Cleaning Results

1

Pull up the roller brush handle from the left end to remove it easily.

2

Use clean water and the included brush to clean the roller, removing any residual hair.

Replacement Alerts:

Your NARWAL S10 Pro vacuum is equipped with intelligent technology that monitors the brush roller's lifespan. When it's time for a replacement, you will receive an alert on the vacuum's display, ensuring continuous optimal cleaning performance.

Voice Prompt for Replacement, Replacement Reminder

Intelligent detection of roller brush lifespan, recommending replacement to ensure optimal cleaning performance.
